DOCTORS SOON MEET

Osteopaths of Country Come Here on August 2.

ABOUT 1300 ARE COMING

Feature of Opening Night Will Be Addresses on Work of Profession by Prominent Members at Local Theater.

Between 1200 and 1300 osteopaths will be in Portland the latter part of next week in readiness for the National convention of the association, which will begin August 2 and continue until August 6. This is the 19th annual convention of the National association.

The headquarters for the meeting are to be at the Multnomah Hotel. A popular meeting in one of the theaters of the city will be held on the evening of the opening day, at which Dr. R. Kendrick Smith, president of the Boston Browning Society, director of the public education bureau of the National osteopathic organization and well known as a lecturer and writer, will deliver a popular address upon public health.

Specialists Will Speak. Dr. T. J. Ruddy, professor of ophthalmology at the College of Osteopathic Physicians and Surgeons at Los Angeles, will give a stereoscopic lecture upon the specialty, in which he is recognized as an authority. Dr. Arthur G. Ellidreth, president of the Osteopathic Sanitarium at Macon, Mo., will tell how just been discovered that osteopathy cures some kind of the cause of the displacement of bones.

Extent of Work Told. "Twilight sleep," not the drug kind, but the pressure anesthesia, which is the osteopathic substitute for it, will be explained by Dr. M. E. Clark, of Indianapolis, the author of the textbook on obstetrics. The establishment of osteopathic clinics in 300 churches throughout the country will be described by Dr. H. M. Vastine, of Harrisburg, Pa., chairman of the National board of clinics. Dr. C. M. Hulett, superintendent of the A. T. Still Research Institute in Chicago, will outline the latest experiments conducted in that institution.

This represents only the beginning of a week of deliberation and scholarly addresses prepared by some of the most advanced men of the profession in the world. Each of these will be given from two to three addresses of major importance, to say nothing of numberless minor papers and addresses, which will have a great popular as well as technical interest to those who have interested themselves in this science.

SALARIES OF 2 CUT AGAIN. Efficiency Records Cause Loss of Pay for City Employees.

The city's efficiency system, as administered by Commissioner Dieck, yesterday resulted in the cutting of salaries of two employees for inability to earn the amount they were receiving. This is the second cut these men have received in less than a year.

W. S. Chapman, an engineer, was reduced last December from \$145 to \$125 and again yesterday from \$125 to \$123. The same procedure was taken in the case of J. G. Garrow. Mr. Chapman has been in the service since 1904 and Mr. Garrow since 1907.

SUNDAY DIRGE ENDS

Day of Rest to Be Observed in Burial Grounds.

ALL UNDERTAKERS IN PACT Agreement of Crematories and Cemeteries Is Hastened by Protest of Attaches Against Working 7 Days in Week.

No more Sunday funerals in Portland. That is the latest edict of the people who control the cemeteries.

Following the protest of the preachers and all other folks who have to do with the lugubrious business of burying the dead have set their stamp of approval on the plan.

While this restriction has been suggested a time or two by the undertaking profession and has been ignored repeatedly by the preachers, a suggestion didn't develop definite results until the gravediggers, floral gardeners and other attaches of the cemeteries protested against a system that kept them working seven days in the week.

The crematories have joined with the cemeteries in the order and as there is little opposition to the movement the new arrangement will go into effect.

J. A. Strowbridge, secretary of the Lone Fir Cemetery Association, is in much as he suggested it to the other cemetery organizations and readily secured their consent.

Church Delegates to Be Guests for Breakfast and Auto Trip.

A large delegation of Universalists, who will arrive at 7:30 o'clock this morning from Los Angeles, will be entertained by Portland Universalists and the Portland Chamber of Commerce.

At no time should people be more careful of the condition of their bowels than during the hot weather. Constipation should be guarded against especially, as many serious, and often fatal, diseases are traceable to neglect.

Some people find that certain fruits have a laxative effect, but this cannot always be depended upon; a mild laxative tonic that will act gently, yet positively, without gripping or shock to the system, is far preferable. A combination of simple laxative herbs with pepsin, sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin, is highly recommended as being easy and natural in its action, pleasant to the taste and certain in its effect. A dose of this excellent remedy at bedtime will restore normal activity in the morning, carry off the heaviness and bloating. Salts
