APRICOT marmalade—Wash, skin, and quarter the fruit. For every four pounds fruit allow three pounds sugar. Simmer the fruit gently until it is smooth and pulpy, stirring often. Then add the sugar and a few apricot kernels, blanched and cut in halves, allowing one or two kernels to every

cup of pulp. A little lemon juice is sometimes a good addition where the apricots are very ripe or are "flat" in flavor. Stir frequently and boil with the sugar about 20 minutes or until the mixture "thickens" and when dropped on a cold plate. Store like jelly.

Apricot jam—Wash, skin, stone and halve the fruit. For every three pounds apricots allow 2 1/2 to 3 pounds sugar, according to the sweetness of the fruit. Place the fruit and one half the sugar in layers in a large bowl and let stand 12 hours in a cool place. Drain off into a preserving pan the syrup formed on standing. Add the remaining sugar and stir until it dissolves. Then put in the apricots, with about one-third of their kernels, blanched and sliced. Boil gently 30 to 40 minutes. Test on a cold plate. Store like jelly. A smaller proportion of kernels may be used if preferred.

Portland, Oct. 11.—Will you kindly give directions for canning young beets, also for canning spinach? Can you tell me how to make the cream filling found in sugar wafers we buy? Thanking you in advance for much help already received from your MISS.

Following are directions given by the United States Department of Agriculture for canning beets and spinach. The beet tops if tender may be canned like spinach.

Beets—Blanch 1 to 10 minutes in boiling water, plunge in cold water; remove skins; slice and pack, adding boiling water and one level teaspoonful salt for each pint. Place rubber and top and tighten covers. Process 1 1/2 hours in hot-water bath, 1 1/4 hours in water-seal, one hour under five pounds of steam, or 40 minutes in pressure cooker. Remove jars, tighten covers and invert to cool.

Greens (spinach, dandelion, mustard, beet tops, Swiss chard)—Blanch in boiling water 10 to 20 minutes, plunge in cold water. Cut ready for table use. Season with slice of bacon for each pint. Pack and add water and a little salt to each quart. Place rubber and top and partially tighten. Process 90 minutes in hot-water bath or water-seal outfit, 40 minutes under five pounds of steam or 40 minutes in pressure cooker. Remove, tighten covers and invert to cool.

It is always advisable to process the greens a short time before packing, in order to reduce the bulk, or make possible a full pack.

The "hot-water bath" includes the ordinary wash boiler fitted with a wooden rack. Place the jars on the rack with water up to the shoulder of the jar. The process time is counted from when the water actually boils, not simply when the jars are put in.

Many of the sugar wafers of various kinds on the market have a filling made by beating together two parts sifted powdered sugar with one part karo or cocoanut tincture, flavored with coffee, cocoa, vanilla, almond, lemon, etc. In some mixtures a little powdered milk is added. The filling closely resembles "malted sauce" or mocha frosting, except that cocoanut butter is used in place of ordinary butter. The same filling might be used for ornamental cakes or "sandwich" cookies. The regular "sugar wafer" cannot be made satisfactorily at home, as special appliances are needed.

WOMEN'S CLUBS
BY EDITH KNIGHT HOLMES

MISS VIRGINIA ARNOLD, who addressed the Central Women's Christian Temperance Union yesterday, expressed the hope that suffragists all over the country would work together for National suffrage. She read messages from Kate Gordon, president of the Southern Women's Suffrage Association, and Annette Finnegan, president of the Texas Association, showing that both believed that the introduction of a clause for suffrage in the National constitution is the aim for which women should work. Miss Arnold expressed no unkindly feeling toward the National Association but answered many of the statements that had been made by Mrs. M. L. T. Hidden at a previous meeting of the Central Union before whom Mrs. Hidden had discussed the Congressional Union, the organization that is work-

ing for the Federal amendment and is doing so by holding the party in power responsible.

At the close of her address Miss Arnold was given a vote of thanks. Mrs. Hidden did not attend the meeting.

The Women's Civic Welfare Club will meet this afternoon in room 8, Central Library. Judge W. N. Gaten will speak on a new phase of child welfare work. The public is invited.

The suffragists in New York have designated July 29 as a day when they will use the telephone and telegraph in the cause that is nearest their hearts. They are asking the women all over the United States to cooperate with them. Some of the most prominent men in suffrage states will telegraph the Eastern workers telling them that the Western women use the ballot sanely. New Jersey will have its all-important election on October 19. New York will have hers on November 2. The governors of the Eastern states will have the matter called to their attention.

Mrs. Mattie Wilson and Mrs. Hanson, who had charge of the W. C. T. U. rest cottage at Chautauque, report that many persons visited the headquarters and shared the hospitality of the organization. Many addresses were given, notable among which was one by Mrs. Mattie Sheeth, who spoke on "Community Recreation Centers."

Mrs. Mattie Sheeth, president of the Multnomah County W. C. T. U., will give an address on Sunday, August 1, at 10:15 o'clock, outside of the old Third and Taylor-street Methodist Church. "I mean to say what I think is right," declares Mrs. Sheeth, who will speak in the Centenary Church next Sunday night, and on July 26 will address the Evangelical Association at Jennings Lodge. Her subject will be "Christian Citizenship."

TIMBER CRUISE UNDER FIRE

Defendants in Dodge Suit Question Figures Submitted.

Proceedings in the \$414,000 timber lawsuit before Circuit Judge Kavanagh dragged yesterday, while A. E. Clark, attorney for defendants Frederick A. Kribs and Willard N. Jones, cross-examined H. D. Langille about a cruise of the Kribs tract of timber, which Mr. Langille's firm had made.

Figures compiled by the timber-estimating firm of J. D. Lacey & Co. were gone over in detail. Attorney Thomas Mannix, for the plaintiff E. H. Dodge, had not completed a recheck examination of Mr. Langille when court adjourned.

The suit now has been on trial 21 full days, and plaintiff has not yet completed his case.
