NOTE TO BRITAIN READY

Protest Against Action by Ordersin-Council Contrary to International Law to Be Forwarded Within Fortnight.

WASHINGTON, July 22 .- The United States Government before determining the next step in its general diplomatic policy will, for a brief period, await indications from official quarters in Berlin as to the reception of the new note warning Germany that the loss of American lives through further violation of neutral rights would be regarded as "unfriendly."

The note, started on its way to Berlin late last night, probably will be delivered by Ambassador Gerard tomorrow. It will be given out by the State Department for publication in Saturday morning's newspapers.

Everywhere in official quarters it was pointed out today that the document speaks the final word on how the United States Government would was that the repetition of such a disaster as befell the Lusitania would mean the convening of Congress by President Wilson for consideration of action to be taken.

In the event that the status is maintained, however, and there are indications through official or unofficial MUNITION MAKING FORBID channels that German submarines in future will conform to the rules of international law in saving the lives of Americans on unresisting merchant-President Wilson will take up soon the situation that has arisen with Great Britain over interference with American commerce by the ailies.

Demands on Britain Outlined. Data are being gathered at the State Department, but the new note probably will not deal to any extent with specific instances, contending chiefly for the general principle involved. with renewed insistence on modifications in the order-in-council to conform with what the United States regards as the accepted rule of international law. The recent filing of a legal caveat announcing that ordersin-council and British municipal law do not affect the rights of American citizens under international law was United States is pursuing to obtain acquiescence in its point of view.

Interest centered for the most part today in diplomatic quarters on the nature of the new note to Germany, Sufficient of its contents has become known to cause widespread comment on the apparently determined position taken by the United States.

DES MOINES, Ia., July 22,-Means of raising funds for state campaign work, of methods to be used in a campaig OF FINALITY IS GIVEN against profanity, and an explanation and indorsement of the subsidiary organization of the Gideons, known as the Inner Circle, were discussed at the National convention of the Gideons here today.

It was determined that the most sucessful method of securing funds was the sale of associate and sustaining memberships. The associate memberships are sold for \$5 to any wholesale: employing traveling salesmen. The sustaining membership is sold to the regular members, who pay an additional sum for it.

In an effort to stamp out profanity among travelers a resolution was adopted providing that small cards similar in size and shape to business cards be prepared and furnished to the members. The cards will bear a sermon entitled: "Twelve Good Reasons for Swearing." When a member encounters profane man on the train he will hand him one of the cards.

Thursday's War Moves

THE Austro-German armies continue I to press the Russian forces defendng Warsaw, but while they have made progress at some points they have not made any serious breach in the wellfortified inner lines.

The Russians have been pressed back

to the bridgehead positions directly west of Warsaw and into the fortress of Ivangorod, farther to the southeast on the Vistula. At these points they are probably in a better position to offer stubbern resistance to their opponents. The two attacks that are eing made at the north along the Narew River by Field Marshal von Hindenburg and that which Field Marshal Mackensen is directing from the outheast on the Vistula and Bug rivers, apparently have been held up or the Germans are waiting for an opporune moment to move forward and catch the Russians, should it be decided o evacuate Warsaw.

The Berlin official statement does ot assert any advance for Von Mackensen, while the report, although it says that the Russians have ceased their counter attacks along the Narew, oes not mention any success by Von Hindenburg. However, if the Russians old Warsaw it would surprise military rities in the allied countries who have discounted the loss of the city, attacked from all sides by opponents possessed f superiority in guns and munitions.

Grand Duke Nicholas, although able to deliver some stinging counter attacks and innict heavy losses on the Austro-Germans, must in the first place consider the safety of his armies, the oss of which would be much more selous for the Russians than retirement

In the region of Shavli, on the Dubissa River, and on the Mariampol-Kovno road, the Germans recite a series of successes, but nothing is said of the fighting near Riga, for which city another German army is heading.

The Argonne and the Vosges still are the scenes of the severe fighting in the west. The accounts from the opposing sides are as contradictory as ever, but the war, so far as t would appear that the French are the number of men he aggressors in the Vosges and have nade some progress, and the Germans the front is con save offset this by a partially successful offensive in the Argonne.
