Question Discussed by President Before Making Call for Information.

FOREIGN SITUATION IN MIND

Announcement of Policy Causes Widespread Discussion - Army Will Ask for \$200,000,000 and Navy for \$250,000,000.

WASHINGTON, July 25 .- Announcement from the White House Saturday that President Wilson had directed Secretaries Garrison and Daniels to report retaries Garrison and Daniels to report to him a programme of National de-fense caused widespread comment. It became known that several weeks ago the President discussed the question at length with his Cabinet, with the im-mediate result that both the War and Navy Departments began secret preparation of plans to meet any emerg-ency and also to establish a permanent policy to be presented to Congress for adequate National defense.

The White House statement gave no

reason for the announcement, saying merely that the President would confer on his return from Cornish, N. H., with Secretaries Daniels and Garrison "to formulate a sane, reasonable and practical programme of National de-

It was indicated clearly, however, in official quarters that the determination to expedite such plans as were being made resulted from a consideration of the many possibilities of the present international situation.

Entire Subject Emphasized. The President in letters to Secretaries Garrison and Daniels early last week, calling for the reports, made no reference to any particular situation, but emphasized the importance of the entire subject of National defense. He wishes to make the Navy as efficient and effectual as any in the world; to see the Regular Army adequately developed and any in the officients. veloped and equipped with the citizenry trained to arms in a way consistent with American traditions, and which will commend itself to practical and

For several weeks Secretary Garrison has been in conference with members of the general staff shaping plans for presentation to the President. The general board of the Navy abandoned its usual trip to Newport this Summer and is preparing its recommendations for Secretary Daniels. The President wishes to have this information ready when he returns from Cornish, and the indications are that the entire influence of the Administration will be exerted when Congress meets to secure appropriations adequate to establish the policy of defense that will be formulated. formulated.

Special Session Not Decided On. Mr. Wilson has not indicated whether or not he will call Congress into special session This depends largely on developments in the international situation. The dispatch to Cermany of what is generally regarded the strong-est note yet written to any of the European belligerents has accentuated practice. the possibility of a special session in the event that American rights are vio-lated again by German submarine com-

While there was widespread discussion today of the Admin stration's plans for N-tional defense, the prevailing interest was in the probable size. Army and Navy officers, who are fa-millar with the latest developments nd who are enthusiastic over the acking which President Wilson is giving the programme so far developed, he belief prevailed that a military prisoner's Confession in Honeybudget practically double that of last year would be presented. The Army, it was believed, would seek at least \$200,000,000, and the Navy perhaps as high as \$250,000,000.

Large Reserve Army Planned. War Department plans look toward the development of a large reserve army with a minimum, it is "aid, of 500,000 men, and with adequate provisions for the use of the militia and the men who have previously served in the Regular Army. Weekly meetings are being held by the board designated by Secretary Garrison to prepare plans for a general reorganization of the Regular Army. Special attention is being siven, it is understood, to planning for an adequate supply of guns, am-

expected to include several battle head cruisers, a minimum of four dreading, of scout cruisers and a proportionate number of scout cruisers and auxiliary craft, such as fuel ships and submarine

The Department is deeply engaged in experiments with aeropianes and sub-marines and also with attempts to find a practical means of defense for battleships against torpedoes. The experts, it is s. d. are spending \$100,000 on this last problem alone.

## WILSON EXPECTS TO WORK

Trip to Cornish Not Vacation, but Opportunity for Quiet.

CORNISH, July 25.—Freed from the minor worries incident to his official life in Washington, President Wilson settled dow nhere Saturday to a period of hard work on a group of subjects which he has desired to study for some me. He arrived at Harlakenden ouse Saturday for an indefinite stay. President Wilson brought with him data on the Mexican question and next week he probably will receive from Secretary Lansing the draft of the note to Great Britain protesting against in-terference with commerce between the United States and neutral national abroad which have been under preparation for some time.

The President's purpose in coming

here at this time was described by him today in speaking to an admirer at a station on the way.
"I am not expecting a vacation," he said, "but sm coming to Cornish for an uninterrupted opportunity for work."

University Dr. Thwing is also president of Adelbert College, for men. The uni-versity is nonsectarian and enrolls be-tween 1300 and 1400 students with 228

1876, but has degrees from several er well-known educational institu-ns, including Andover Theological Seminary, Chicago Theological Seminary, Marietta College, and Washington and Jefferson University.

For several years after being ordal ed

into the Congregational ministry in 1879 Dr. Thwing preached at the North Avenue church, Cambridge, from 1878 to 1886 and then became pastor of the large Plymouth Church at Minneapolis, which charge he held until 1890, when he was elected president of Western Reserve. Among his interesting books are "The College Woman," "The Youth's Dream of Life," "If I Were a College Student," and "College Training and the Business Man." His writings have been much discussed and he has not

James A. McPherson. Rising from the post of deliveryman for a coffee house to fea-ture place on the vaudeville stage is the achievement of James A. McPherson, of Portland, who will make his debut as "Charlie Chaplin's Double" at the Empress Theater this afternoon.

Mr. McPherson bears a great resemblance to the famous moving-picture comedian in real life and when made up as Chaplin.

and, when made up as Chaplin, showmen declare McPherson and the great film funster are as much alike as two peas in a pod. Mr. McPherson gave a tryout of his Chaplin imitation at the Empress last Thursday night and was such a success that H. W. Pierong, manager of the Em-press, engaged the Portlander as an extra attraction all this week. Mr. McPherson will be assisted in his pantomimic comedy by his wife.

Authority Is Given to Use Force if Mexicans Endanger Americans.

HINT TAKEN BY CARRANZA

Forces Before Nogales Will Not Attack and Naco Garrison Marches Out-Situation Throughout Mexico Is Grave.

WASHINGTON, July 25. - Orders ere issued Saturday with the approval of President Wilson to Major-General Funston to repel with force if necessary any firing into American terri-tory Juring fighting between the fac-btions in border towns and a note was dispatched to Ceneral Carransa advis-

him of that fact. Cruz to the Carranza headquarters here said the General had specifically instructed General Calles, his commander before Nogales, not to attack the Villa force there, and gave assurances that the Carranza force which has occupied Naco would withdraw, leaving a civil administration in charge. The garrison marched out late today. New Complication Avoided.

What threatened a new complication mat threatened a new complication in the Mexican situation apparently passed over, with officials here determined to take drastic action if the Mexicans forced the fighting.

The situation throughout Mexico, as reported from various sections today, was considered discouraging by officials.

Mexico City is completely cut off and presumably in the hands of a band of Indians under the control of Gen-eral Zapata. General Pablo Gonzales, the Carranza commander, is in the vi-cinity of Pachuca endeavoring to retake General Obregon, another Carranza leader, according to official reports, is isolated north of Mexico City. A flying column of Villa troops has taken Queretaro and is operating in the vicinity of the Mexica capital.

Guanajuato In Anarchy. With the main forces away from their bases and moving away from destroyed railroads news of the mili-tary situation is meager. The city of Guanajuato, however, is reported as in restore order.
