JURISDICTION IS EXTENDED

North Bank Superintendents to Have Greater Duties.

In accordance with the policy of operating all its affiliated railroads in the closest possible relationship to itself, the North Bank system has ex-tended the jurisdiction of two more of its officials over some of its sub-

aidiaries. Effective August 1 the jurisdiction of C. A. Vermillion, superintendent of car service and telegraph, is extended over the Spokane & Inland Empire Railroad and the Great Northern Pacific Steam-

ship Company. On the same date the jurisdiction of A. J. Davidson, superintendent of the Portland division, will be extended to include the North Bank lines east of Vancou er and the Oregon Trunk Railway. F. A. Brainerd, ex-superintendent of the lines east of Vancouver, has resigned on account of Ill heaith.

in the bag and buriap trade. Although definite information was incking as to how assepting the order was, the consenuts of opinion was that exports would be resirieted in the same way as shipments from Dundee.

Responsible shippers are not expected to encounter any difficulty in shipping licenses to export buriap to the United States, although delays probably will result on account of the time required to procure the necessary permits.

The Calcutta market was reported weaker because of the restrictions that have been placed on exports.

BLACK RUST IS WORSE

CONDITIONS ARE MORE SERIOUS IN SPRING WHEAT STATES.

Chiengo Murket Has Brisk Uphill Movement and Closes Strong With Good Gains Noticeable.

CHICAGO, July 21.—Black rust, becoming more serious in Minnesota and North Dakets, gave additional impetus today to an upturn in the wheat market, owing to unwelcome rains throughout the West. Frices closed strong %c to 1%c above lust night. Corn finished %c to %c up and eats with a gain of %c to 1%c. The outcome in provisions varied from 10c decline to 15c advance.

Crop dumage and wet weather in Kansas, Nebrasha and Missouri wheatfields had a bulleh effect second only to that due to black rust. Unsettled weather in the domestic harvest region, with a forecast of more, led to higher prices from the start. There was also a decided failing off in the European visible supply and it was said the movement hereafter from India would be light. Subsequently word that black rust infection was spreading in Minnesota and North Dakota brought about a fresh upturn.

Corn sympathized with wheat strength. Oats hardened in price on account of the firmness of other cereals and because of harvest delays.

Shorts experienced considerable difficulty trying to even up en the July delivery.

Leading futures ranged as follows:
