COAST SYMPHONY ORCHESTRA URGED

Cities Should Co-operate in **Emulating Boston, Says** Chicago Critic.

SAN FRANCISCO HAS LEADER

Visitor Sees Future for Western Musical Organization Formed Supported United Effort.

"Its symphony orchestra has made Chicago a more enjoyable place in which to live. People in the Far West ought to hear more symphony music. There is room along the Pacific Coast for one symphony orchestra—and only one. The San Francisco Symphony Orchestra ought to be for the Pacific Coast what the Boston Symphony Orchestra is for the whole of New England—particularly Massachusetts."

The speaker was Charles French.

The speaker was Charles French, resident and general manager of the usical Leader Publishing Company, of Chicago, who, with Mrs. French and Miss French, is the guest of Miss Emi-lie Frances Bauer and her brother, Cecil H. Bauer, of this city. Mr. French is an acknowledged musical authority and he has largely shaped the present musical history of Chicago. Mr. French is Irish, and Mrs. French English, but they are in perfect accord, they and their family, in their sincers. their sincers Americanism. Mr. French is also known as the president of the Irish Fellowship Club, of Chicago, the club that began the work in this country of "splitting the hyphen" in the naturalization question and making all foreign-born citizens plain Americans.
"I believe in the aducational and

foreign-born citizens plain Americans.

"I believe in the educational and spiritual influences of first-class symphony music," continued Mr. French.

"In the regular music season we have symphony concerts in Chicago each week. I have kept note of the symphony orchestra question in this city, and am glad to know that the venture has been so successful on the basis of co-operation and all conductors elected by bailot from the membership." ed by ballot from the membership."

Portland Scheme Interests. have been especially interested to hear of the admission, without charge, of high school children and children from the higher grades of grammar schools, to the rehearsals of the Portland Symphony Orchestra before each concert," said Mrs. French, who is editor of the Musical Leader. "This is a new idea for symphony orchestras, one which I shall bring to the attention of those interested when we return to the

"What plan would you propose to popularize the question of symphony orchestras along the Pacific Coast?"

was asked of Mr. French. "Well, the San Francisco Symphony Orchestra has made a very good be-ginning, in engaging as conductor Al-fred Hertz, lately orchestra leader of the New York Metropolitan Orchestra, the New York Metropolitan Orchestra, at a salary of \$10,000 for one year," replied Mr. French. "Now, probably no other city along the Pacific Coast could better that position. What would be the use, then, of trying to duplicate another expensive symphony orchestra in this part of the country? Los Angeles, San Francisco, Portland and Seattle should club together on this symphony question and look upon the San Francisco symphony as a friend San Francisco symphony as a friend rather than as an opponent. The San Francisco Orchestra might give con-certs in Los Angeles. Portland and Sehestras of these cities-one at a time Or symphony orchestras from Port-land. Los Angeles and Seattle might play at intervals in San Francisco, along with the San Francisco orches-

Local Conductor Needed.

"I am glad to see merit recognized in the present Portland Symphony Orchestra by electing members to be conductors," said Mrs. French. "By that plan one great conductor might be evolved in Portland, as Frederick Stock was elevated from his position as an ordinary member of the Chicago Theodore Thomas Symphony Orches-tra, to be its conductor. Once this one big Portland conductor has been de-termined upon, the symphony ques-tion in this city will be clearer."
