LAND EXCHANGE REFERRED. Proposal by Percy H. Blyth Is Recommended by Mr. Dieck. The proposed exchange of the lot occupied by fire engine company No. 3 at Sixteenth and Washington streets for lots offered by Percy H. Blyth in the vicinity of Morrison and Chapman streets was referred to the Commission of Public Safety yesterday by the City Council. The exchange was recommended by Commissioner Dieck, of the department of public works. It was brought out that the proposed exchange had been considered at a previous time and had been rejected by the fire bureau.

The firehouse at Sixteenth and Washington streets overlaps the adjoining lot nearly a foot, and there is also a possibility that ten feet may be taken from the front of the property for widening and straightening Washington street.

FARM PLAN UP TO COUNTY

Property Nearby Desired to Extend Washington Park. The question of whether the City of Portland shall have the property known as the old county farm, located about 500 feet west of the west line of Washington Park, to use for park purposes is now definitely up to the County Commissioners. The City Council at its regular meeting yesterday passed a resolution requesting that the property be turned over to the city. Commissioner Dieck, the framer of the resolution, expressed the belief that the County Commissioners would be willing to deed the property to the city, inasmuch as the county had no further use for the farm, which consists of about 200 acres and is considered to be particularly well adapted for park purposes. The Canyon road passes through the southern end of it. Commissioner Dieck pointed out that a portion of it would be ideal for a botanical garden and that the remainder could be put to different park purposes.

These Federal officials are on their way to Berkeley for the pure-food convention to be held the first part of August.

CLUB UNION IS URGED. ST. JOHNS STARTS PENINSULA FEDERATION MOVEMENT. Civic Organizations Will Be Asked to Work Together in Large Improvement Matters. A committee was appointed at the meeting of the St. Johns Club Tuesday night to form a federation of the clubs on the Peninsula. It was the sentiment of the meeting that a strong federation of all the Peninsula organizations can handle the large affairs, while the local clubs could take care of strictly local matters. Secretary Markie was instructed to ask the other Peninsula clubs to join the same committee. The committee of 19 reported that at a conference the City Council had agreed to take up the matter of acquiring the St. Johns waterworks with the owners of the plant, and will make an estimate of the probable value of the plant, and may make the owners an offer. Owners have held the property at \$150,000, but the St. Johns Council valued it at \$130,000.

SIX YOUTHS ARE INDICTED. Two Boys Arrested in Connection With Fowle Case. Two of six youths indicted by the grand jury last week as a result of the death of the infant child of 17-year-old Harriet Fowle, were arrested Monday night by Deputy Sheriff Christensen, a letter purporting to come from "Bullet Dick" and purposely drops it on the schoolroom floor. The other girls find it but do not believe it. So they arrange to humiliate Doris by introducing her to her hero at a reception. Dick, however, learns of the plot in advance, and foils it by acting as if he and Doris were old friends. Later he proposes and is accepted.

PARTY POLICY THANKED

UNITING REPUBLICAN FACTIONS CREDITED TO DEMOCRATS. Visiting Secretary of National Union Predicts Nomination of Man of Borah or Hughes Type.

"All the political missionaries in the country could not accomplish half so much as have Democratic policies in the President's manner of handling the Republican party together," said Charles C. Hart, of Washington, D. C., secretary of the National Progressive Republican Union, who is in Portland for a few days.

"Those who joined the third party in 1912 again call themselves Republicans because they realize that the differences of the last campaign were not fundamental, and it is their purpose to work within the party for a liberal platform and a liberal candidate next year. In this effort they will be joined by the most of those who supported Taft in 1912."

"Democratic policies have failed, and the effect is felt in every part of the country. On my present trip I have traveled from coast to coast. Everywhere I have found approval of the President's manner of handling the international war problem, but on the other hand an almost equally universal criticism of the Administration's economic policies. All that has saved the business and industrial situation is war."

"The farmers have been given the protection by the war which the Underwood tariff denied them and thousands of men in the great industrial centers of the East who had been deprived of employment when the same tariff closed the mills, have been put back to work in the manufacture of ammunition."

"Only the dragging of this country into a war can rob the Republicans of victory. Should Wilson become a war President the situation might be changed. It is far too early to forecast the Republican nomination but it seems reasonable to believe that the next candidate will be of the type of Borah or Hughes."

According to a report of the committee, the old St. Johns City Hall can be used for public meetings and other affairs for the present. The committee reported that just now nothing will be done about establishing a sub-police station on the Peninsula. Operation of the St. Johns ferry later than 8 P. M. was discussed. It was reported that the time could not be extended with the present crew, and that another crew would be needed if the ferry was run till 11 or 12, and further consideration of the subject was postponed.
