They are knitting and sewing for the soldiers at the The suffragists have given so little trouble to the government that it will undoubtedly soften the hearts of those in Parliament, since the "mili-tants" have turned all their energies to aid the fighting men of England, and so suffrage may soon come after this errible war is over.

Thousands of women in America have overcome their sufferings, and have been cured of womanly ills by Dr. Pierce's Favorite Prescription. This sedicine, though started nearly half a century ago, sells more widely today than any other womanly tonic. It can now be had in tablet form as well as liquid, and every woman who suffers from backache, headache, nervousness, pain at times, should take this "Precription" of Dr. Pierce.

Many a woman is nervous and irritable, feels dragged down and worn out for ho reason that she can think of. In 99 per cent of these cases it is the womanly organism which requires attention; the weak back, dizzy spells and black circles about the eyes, are only symptoms. Go to the source of trouble and correct the irregularities, the drains on the womanly system and the other symptoms disappear.

You misinterpreted what I said about not speaking of love before proposals. A man may tell his love in a thousand little ways without actually speaking the words "I love you." He may prove his devotion by numberless little acts of kindness and faithfulness, and he will do all of these things, of course, before he asks a girl to marry him. What I think is wrong is for a man to talk of love to a girl whom he never intends to marry and whom he does not truly love in his heart. It is the cheapening of love that I object to.
