

GERMANY REVEALS BELGIAN SECRETS

Diplomatic Reports Said to Have Been Found at Brussels Published.

BRITAIN HELD AGGRESSOR

Ambassador From Belgium at Berlin Quoted as Saying That Triple Alliance Was for Defense Only and Not to Make War.

RETRALIATION IS ENDED

EFFORTS OF AMBASSADOR GERARD IN GERMANY SUCCEEDED.

France to Return Mistreated Lieutenant and Germans Will Do Away With Harassment.

BERLIN, Aug. 9, by wireless to Sayville.—The Norddeutsche Allgemeine Zeitung continues, according to the Overseas News Agency, to publish installments of a series of documents purporting to be secret Belgian diplomatic reports found in Brussels by the Germans. The present installment largely comprises comment attributed to various Belgian diplomats regarding alleged political conditions in England, France and Italy during the years 1908 and 1909, so far as the international relations of those countries were affected.

The Overseas News Agency in its summary of the documents continues: "Baron Leghais, Belgian Ambassador at Paris, on February 2, 1908, on January 20, 1909, asked whether French 'jingoism' understood whether the new grouping of powers in the result of a vast program which was carefully schemed in London and in the execution of which Delcasse (the French Foreign Minister) is more tool than initiator."

English Aggression Feared.—"The Ambassador at Berlin once more refers to Germany's peaceful attitude, saying, on February 2, 1908, 'I have never had in Berlin the absurd and impossible idea of aggression against England, but everybody fears English aggression.'"

The same Ambassador states, on June 5, 1908, that France 'has returned to Delcasse's policy, but shrouded it in a mantle of hypocrisy.' The Ambassador of France to Berlin, whose reports on German affairs have been published in a French yellow book, was characterized on May 12, 1908, by his Belgian colleague thus: 'He is distrustful and suspicious, smells everywhere after thoughts and is badly informed as are all diplomats who make use of spies.'

Germany Said to Be Satisfied.—"The same Ambassador, on May 20, 1908, arraigned the members of the triple entente as follows: 'Russia and England, who, both, although with different results, only see, without plausible pretext, conducted wars of conquest in Macedonia and the Transcaucasus, which England did not possess, was the Ambassador's quoted characterization.'"

The same letter says further, 'the triple alliance against Germany, which peace to the world because it was conducted by Germany, who was satisfied with the political situation in Europe.'

New Grouping Dreaded.—"The new grouping of powers that desire a revision of the status quo. The Ambassador of Belgium, at Berlin, on July 18, 1908, declares that the British Ambassador in Berlin, Sir Frank Lascelles, was recalled because he tried to eliminate the misunderstanding between the two countries, which he considered as stupid and highly obnoxious for both, but his zeal did not correspond to the political ideas of his sovereigns."

The Belgian Ambassador at Paris, on October 8, 1908, declared that Russia wanted to tear to pieces the Berlin treaty. "The Belgian Ambassador at Berlin, who was anti-German, characterized, on February 12, 1909, the political role of the King of England as follows: 'The King of England gives assurance that peace is the aim of all his endeavors. This he has said always since the beginning of his successful diplomatic campaign. The leading intention of this campaign is to isolate Germany, but everyone is aware that the peace of the world never has been more seriously threatened than since the King of England tried to secure it.'

England Unfriendly, Is Charged.—"This same Ambassador, on March 31, 1909, characterized the state of public opinion in England as follows: 'The state of mind which prevails in England reminds one of that in France from 1865 to 1870. France believed it was her privilege to hinder Germany in the reconstruction of her unity for the reason she considered this as a menace to the Continental hegemony which France had enjoyed until that time. In the same manner England today regards it as an unfriendly act if Germany enters into an obligation to depend upon the mercy of England.'

The Belgian Ambassador at Berlin, on April 17, 1909, thus characterized the treachery of Italy: "For a long time past no one in either Berlin or Vienna has indulged in illusions as to the probable assistance of Italy. The Italian government is entering into engagements concerning its course toward France and England, and at the same time is flirting uninterceptedly with London and Paris. Italy, nevertheless, clings to the triple alliance and is using the same guarantee for the fidelity of her new friends, who inspire her with limited confidence only."

Alliance Purely Defensive.—"Italy reserves the right to side with the stronger party, as she did at Algiers, where she assisted France and England, and as she did more recently in the Oriental problems when she finally joined Germany and Austria-Hungary after having played an uncertain part until it became apparent which side would be successful."

Under date of June 21, 1909, the Belgian Ambassador at Berlin said: "The triple alliance always has been considered in this spirit in Berlin, because it was concluded with a purely defensive purpose."

THORN IN TRADE EXPOSED

(Continued From First Page.)
New England, but is not so considered because of the ignorance of the consumer. Much Pacific codfish is shipped East and sold as Atlantic cod, he said. Pacific fishermen wished their product to stand on its merits.

Education Declared Necessary.—E. A. Stuart, manufacturer of condensed milk, said it would be necessary to educate the people concerning the value of evaporated milk, in order to gain a market. At present there is not a good market abroad. He had heard of recent large shipments to foreign countries, but the reports could

not be verified, and he did not believe them, he said.
Z. S. McMILLIN, president of a line manufacturing company, declared that Canadian lime manufacturers are selling their products in the United States at a rate much lower than that charged in Canada, the purpose being to destroy the American lime industry by such unfair competition. There were 30 lime kilns in the Puget Sound basin, but only one now is in operation.
Written Charges Asked.—The commission took a keen interest in Mr. McMILLIN's complaint and requested him to file a written statement giving details of the alleged price-cutting.
Otto Case, secretary of the Seattle Commercial Club, said high rents are responsible for much of the business depression in the Puget Northwest. He asked the commission to study the question of extermination of salmon. He said he had seen salmon rotting in Alaska by thousands while consumers were paying highest prices for canned salmon.
The members of the commission were guests of honor at a dinner given by the Chamber of Commerce tonight.

RETALIATION IS ENDED

EFFORTS OF AMBASSADOR GERARD IN GERMANY SUCCEEDED.

France to Return Mistreated Lieutenant and Germans Will Do Away With Harassment.

BERLIN, July 21.—(Correspondence of the Associated Press.)—Through the efforts of James W. Gerard, the United States Ambassador to Germany, the French and German retaliatory measures arising out of the case of Lieutenant von Schierstaedt and Lieutenant Count von Strachwitz and a patrol of German soldiers have been virtually settled.

Reports received from Berlin said Schierstaedt will be returned to Germany, who was mistreated. Lieutenant von Schierstaedt is said to have been sentenced to deportation to French Guiana and to have been chained to another convict.

The German press demanded reprisals and six French officers captured by the Germans were picked out for harsh treatment. Some time ago the American Ambassador at the request of the French Government informed the Berlin Foreign Office that the Germans would be treated as prisoners of war and not as criminals.

It is understood that Count von Schierstaedt will be returned to Germany and the sentences of Count von Strachwitz and the soldiers of the patrol revoked. They will be treated as ordinary prisoners of war. The six French officers held for retaliatory treatment are to be returned to regular officers' camps.

TURK WARSHIP IS SUNK

MOST OF CREW ON CRAFT DESTROYED BY ALLIES SAID.

Loss of Barbarossa in Attack by Submarine Declared by Constantinople to Be Unimportant.

CONSTANTINOPLE, Aug. 9.—The Turkish battleship Kheyr-ed-Din Barbarossa, of 2900 tons displacement, formerly the German warship Kurfurst Friedrich Wilhelm, has been sunk by a submarine in the Aegean sea, according to an official announcement issued today by the Turkish government.

A majority of the officers and men in the crew of the battleship was saved.

The Kheyr-ed-Din Barbarossa was built at Stettin in 1911, and was purchased together with the battleship Torgut Reis from Germany by Turkey in 1910. The vessel was 354 feet long, 64 feet beam and had a depth of 24 feet. Her complement consisted of about 600 officers and men. The vessel was equipped with two submerged 18-inch torpedo tubes.

The official statement told of the destruction of the battleship adds: "The loss of the Barbarossa, which was sunk this morning, however regrettable in itself, does not affect us excessively except that it places the strength of our ships compared to that of the enemy in the ratio of one to ten."

FRENCH GAIN IN CONGO

Part Ceded to Germany in 1911 Is Conquered—Two Towns Taken.

PARIS, Aug. 9.—Encircling operations by French troops against German forces in the Kamerun German colony in West Africa, have resulted in further successes, according to an official statement issued by the ministry of the colonies today. The statement says:

"Encircling operations by French forces in the South and East Kamerun are proceeding successfully. On July 17, columns from the south took Bitam, which the enemy evacuated during the night, thus completing the conquest of that part of the Congo ceded to Germany in 1911.
"On July 23, columns operating in the east stormed the post of Moopa, forcing the enemy to retreat to Kamani, which in turn was captured four days later. Reconnaissances were immediately dispatched against Ngama Nyassi. The enemy are displaying great activity on the Gadjji-Beri Bima front. Gadjji, after a violent combat, was evacuated by the Germans."

GERMANY TO YIELD, IS VIEW

French Press Foresees Transfer of Attacks From American Ships.

PARIS, Aug. 9.—The Temps today publishes a summary of the diplomatic situation between the United States and Germany and concludes its article with the words:

"Whatever be the desire of the United States to avoid a conflict, it is certain that a rupture will follow any new exploit of German submarines threatening the lives of American citizens. Although the Germans pretend that 'America cannot win a great nation without the greatest prejudice to herself, it is probable that the firmness of the attitude of the Government of the United States will be sufficient to impose prudence on the Germans. Not daring to sink American vessels, the Germans probably will avenge themselves on the ships of other neutrals."

Former Utah Marshal Drops Dead.

HAMILTON, O., Aug. 9.—Nat Maynard Brigham, former United States Marshal for the then Territory of Utah, to which position he was appointed by the late President Cleveland, dropped dead here today. His home was in Wheaton, Ill. For the past several years, he had been a lecturer.

Nervous Periodical Headaches

Succumb to Anti-Kamnia Tablets

This trouble commonly called "tok head-ache" is said to be due to the retention of acids in the system. Often it is stated that a poor condition of the blood is a cause of these headaches, or that it is a nervous condition; and in certain cases, no doubt this is true.

Where treatment is demanded, it is more for the pain than anything else, and Dr. A. F. Schellischmidt of Louisville, has found Anti-Kamnia Tablets to give prompt and satisfactory relief. "Best should be insisted upon" he says, "and the patient should go to bed, darken the room, and all the attendants and family should be as quiet as possible. An emetic will sometimes shorten the attack. The bowels should be kept open with 'Aetolia'; a hot bath and a thorough rub-down with a coarse towel, often give grateful relief. Two Anti-Kamnia Tablets when the first signs appear, will usually prevent the attack. During an attack, one tablet every hour or two will shorten the attack and relieve the usual nausea and vomiting." These tablets may be obtained at all drugists. Ask for A-S Tablets. They are also unexcelled for nervous headaches, neuralgias and all pains.

Quick Turnovers

The modern merchant knows that the road to success is "quick turnover" of stock.

Fast-selling goods multiply the chances for profit. They keep the capital working.

When a good article is advertised in this newspaper it enters the "quick-turnover" class.

Public interest is centered on it—demand is created.

The wise retailers turn this situation to their profit by using the newspaper advertised goods at the time they are advertised.

They make new customers and increase sales with no expense to themselves.
