It is understood the purchases were made to cover domestic sales. Other dealers believe the advance is only temporary and that the market will later develop to its usual parity with other grains. It is generally acknowledged, however, that bardines to advance, for growers in that state, as in the Northwest, are not selling at the present time.

No wheat sales were pasted on the board, although bids were advanced all around. Bluestem offers were raised 3½ and 4 cents to \$1.00 for spot and \$1.05 to for August. These prices are above export values, as based on What ships and steamers are asking now, but there is tonnaze on the way that was taken some time ago at considerably lower. Tates, and a number of these cheap ships are near at hand. This and the slow sell-ing by farmers is the explanation dealers offer for the recent advance. There has been no buying of wheat for California shipment since prices went up, but there was some

grahacing for account of Coast millers. Legs talk is heard of probable flour busitess for French government account. The placing of a French order at Minneapolis for 10-200 barrels, as announced on this page yesterday, however, disposes of only

Improvement in Business Is Not Due Entirely
to War Orders.

The wool industry of the country has been showing signs of a marked revival in the past two weeks following the naming of new prices on men's wear for Spring, and on some lines of staple dress goods, says Dunn's Review. There has also come forward an active demand for worsted and woolen yarns for export delivery to countries at war, as well as to other countries whose normal sources of supply have been cut off. sources of supply have been cut off. An advance of 10 per cent in wages was anneunced hast week in the largest of the carpet mills of the country and all lines of carpetings and rugs are being advanced in price, consequent upon the high price of weel and the improved demand for certain grades of popular, priced goods for home use.

The progress already made by some of the largest weelen mills as distinguished from worsted units indicates that the Spring trade for home consumption, coupled with the broadening export demands, will supply them with hustness that will keep them well employed for the coming Winter. There are apprehensions of labor troubles of many kinds, but a feeling exists that after the first strike has actually begun an adjustment of differences will soon be forced.

adjustment of differences will soon be forced.

Dress goods are in better demand than they have been for some weeks, and there has come a revival in the call for the better grades of wool underwear and wool sweaters. Selling agents ascribe the new movement to the actilement of prices and the fear that values will go even higher as a result of the large use of wool goods for many wool supplies for Government use.

CHICAGO, Aug. 12.—Wheat developed much strength at times today, influenced largely by reports that millers and foreigners were active buyers at Kansas City. With September at \$1.11 \( \tilde{a} \) 1.11 \( \tilde{a} \) and December \$1.09 \( \tilde{a} \), the market closed unsettied. We off to 1\( \tilde{a} \) up, compared with last night. Corn finished \( \tilde{a} \) to \( \tilde{a} \) net lower, off to a shade advance, and provisions varying from 22\( \tilde{a} \) decline to a rise of 25c. oats at 4c off to a snade advance, and provisions varying from 224c decline to a rise of 25c.

It was said also that the mills at Minnespolis were showing activity in the purchase of September options on wheat. The immediate incentive was unsettled weather which prevailed today over a large portion of the wheat belt and which threatened to increase further the serious damage and delay already inflicted on much of the Wintercop, Bearish reactions in wheat took place shortly after the opening and just before the close.

**EXTRAORDINARY** 

Captain D. H. Smith, owner of the Convict Ship "Success," being compelled to return to England, is prepared to sell the ship "Success" in its entirety. The Convict Ship has been and is a phenomenal business success, her receipts being frequently over \$1000 a day.

So far, she has only touched, on very brief visits, a few of the ports of America. There is a wonderful future for this ship at the numerous

ports and cities yet to be visited in this country. The following are some of the ports to which it is proposed the ship should be shown,

## NONE OF WHICH SHE HAS YET VISITED:

Seattle, Tacoma, Victoria, Vancouver, Sacramento, Stockton, Los Angeles, San Diego, Galveston, New Orleans, St. Louis, Mobile, Havana, Jacksonville, Charleston, Savannah, Wellington, Newport News, Charleston, Savannah, Wellington, Newport News, Chester, Camden, Atlantic City, Jersey City, Perth Amboy, Yonkers, Poughkeepsie, Albany, Brooklyn, Long Island Ports, Fall River, Hartford, New Bed-ford, Newport, Portland (Maine), Quebec, Mon-treal, Toronto, Buffalo, Erie, Cleveland, Sandusky, Toledo, Detroit, Bay City, Saginaw, Duluth, Milwaukee, Chicago and numerous other ports en route.

## THERE ARE NO CREDIT LOSSES.

All money is paid cash over the turnstiles before the public enter the ship. There is no possible chance of competition, as the "Success" is the only British Prison Ship left. Hence she becomes more valuable as her age increases. She is in a perfect, sound and seaworthy condition, having but recently fulfilled all the requirements of the British Board of Trade.

For further information, appointment, etc., write Captain D. H. Smith, Convict Ship "Success," Portland, Or.

OLYMPIA, Wash. Aug. 12.—(Special.)—The biggest wheat crop in the history of the state is predicted by R. D. Jarboe, chief grain inspector of the Public Service Commission, with headquarters at Tacoma.

"I estimate the total crop at 45,000.000 bushels, which is 5,000,000 less than the Government's estimate," says Mr. Jarboe. "The crop last year was 35,000,000 bushels, somewhat larger than the Government forecast.
