

JOBS-FOR-JOBLESS PLANS SUGGESTED

Outline of System to Care for
Idle in Winter Is Present-
ed to Mr. Baker.

TRAINED WORKER WANTED

Census Bureau, Co-operation With
Federal Service and Employers,
and Transportation of Men
to Other Places Proposed.

UNEMPLOYMENT RECOMMEN- DATIONS IN BRIEF.

Employment of Arthur Evans
Wood as trained worker to han-
dle unemployment problem.
Establishment of a census bu-
reau to keep card index of the
unemployed, giving complete his-
torical data.

Conduct extensive inquiry into
the plans of business firms for
reductions and increases in
forces.

Co-operate with the Federal
Employment Bureau in handling
unemployment situation.

Creation of permanent advi-
sory committee representing
large employers.

Establishment of a system
whereby arrangements can be
made for transportation of men
to jobs.

First steps were taken by the city
yesterday to care for the unemployed
of Portland next winter. The founda-
tion of a general plan of relief—
if relief is needed—was laid by a
committee of business men and labor
representatives appointed by Commis-
sioner Baker. The meeting was held
in Mr. Baker's office at the City Hall.
Of first importance in the matters
finally decided upon was the creation
of a position for a trained man to have
charge of the work. Recommendation
was made that Arthur Evans Wood,
recently of Reed College, be appointed
to the position. The recommendation
was made by Commissioner Baker. It
was put up to him to have the Council
pass an ordinance creating the po-
sition and providing for its salary.

Census Bureau Suggested.

Of subsequent importance are recom-
mendations of sub-committees, which
have not been adopted by the general
committee. These call for the estab-
lishment of a census bureau for un-
employed in connection with the Mu-
nicipal Free Employment Bureau.

The function of this bureau, accord-
ing to the sub-committee's plans, is to
confer with business houses to ascer-
tain their plans for increasing or re-
ducing forces. To have headquarters,
where a card index of unemployed can
be kept; to have co-operation with the
police and charitable organizations in
getting facts about individual unem-
ployed and to establish a system of
co-operation with the Federal employ-
ment bureau and exchange.

It is recommended also that an ad-
visory committee of large employers
of workmen be employed.

Labor Leader Causes Stir.

These recommendations will be con-
sidered at a second meeting of the gen-
eral committee next Monday after-
noon.

Yesterday's meeting of the general
committee threatened for a time to
break up in a riot when Eugene Smith,
president of the Labor Council, took
exception to a salient reference made
by a sub-committee regarding Port-
land's minimum wage for laborers and
the effect such a law would have in
inducing men from other localities to
come here. He insisted that it be cut
out, declaring that it was a "knock-
out" at the minimum wage law. "It
was not intended as such," in-
sisted H. L. Corbett, a member of the
committee. "It was put in there by
the committee, comprising myself,
Isaac Sweet and William P. Strand-
berg, as one of the reasons why ac-
tion is necessary now to be prepared
for the unemployed problem next Win-
ter."

Reference Is Eliminated.

"You cannot deny the fact that Port-
land, with a \$2-a-day wage for labor-
ers, would attract men more quickly
than a community with a wage of
\$1.50 a day."

Mr. Smith insisted that it was a
blow at the minimum wage, and to
restore peace and quiet, the committee
cut it out.

There was considerable discussion
about the proposal to create a new
public position. The committee feared
that the public might denounce the
plan through lack of information as to
its importance. It was decided
that the committee should do its best
to impress upon the public the im-
portance of the work.

Those attending the meeting were
H. L. Corbett, William P. Strandberg,
Isaac Sweet, C. F. Berg, Eugene Smith,
Father E. V. O'Hara, Bishop W. T.
Sumner and Commissioner Baker.

HOOD RIVER FOLK TO AID DELEGATION TO TAKE PART IN HIGHWAY "INSPECTION DAY."

Mr. Baker Expects 20,000 People to
Make Trip to Columbia River
With Ad Club Party.

Hood River will send a big delega-
tion of business men to Benson Park
on the Columbia River Highway, Sep-
tember 6 to join with the Portland Ad
Club and the Chamber of Commerce in
the celebration of "Inspection Day."
This is the word received by S. C. Brat-
ton, general chairman. It is expected
more than 300 people will make the
trip from Hood River by automobile
and train.

Downtown headquarters for the sale
of tickets for the "Inspection Day" trip
will be opened by the committee next
week. The O-W-R & N. Co. has given
a rate of 65 cents for the round trip
and has promised service for 5000
people.

Indications are that 20,000 people
will want to take this trip, according
to George L. Baker, City Commissioner
and president of the club.
The tickets are to be on sale at all
department, cigar and drug stores. It
was decided yesterday to have three
band concerts on the highway during
the day as part of the programme. Com-
missioner Baker announced the munic-
ipal band would play at Benson park
and other concerts will be given at
Mukwonago and Horse Tail falls, where
stops will be made by the excursion
trains.

In the National Museum at Washington,
D. C. is a sapphire weighing nine karats
that includes a bubble which changes its
temperature to appear and disappear.

DEVELOPING AND PRINTING AT VERY MODERATE RATES BY A FORMER EASTMAN CO. EXPERT

CANAL ENGINEER CHOSEN

Phil M. Bates, of Vancouver, to
Work on Railroad in Alaska.

VANCOUVER, Wash., Aug. 12.—(Spe-
cial).—Among the first steam shovel
engineers to be sent to the Panama
Canal, and being the oldest in service
when he resigned last Fall, Phil M.
Bates, of this city, will be the first
steam shovel engineer to go to Alaska,
where he will work on the Govern-
ment railroad.

Mr. Bates will work for the Alaskan
Railway Commission and will report
for duty to Lieutenant Frederick Meers,
at Anchorage, Alaska. Mr. Bates
worked for ten years on the Panama
Canal. He is the father of William
C. Bates, an attorney of this city, and

HARBOR INSPECTION IS DUE

Vancouver Prepares to Entertain
Congressional Committee.
