What Bulgaria now wished, he continued, was reparation based on the principle of nationality, for which the quadruple entente is contending.

Polk Recall Move Thought Based on Trivial Cause.

ROAD SYSTEM COMMENDED

W. L. Tooze, Jr., Calls Attention to Work Done on Highways and Believes Effort Will Not Be Successful at Polls Later.

DALLAS, Or., Aug. 5 .- (To the Editor.)—The recall movement commenced in Polk County against County Judge B. Teal and Commissioners C. W. Beckett and George A. Wells is due principally to opposition to the policy of the County Court in the construction of public highways in the county. The county has offed a greater portion of the main thoroughfares, but persons living along those that have not been oiled feel that they have been unjustly

discriminated against.
Other objections raised deal with the fact that a great deal of the construc-tion and repair work this year has been in the vicinity of Falls City, the home of Judge Teal, and in the vicinity of West Salem, the home of Commis-sioner Beckett. Aside from these obsioner Beckett. Aside from these of jections, there are many persons who have been nursing personal grievances against the members of the court. For the past two years there has been considerable agitation along the line of a recall, but nothing definite devel-oped until C. R. Canfield, County Surveyor, indignant because the court let a portion of the surveying work of the unty to other civil engineers, started the ball rolling.

Three Inspire Recall. In this effort Mr. Canfield was sup-ported by Councilman Westover, of the Dallas City Council, and Joe H. Brown. a prosperous farmer living near Dallas. These men are the direct causes of the present movement, and they have brought to their standard three classes of citizens, one class comprising those who oppose development along any line, another class comprising some of those who live in sections where no money is being spent for improvements, and the other class comprising those who have personal grievances against

the individual members of the court.

Of these three classes undoubtedly
the last mentioned claims the most members. To these three classes might be added another set of citi-zens who are ever ready to take hold of anything that promises to destroy something or somebody. As the per-sonnel of the present County Court is Republican throughout, it is also said that perchance an element of politics is entering into the fight. However, those familiar with the situation say that the fight will be waged along purely nonpartisan lines, and discount

the political aspect of the case. Bulgaria at Bucharest in 1913.

"It should be recognized that the Roumanians are more disposed than the others toward an understanding. It may well be that they are not sincere, but that is another question. In any event, up to the present time they have in no wise protested against ultimate concessions to Bulgaria, as have the Greeks and Serblans. These countries declare Bulgaria is without importance in the war; that the entente powers do us much honor in asking support, and that none of the territory claimed by Bulgaria should be restored to her.

Opposition to Move Develops. There are many voters who have expressed themselves as not being in avor of the policies of the present court, but who oppose the recall movement upon general principles, and will vote to defeat it. This latter class of citizens is subdivided into two classes: citizens is subdivided into two classes: Those who oppose the recall law in all lis forms and workings, and those who do not consider the situation grave enough to invoke this extraordinary remedy and put the taxpayers to the large expense that a recall election will necessarily incur, and who for that reason feel that a stern rebuke should inistered to those who so lightly trifle with such a law, and thus estab-
