BOATS TO SUPPLY PRESSURE FOR PROPOSED AUXILIARY SYSTEM.

Sale of Bouda Authorized at Election Several Years Ago Will Provide \$150,000 Needed.

Plans are to be made at once for a system of high-pressure reinforcing fire mains in Portland's main business district on the West Side and the East Side. At a meeting of the City Council yesterday, the proposal involving an-expenditure of about \$150,000 was made by Commissioner Daly. The money will be raised by the sale of an issue of long-term bonds authorized by the voters several years ago for this and to purchase a new fireboat.

The proposed system would operate as a reinforcement to the regular service mains fed by the reservoirs. The mains would be supplied with river water pumped during fires by the fire boats. It is said the present fire protection in the business district can be more than doubled by the high pressure system proposed and emergency water supplied. istrict on the West Side and the East

GRANT ASSESSED AT \$5

Supreme Court Value of \$2.50 an Acre Ignored in Lane County.

EUGENE, Or., April 16 .- (Special.)-MILLION BUSHELS TAKEN The Oregon & California lands in Lane County have been placed upon the asessment rolls at valuations of from \$5 to \$20, the total appraisement amounting to \$3,350,000, by B. F. Keeney, Big Receipts at Chicago Weigh County Assessor, disregarding the recent ruling of the Supreme Court of the United States, which held that the Southern Pacific Railroad Company's interest in this land amounted to \$2.50

per acre. "Whether we have a right to assess these lands only for the amount of the railroad's equity of \$2.50 per acre, or whether we have a right to assess it at all, is a matter for the Board of Equali-OHICAGO, Aug. 16.—Huge receipts here today, aggregating 1,368 carloads, weighed down the price of wheat. The market, although steady at the close, with September at \$1.04% and December \$1.04% was 1% under Saturday's finish. Other leading staples, too, all showed a not decline-corn is to ic. oats 1/4 to 1c, and provisions 7 to 17% \$20c.

The wheat market, however, was steadled later by good export demand. About 1,000.000 bushels was estimated to have been sold to Europe, including bustness not announced on Saturday. Some additional support for wheat developed in the late transactions owing to fears that a Gulf storm reported at Galveston would bring heavy unwelcome rains in the Winter crop states southwest. Corn weakened with wheat. Subsequently, however, pessimistic crop advices from Iowa tended to bring about a rally that left the zation to determine," he said. "This land is assessed at virtually the same figure as last year."
