UR new shop surely is different. There's nothing that equals it this side of New York. And in our showing of Fall Clothes there's a smartness and individuality typically Politz.

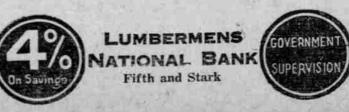

But the real test is in new customers. A former week's business is now done in a day. And we sold clothes before we moved, too-or this new shop wouldn't have been possible.

## THE VALUE OF A BEGINNING

Too many persons look down on small beginnings. They think that they will open savings accounts when they have a hundred dollars. That is very well; but we have seen a good many more really substantial accounts developed from a start of one dollar and a determination to get ahead. We like these small beginnings; they show the true saving spirit. Open that account today. We pay four per cent interest and offer Government Supervision.
