CHAMPION WILLIAMS OUT

Robert Leroy Stowed Away by ex-Oregon Champion, 6-1, 6-2. Dates for National Doubles Championship Play Sept. 4.

SOUTHAMPTON, N. Y., Aug. 25.

The victory of T. R. Peil over Clarence J. Griffin, of the California trio, in the afternoon session of the turf left William M. Johnston as the only player remaining in the singles from the Pacific Coast. Peil played in rare form.

The big feat in the doubles was rapidly worked out. In the best of the matches R. H. and F. W. Cole, the Hartford pair, outmaneuvered A. M. Kilder and A. H. Coffey, of Princeton, at 6-1, 6-2.

The best of the Harvard pair, G. C. Cramer and William Rand III, also went down before the victors. R. Peil and B. S. Prentice outdistanced them to overcome leads in the sets, winning by fast and sure volleys.

The Yale pair, R. Stoddard and S. Kelly, also survived the tide in straight sets.

Johnston made a runaway of his match against Robert Leroy, outplaying the former intercollegiate champion and scoring at 5-1, 6-2.

MEN AND MACHINES AT WORK AGAINST PEST IN ELM TREES ON BROADWAY, NEAR EAST EIGHTH STREET.

BEETLE CAMPAIGN ON

City Begins Spraying to Save Its Elm Trees.

200 ALREADY ARE TREATED

Fight Against Pest Giving Much Trouble in East Will Last Until Eradication—Outfit Throws Stream 45 Feet.

With a powerful gasoline pump and modern sprayers, the city yesterday started its crusade against the elm leaf beetle that is reported to be threatening the destruction of elm trees in the city. With a strong solution of arsenate of lead, the city spray gang bathed the beetles on about 200 trees on Broadway between Union avenue and East Fifteenth street.

The work will be kept up indefinitely in the efforts of the city to eradicate the pest which, it is reported, will destroy every elm tree in the city within two years if unchecked.

The crew spraying the trees with arsenate of lead will be followed by a second crew spraying with kerosene emulsion.

The spraying outfit consists of a gasoline pump mounted on a wagon drawn about by horses, and hand sprayers capable of throwing a spray 45 feet into the air. Two men are operating the outfit under the direction of Park Superintendent Conville.

The elm leaf beetle, which is a European pest and one bothersome for about 75 years in various parts of the East, has attacked elm trees on Bancroft avenue on the West Side and in the Laurelhurst and Irvington districts on East Side. The beetle, which is about a half inch in length and about a quarter inch in width, feeds on the elm leaves. Some trees, it is said, already have been killed, but the majority can be saved.

It is the plan to keep after the insects with the spraying outfit until they are entirely eradicated. Just how long this will take is uncertain. Investigations of the extent of the pest were concluded only a few days ago, after which Park Superintendent Conville announced that a fight must be started by the city.

The kerosene emulsion spray applied later is aimed to complete the destruction and to destroy the eggs.

HILLSDALE MAN IS SUICIDE

Body of Paul R. Schmitz Found With Note to Estranged Wife.

"I told you I couldn't live without you and I have taken the only way left."

This was the opening line of a note addressed to "Mrs. Gladys Schmitz, Hillsdale, Oregon," his estranged wife, found in the coat pocket of Paul R. Schmitz, whose dead body was found in a room of the Gitman Hotel, 14 1/2 First street, yesterday. A gas tube dangling by his head told the story of how death was accomplished. He had been dead since Sunday.

There was no money in the man's pockets, and evidently his last quarter paid for the gas that killed him, as the room was equipped with a paying meter.
