South Carolina Governor Says Lynching Protects Civilization, While "Third Degree" Methods

Violate Constitution.

BOSTON, Aug. 27.-A demonstration of the preparedness for active military visiting Governors and a great

Governor Bunt of Arisona, advocated shalishing the death penalty. He contended that if the arguments for capital punishment as a deterrent were sound, death should be made the pen-

y for all crimes. It is my unqualified belief," he said, "that the average execution kindles the flame of brute passion in the human heart, sets up an example of organized violence for the great masses of people, and in numerous instances when the trial is widely heralded and the murderer meets death bravely, has the unanticipated effect of idealizing the eriminal."

The thanks of the Administration for he resolution adopted by the Governors on Tuesday, pledging support to resident Wilson, was extended to the oference by Attorney-General Thomas

CARRANZA GAINS TIME Minister Asks Whether Peace Move Was Official.

WASHINGTON, Aug. 27.—Consul Silliman at Veru Cruz cabled the State
Departmently esterday a communication
from Jesus Acuna, General Carranas's
faceign minister, asking that he inquire
whether Secretary Lansing and the
Latin-American diplomats acted in
their official or private capacities in
addressing the recent appeal to Mexican leaders for a peace conference.
This was the first word from the

Carranna government concerning the Pun-American appeal, and it was accepted as an indication that the formal reply probably would not be forthcoming for another week.

It was intimated in official circles that the only response to Acuna's question would be in the form of a measurement of the containing and all of the conference attached their full titles to their signatures. This, it was pointed out, left no room for doubt that the conference acted officially and with the authority of their respective governments.

Officials were rather at a loss to explain the object of the Carranna minister's query. In some quarters here it was suggested that Carranna possibly desired to delay his final response, which is expected to be an appeal for recognition, pending the establishment of his government in Mexico City.

In the afternoon of August 21 the British made a violent attempt to improve their situation there, but failed, in spite of a terrific fire from ship artillery and several well-sustained infantry charges.

LONDON, Aug. 27.—The severity of the recent fighting on the Gallipeli Peninsula is shown by the fact that in the past eight days there have been nearly 800 casualties among the offi-cers of the British forces, the Austra-lians and New Zedlanders bearing the brunt of the lossez. The casualty list issued yesterday contained the names of 122 officers and 1350 mea.

Russian Escapes in Hold to Get Away From Conscription.

PHILADELPHIA, Aug. 21.—War has no enticement for Adam Morris, 28 years old, who was brought here one day recently as a stowaway on the British steamship Queenswood, which arrived from Archangel, Russia, with the first cargo of ilcorice root everbrought here from that country.

Morris who is a Russian subject, said that he had been a ship's fireman for 12 years. The war, he said had stopped most of the trade to Archangel and positions were hard to find. He had been idle for a number of months, Just before the Queenswood sailed he heard that all idle men were to be impressed into the army. Bather than face the German guns he decided to stow away on the Queenswood. He secreted himself in one of the lifeboats. Five days out from port hunger forced him to go in search of food. When found he was almost famished. After being fed he was placed at work.

Retention of Structure as Perma nent Reminder of Big Fair Is Being Considered, Says Commissioner Just Back.

Building Is Good for Years.

Mr. Logan reports that Foulkes & Hogue, the architects who designed the Oregon building, told him at San Francisco that the Oregon building can be left standing without depreciation if nothing further is done to preserve it in ten years.

"Without question," says Mr. Logan, "the Oregon building is one of the distinctive attractions of the exposition. "It always is included with the Canadian building, the French pavilion and the California counties building as one of the places of educational interest.

"Yes, the Oregon building is one of the show places of the fair. It stands conspicuous with the Oregon flaspole and the historic battleship Oregon.

"If the doors were nailed up tomorrow and no one further allowed to enter, the building still would be a new touring car from Austin Hausman, by whom he sware employed as demonstrator. He is locked up in Charleston, W. Va.
