# **WEEK TO SAVE GROP** OF PEACHES IS SET

Buy, Eat, Can, Pickle and Preserve Them, to Be Urged August 30-September 4.

#### CHAMBER PROMISES ITS AID

Concerted Movement in Washington and Oregon Launched, so That Fruit Will Not Go to Waste. Prices Low, Quality High.

Governor Withycombe has issued proclamation setting aside the week of August 29 and September 4 as "Peach

August 19 and September 4 as "Peach week." The Governor of Washington has done the same and the commercial bodies of the Northwest are joining in a conterted movement to arouse public interest in the observance of the week. "Buy them by the host list them: ean them; pickle them; preserve them; find out just how valuable a fruit the peach is," is the advice that is going to go out broadcast to the people of the Northwest in connection with the movement.

I. A. Harder, secretary of the North Takima Commercial Club, telegraphed yesterday to Manager Hardy, of the Chamber of Commerce, asking co-oper-ation in the work and Hardy answered

#### Many Prices Fall Below Cost.

Many Prices Fall Below Cost.

The most the growers are able to get for their product has not exceeded the cent of production at any time, and in a great many cases far below that cost. In the large peach sections of Washington the growers face the altermative of either getting the cost of production or loaing their entire expense and labor in raising their fruit. Several hundred cars may not be picked as a result, unless the people eat them.

There has never been a time in the Northwest when the peach crop was of a better quality than this season.

In apite of the lowest prevailing prices for a long time, the amount of peaches constitued has been relatively less this year than in past seasons. No great movement has taken place to can the peaches—there has been fittle buying by the box, while the consumer has been more estimated to purchase the fruit in dozen or suck lots and carry home. In this way a much higher price has been tails than if the beaches were

home. In this way a much higher price has been paid than if the peaches were

has been paid than it the pactics were bought by the box.

Portland made National records in its "Apple Rale" days of 1912 and 1914, and where upwards of 75 cars of apples were then bought up in a single week. It is believed that more than 20,000 families can use at least 100 cars durfamilies can use at least 100 cars dur-ing the week set aside by the Gov-

# FIRE CASUALTIES ARE FEW

Another fire has been reported in the Cascade Mountains that prumises a great deal of trouble for the fire Light- HOP DEALER MADE WEALTHY IN are information of the location and the extent of the fire came to T. H. Sherrard yesterday morning. Its discovery was reported to the rangers in the vicinity of the fire by Elijah Coalman, the man in charge of the station on the top of Mount Hood.

This latest fire is ers if not controlled in a short time. The information of the location and the

the top of Mount Hood.

This latest fire is on the Salmen River, close to the summit of the Cascade range, and about 13 miles nouthwest of Mount Hood. An hour fiver the fire was reported it had agread half a mile. There will be 50 meninghting it by this morning.

E. T. ALLEN VIEWS PAPEETE AFTER GERMAN SHELLING.

Managing Director of Tahitian Trading Company Returns From Inspection on South Sea Isle.

The set Ferland will hearthly and comparation and vice-president and managing direction that will be a direct and and comperation and vice-president and managing direction that will be a direct and and comperation of the Tabilian Trading Company, has just returned from Papeete, where here expense that will be a direct and and comperation of the Tabilian Trading Company, has just returned from Papeete, where here expense campaign in behalf of peach incompeted to the company of easile Northwest. The same peach grower dispose of his principle attack of the destroyed his property in Papeete by the Germans last September. He found all his property in Papeete at the cost of wood blocks. He found all his property in Papeete with the same particular and the transfer company of the manufacturers to be moved the most critical situation that the peach growers in the Northwest that the peach growers in the Northwest the peach growers in the Northwest that the peach growers in the Northwest the peach growers in the Northwest that the peach growers in the Northwest the peach growers in the Northwest that the peach growers in the Northwest the peach growers in the Northwest that the same peach growers in the Northwest that the same peach growers in the Northwest the peach growers in the Northwest the peach growers in the Northwest that the same peach growers in the Northwest the peach growers in the Northwest that the same peach growers in the Northwest the peach growers in the Northwest the peach growers in the Northwest that the same peach growers in the Northwest the peach growers in the Northwest that the same peach growers in the Northwest that the

merchandising and is particularly interested in the curing of vanilla. Mr.
Allen said that business conditions in
the islands were somewhat depressed,
because on the opening of the war the
French colonial officials had seized the
biggest trading concern, operated by
Germans, and were now selling the
stock of that concern at such a low
figure that other concerns could not
compete.

Mr. Allen put in a claim for the destruction of the Tahitian Trading Com-pany's property with the United States (Covernment)

TACK BY GEORGE C. BROWNELL.

Father of Prohibition Measure and

Others Suggest Mass Meeting to

Defend Act on Liquor.

OREGON CITY, Or., Aug. 27.—(Special.)—A debate on the state-wide prohibition law is proposed by George C. Brownell, who denounces the measure as an insult to the state, instead of the general mass meeting in the Baptist Church October II. Opposed to Mr. Brownell would be Dr. J. E. Anderson, of The Dalles, who introduced the bill in the Legislature; George M. Brown, Attorney-General, and R. P. Hutton, state superintendent of the Anti-Saloon League.

Of the lumberman, "he asserted. "Many of them refuse to build homes for fear of being robbed. Now, as a matter of fact, we all know that the average clumberman—manufacturer as well as retailer—is honest in his business methods and entitled to the confidence of the public."

Mr. Moorchead urged further co-operation between the lumber interests to improve conditions governing their business. He advised them to omit the petty rivalries between the various competitive elements in the field and to start a systematic campaign to advertise the lumber business generally. In order to obtain more co-operation

TIMBER BLAZES CLAIM TWO VIC
TIMS THIS SEASON.

C. Schuebel last night made public the plan of the Anti-Saloon League to hold a monster mass meeting, supported by all churches, when a raguments advanced by Mr. Brownell would be answered. Men of state-wide prominence would be invited here to speak and reply to Mr. Brownell's attacks, and repl

have been but two accidents reported by the forestry officials of this district this season.

Fred Wereker was the victim of the first accident, and he was killed in the Colville National Forest early in the season by a falling tree. The other accident was a minor one and occurred during the fighting of the Shell Rock Creek fire that has just been centrolled.

A. Heinman is the man who was imbreed. He was cut in the arm when his as caught in the brush. He was given first-aid treatment in the rangers and that the new statute would give the first general public discussion of the measure, considered the most important work of the 1915 Legislature. Brownell sided in the prohibition campaign.

In one letter made public two weeks ago and in an address at the Methodist Church last Sunday, Mr. Brownell said that the new statute would give the first-aid treatment in the rangers and that the new statute would give the first general public discussion of the measure, considered the most important work of the 1915 Legislature.

Brown all took part in framing the act, while Mr. Brownell aided in the prohibition campaign.

In one letter made public two weeks ago and in an address at the Methodist Church last Sunday, Mr. Brownell said that the new statute would give the home the association of the saloon, that enforcement would be practically impossible, that the will of the people where he is under the care of Dr. Nel-The cut is not considered dan-avoided and that in general effect the

# According to the forestry officials the lookout on the summit of Meint Hood is valuable beyond expectations, for within the past week 20 first have

North Coast Lumber Association Approves Plan to Expand Trade Area.

BUSINESS ILLS ANALYZED

Depression Is Attributed to Lack of Initiative - Reduced Cost by Use of Improved Methods of Manufacture Shown.

How to expand the trade area of the How to expand the trade was the workestern lumber products was the subject of much discussion at the meet-ing of the North Coast Lumber Manu-facturers' Association at the Mulino-

facturers' Association at the Mulinoman Hotel yesterday.

A campaign to encourage the further use of wood blocks for paving was outlined by a committee headed by Donald Green and it is probable that the manufacturers soon will start active efforts in this direction.

While the report was submitted to the trustees for further consideration, the plan outlined seemed to meet with the full approval of all the lumbermen present. It provides a systematic campaign of publicity to impress upon the public the superior merits of wood blocks for street paving work.

Traveling Manager Suggested.

out the country.

Lack of foreign demand because of cause the railroads have been driven from the market through falling revenues, and the introduction of sub-stitutes, he declared, are some of the ontrbuting factors to the present tagnation of the trade-both whole-

ale and retail.

He declared that the lumbermen are argely to blame for their own mis-fortunes for the reason that they have not shown initiative in seeking nev fields for their products.

Honesty of Trade Defended.

"The average consumer is suspic of the lumberman," he asserted. "3

MR, BAKER CONSIDERS REVISION OF PLUMBING ORDINANCE.

Small Dealers Say Bond Proposed and License Demanded Would Force Business Suspension.

Opposition which has appeared against Commissioner Haker's proposed ordi-nance licensing plumbers probably will result in the measure being modified Mr. Baker has the measure under adisement, pending its submission to the council next Wednesday for final

assage, Objection has been raised to the provision requiring plumbers to furnish a \$1000 bend and pay a license of \$50 a year. It has been declared by small concerns that this would put them out of business because they could not afford to pay the \$60 and the amount which would be required for a \$5000 and the bend of the small bend of the sma surety bond.

surety bond.

Commissioner Baker says the measure is aimed to drive the irresponsible plumber out of business and is not intended to harm the small man who is doing a legitimate business. He says against those who do inferior work. It is probable that, as a result of opposition on the part of some of the small concerns, Mr. Baker will recommend the amendment of the ordinance to provide a smaller license fee.

#### 62 BABIES JUDGED AT VALE Two Girls Make Highest Scores of

98 and 96 1-2.

WALE, Or., Aug. 27.—(Special.)—At the Malheur County better babies contest, inaugurated by the Vale Civic Club, which closed today, 62 babies were examined. The three highest girls were Edith Joseph. Dead Ox Flat, 38: Dorothy Marie Helly. Riverview, 36: Mabel Edith Gunderson, Bully Create 65. The three highest boys were Creek 56. The three highest boys were Lester Gamaliel Propet. Vale. 36; John D. Edwards, Vale. 35 h; Hugh Weaver, of Ontario. and Stichard Davis, of Vale. tied at 35.

The difference between inspiration and a hunch" is largely a matter of vocabulary.
