DISOWNAL NOW EXPECTED

Note Prepared Prior to Sinking of the Lusitania, for Which Commander is Blamed.

WASHINGTON, Sept. 1.—Straining relations between the United States and Germany over submarine warfare ended yesterday when the Kaiser, in a letter to Secretary of State Lansing in writing that prior to the actual war he was allowed to sink without warning, promised to prohibit all such actions. Lansing has been given the assurance that the submarine war will not be renewed until after a formal notice has been given by the Submarine Force to the United States. Lansing, on a call of the State Department at the request of the German government and sent a letter to Mr. Lansing, stating that the United States had never intended to interfere with the neutral rights of the United States, Lansing said that the United States had not formally denied its claim to neutral rights in this matter, but had always been prepared to carry out the provisions of the law, if and when the German government should so require. Lansing has finally admitted its past violations of the principle of neutral relations and has agreed to abide by the law.
