## Friday's War Moves

THE Germans in their official report yesterday said they carried by asault the fortified bridgehead at Lenne wada, on the Dvina River between Friedrichstadt and Riga. This is considered for the Russians the most critical point on their whole front, for should the Germans succeed in crossing the Dvina, the Russians would be compelled to evacuate Riga, and their position between the Dvina and Vilna nd even southwest of the latter city. would be jeopardized.

However, the Germans have not crossed the river, which is being de-fended by a reinforced army commanded by General Ruzsky, who stopped the previous German advance on the Bzura River in front of Warsaw. Military critics believe that the Russians wil make a stubborn defense on the Dvina, the opinion being expressed that should they fail here the German fleet would gain command of the Gulf of Rigs, and by landing troops at Pernau, would considerably shorten the projected

march to Petrograd.

In view of the importance of the bat-tic raging along the lower Dvina, the fighting elsewhere loses some of its
