Mrs. Mohr Declares Negroes Who Killed Husband Hope to Mitigate Crime.

WOMAN ADMITS JEALOUSY

Physician Compelled Her to Witness His Attention to Others, Is Assertion, Made as She Arranges His Funeral.

PROVIDENCE, R. I., Sept. 2.—The defense of Mrs. Elizabeth Tiffany Blair Mohr to the charge that during a fit of jealousy she plotted the death of her husband will be that both Dr. C. Franklin Mohr and herself were victims of a conspiracy, according to beliefs expressed here tonight.

The body of Dr. Mohr today was placed in a receiving tomb at Swan Point Cemetery, after brief ceremonies in the presence of several relatives and neighbors. Mrs. Mohr and her two children, Charles Franklin, Jr., and Virginia Blair, were present at the services at the Mohr home in Elmwood and accompanied the body to the cemetery.

Married Life Unhappy.

Mrs. Mohr had attempted a formal interview, but it was soon interrupted with sobs and ended in an outburst of weeping.

It was learned that she had told the police that her life with Mohr had been most unhappy; that he taunted her and made her witness his attentions to other women. It was "in one of my jealous moods" that she wrote the letter threatening Miss Emily G. Burger, she said.

According to the officers she also admitted that she had with the doctor's chauffeur, George W. Heals, and C. Victor Brown, who was formerly employed as a hostler by the physician, but said that she had sought from them "to find out what the doctor was doing."

Widow Arranges Funeral.

Although accused of having incited the murder of her husband, Mrs. Mohr, one of the wealthiest physicians in the state, Mrs. Mohr, released on bonds of \$10,000, had full charge of the funeral today of her husband, from whom she had been separated for several months.

SCHWAB TO BUILD NAVY

CHINA ORDERS 100 SUBMARINES AND HEAVY ARTILLERY.

\$75,000,000 Order Placed in America for War Supplies and More to Be Given to Factories Later.

NEW YORK, Aug. 30.—Under the direction of Charles M. Schwab, president of the Bethlehem Steel Corporation, American war supplies are being ordered by the government of China on a basis of military and naval preparedness.

Mr. Schwab has become the chief confidential adviser of the Chinese government on the vast manufacturing end of its programme, this result being largely an outgrowth of the confidential relations established by the American steel man with leading Chinese officials in the \$30,000,000 ammunition deal with the former Chinese dynasty by the Bethlehem Steel Corporation a few years ago.

As an initial step, 100 submarines will be built at a cost of \$75,000,000, the greatest single order for submarines recorded since the underwater craft was invented.

The order for submarines will be followed by contracts for heavy field artillery, high explosive shells, torpedoes, rifles and other arms and ammunition, with the construction of battleships and cruisers as one of the more distant possibilities.

The negotiations for submarines have reached such an advanced stage that only minor details remain to be worked out.

The submarines will be the largest ever turned out from American yards. They will include vessels of a type exceeding in size and cruising range any of the submarines turned out in Germany, which this country has learned. They will be of a type particularly fitted for raids on seacoast towns, so that they will be as formidable for attack as for defense.

Unlike the orders for submarines placed on this side of the Atlantic by the allies, the construction will be done entirely in the United States and none of it in Canada, as naturally no question of violation of neutrality is involved.

The order will be placed by the Chinese government through Mr. Schwab with the Electric Boat Company. This order combined with the demand by the allies for submarine work in this country has resulted in plans by Mr. Schwab to have the United States will have the largest submarine manufacturing plants in the world, barring neither the submarine departments of the Krupp works at Essen nor that of the Schneider works at Creusot, France.

CHINESE PUT UP FUNDS

\$5,000,000 IS SUBSCRIBED FOR NEW STEAMSHIP COMPANY.

Six Companies' Attorney Says That \$500,000 Already Is Set Aside for Purchase of Vessels.

SAN FRANCISCO, Sept. 3.—Announcement that \$5,000,000 has been subscribed and \$500,000 already set aside subject to instant call toward the financing of a new Chinese-American Trans-Pacific Steamship Company, was made here today on authority of John L. McNab, attorney for the Chinese Six Companies.

Since the arrival here of Dr. Wellington Koo, China's first Minister to Mexico, who stated, on reaching this port, that contracts for the financing of the line had been signed, those interested here have been working quietly but rapidly toward putting the big project into actual operation.

The Chinese, McNab says, expect to begin with vessels adapted to the peculiar conditions of their Oriental trade—that is, they will have limited cabin facilities and great stowage and freight capacity.

Later, according to Attorney McNab, the Chinese hope to have several first-class vessels equipped to handle the best tourist travel in the world. If the Chinese cannot purchase their ships they will have them built.
