am" roared the owl, who was terribly mad now. Mr. Peter Crow did not answer this, as he knew the owl was lots bigger than he was. But the owl was too mad to mind the matter, so he flew to the poplar tree and right up to Mr. Peter Crow, who was beginning to tremble. There sat Mr. Peter Crow, who was very white, as all crows were in those days, and very much scared.

"I'll teach you to keep me awake," roared old Mr. Owl, as he spoke he grabbed Mr. Peter Crow in his claws and flew away with him. "Oh I won't sing any more; honest I won't," said Mr. Peter Crow, who was very much afraid. But Mr. Owl would not answer, but just kept on flying and flying. Finally he came to a big forest, which was very dark and gloomy. He flew right into the trees and he flew up to a tree with a hollow trunk. Into this hole Mr. Owl thrust Peter Crow, and before he could get out the owl had stopped the hole up with some moss. And so there poor Peter Crow was a prisoner in a tree trunk, which was just as dark as pitch.

Mr. Peter Crow was very unhappy, but he kept on singing in the hopes of making someone hear who would let him out. After what seemed a very long time to Peter Crow, a woodpecker came along and heard him singing and began to peck away the mossy date much work, the moss was pulled away so Peter could crawl out, but he was very weak and couldn't see at all, so he was suddenly up in the light. When he was strong enough to fly and the light did not hurt his eyes, he thanked the woodpecker and flew to his poplar tree.

And the next morning he got up very early and started to sing. But it was over so much in contrast with the conventional New Year celebration of other calendars, will be observed.

Time by the Jewish way of calculation is not much in contrast with the conventional New Year celebration of other calendars, will be observed.

The Jewish New Year festival is the oldest of all festivals celebrated in the civilized world. But its origin is not more unique than its significance is. The secular or conventional New Year, January 1, when men rejoice in what they have done or achieved, is also a time for sorrowful inventories. The Jewish New Year, September 9 this year, is a time for serious thought on the meaning of life. It evokes a stern contemplation of the difficulties of life and the inevitable problems as to right and wrong. Its appeal is not that practical life should be pursued to "get more," but that the value of life might more genuinely be appreciated in its aspects of truth and morality.
