

# SOCIETY NEWS

HERE were so many diversions for society folk yesterday, and the methods of passing the extended summer holiday were so varied that practically everyone was busy. Hundreds took the trip to view the Columbia Highway, others just returned from the beaches, took advantage of the last holiday before the opening of school to see the magnificent production of "The Birth of a Nation" at the Heilig Theater. Many others enjoyed motor picnics, and countless folk made the week-end trip to the summer resorts to pass the three holidays.

The Waverley Country Club links were peopled with gaily-dressed women and men, the weather being ideal for golf. The river called forth its usual devotees, swimmers and canoeists, and the banks all along the Willamette and Columbia were thronged with merry-makers intent on getting in the fullest holiday festivities possible.

This morning the society folks are excited over the opening of school, and the day is to be given up to them. After registration at schools they will themselves try to locate bookkeepers with their lists to prepare for the winter's study. Their little friends come in for a joyous greeting after a summer's separation, and little social affairs of their own making are equally important to them as their parents' and relatives' larger and more formal functions.

A bevy of the most attractive debutantes will leave in groups on Thursday for schools in the East. Dana Hall has the largest number of Portland girls, among those leaving on Thursday for there being Miss Winifred Huber, who is to commence her first year there, Miss Alice Smith, Miss Mary Bacon, Miss Virginia Menefee, Miss Helen Wood and Miss Alice Tucker, who is returning to Simmons College. These affairs are informal, and the members include prominent business men and their families, as well as society matrons, maids and beaux. Robert A. Bowby and Miss Frances Ross, caterers, give exhibitions of their professional talents of the standard ballroom dances, and judging from the opening of the series on Saturday night, the swimming and rank among the most delightful and popular club affairs of Portland.

Miss Jennie Kamusler left for her home in Tacoma, Wash., after having spent the month visiting friends and relatives in Portland.

Mattie Whitescarver—"The Plucky Girl."  
MISS MATTIE WHITESCARVER, known throughout Kansas as "The Plucky Girl," has won fame and fortune as a miner. She is the one girl

## PROMINENT SUFFRAGETTE, WIFE OF CONGRESSMAN OF CALIFORNIA, ENTERTAINED BY PORTLAND FRIENDS.

Mrs. William Kent

Mrs. William Kent, who arrived in Portland yesterday to attend the Oregon State convention of the Congressional Union, was the guest of Mrs. W. J. Hawkins, at her home on Portland Heights, last night. She also will be entertained by Mrs. Vincent Cook and Mrs. J. G. Gould.

in the district who has entirely worked out assistance successfully worked a mine. She is the owner of the "Plucky Girl" mine, located near Galena, Kan. It is here that untold she has won a substantial fortune.

Miss Whitescarver is not merely a mine owner. She is a miner. She laid the foundation of her wealth by going into the depths of her mine with pick and shovel.

Accompanied by her father and mother, Mr. and Mrs. John Whitescarver, Mattie went West while a mere child. For years the family led the life of typical prospectors, wandering over the zinc fields of Kansas, Oklahoma, and Missouri.

Mattie always accompanied her father on his prospecting expeditions. She watched him as he tested for ore and learned the use of explosives. At 15 she was a miner in her own right.

At the age of 17 she went with her father and mother to the zinc and lead district near Galena, Kan. Here John Whitescarver began mining in a cave and mine where he believed a deposit was to be found, although it was generally believed that all ore had been taken out.

A few months later John Whitescarver was killed in a mine accident, with the deposit still undiscovered.

Mattie, who had been a constant companion to her father while working the cave, shared his faith in the existence of rich ore. At his death she continued to work alone. The family had been left in strained circumstances, and for months she barely succeeded in eking out a living for herself and her widowed mother.

For nearly a year she continued to work and with one day with a single blast a body of rich ore was uncovered and fortune lay before her. The "Plucky Girl" Mine Company was organized a few weeks later. The mine is considered one of the richest in the district, having a valuation of about \$100,000.

Labor difficulties are not often found in the "Plucky Girl" mine. In the years spent in actual toil Miss Whitescarver acquired a sympathy and understanding that makes it possible to deal with the most difficult labor troubles and yet not be imposed upon.

The girl miner is not mannish nor coarse. Her experiences as a miner have given her poise without boldness and self-assurance without aggressiveness. She is dainty and unassuming. She dresses tastefully and to the ordinary observer she is little different from many other pretty girls of 22.

A party of tourists, mostly from Washington, D. C., arrived in the city yesterday morning and spent the day sightseeing. The party is conducted by E. A. Rochester, of the Rochester party. They have visited the Callifornia fairs and are on their way East through the Canadian Rockies.

This is the second Rochester tourist party that has passed through Portland this season.

**DOMESTIC SCIENCE**  
By LILIAN TINGLE.

PORTLAND, Or., Aug. 21.—Kindly give a recipe for bread, bran muffins, and bran cookies in which buttermilk is used. Would also like to know how to make a fig filling to put between layers of gingerbread.

I HOPE the following bran recipes may help you. Bran mixtures are, of course, always heavier and coarser in texture than similar mixtures made with white flour only.

**Bran bread**—One fresh yeast cake in 1/4 cup lukewarm water, 1/4 cup molasses, 1/4 teaspoon salt, 2 tablespoons shortening, 2 cups scalded milk, 2 cups bread flour, bran as needed. Put the shortening into the hot milk and when cooler add milk, molasses and salt. Soften the compressed yeast cake in the lukewarm water and add it to the milk when the latter is cooled to lukewarm. Stir in the oil, then add bran to make a mixture that can be kneaded. Do not make the dough too stiff with bran. Use a little flour, as little as you can in kneading, and knead until the dough is smooth and elastic. If a bread mixer is used make the dough a little softer than for hand kneading and knead longer than the bread mixer "directions" direct. Divide the dough into halves and shape it to fit two brick loaf pans. Let rise until light, and bake nearly one hour.

**Bran bread with graham**—One yeast cake softened in 1/4 cup lukewarm water, 1 cup scalded milk, 1 tablespoon shortening, 1/4 teaspoon salt, 1 1/2 teaspoons brown sugar (may be omitted), about 1 cup graham flour and 2 cups bran. Mix the shortening, sugar and salt with the hot milk, add the yeast when cooled to lukewarm, add also 1 cup bran and 1/4 cup flour. Beat thoroughly in the remainder of the bran and flour. Shape, let rise again, and bake about 45 minutes.

**Bran gems**—One egg, 1 tablespoon butter, 3 tablespoons brown sugar, 1 cup buttermilk, 1 cup whole wheat flour, about 2 cups bran, 1/2 teaspoon salt, 1/4 teaspoon soda. Beat together thoroughly for about 5 minutes and bake in hissing hot well-buttered gem

Bathe your face for several minutes with Resinol Soap and warm water, working the creamy lather into the skin gently with the finger-tips. Then wash off with more Resinol Soap and warm water, finishing with a dash of clear cold water to close the pores.

Do this once or twice a day, and you will be astonished how quickly the healing, antiseptic Resinol medication soothes and cleanses the pores, removes pimples and blackheads, and leaves the complexion clear, fresh and velvety.

If the skin is in bad condition through neglect or an unwise use of cosmetics, apply a little Resinol Ointment\* and let it remain on ten minutes before the final washing with Resinol Soap.

Resinol Soap is not artificially colored, its rich brown being entirely due to the Resinol balsams it contains. Sold by all druggists and dealers in toilet goods. For free sample cake and trial of Resinol Ointment, write Dept. S.P., Resinol, Baltimore, Md.

\*Physicians have prescribed Resinol Ointment for over twenty years in the treatment of skin and scalp affections.

## MRS. KENT ARRIVES

Suffrage Worker, Ardent and Womanly, to Speak.

LIFE IN HOME IS LAUDED

Visitor to Be in Deputation That Will Wait on Representative McArthur at Hotel Portland Today. Many Important Posts Held.

Mrs. William Kent, wife of Representative in Congress Kent, of California, was the center of attraction when the Senate Limited arrived yesterday. At the depot to meet her were Mrs. Vincent Cook, Mrs. J. G. Gould, Mrs. W. J. Hawkins, Miss Virginia Arnold, Mrs. Lee Davidson, Miss Mabel Vernon and Miss Alice Sunsted.

"My mother, who is more than 90 years of age, is my house guest in California, so I can't stay long, only a few days in fact, but I couldn't miss this opportunity to come to Portland and speak for suffrage and the Susan B. Anthony amendment."

Mrs. Kent chatted with old friends, greeted the group of welcoming women, expressed enthusiasm over the beautiful blue of flowers that her husband wants her to do whatever I think is right. And I do think the work of the Congressional Union is right. Suffrage alone is good. Place rather far apart, as they spread in baking. Bake in a hot oven. For plainer cookies use 1 egg only and 1/2 cup buttermilk. In this case use only 1/2 teaspoon cream of tartar.

**Progress by States Held Too Slow.**  
"Of course it is easy for me to take up this work because my husband wants me to do whatever I think is right. And I do think the work of the Congressional Union is right. Suffrage alone is good. **Mrs. Kent Will Speak Today.**  
Five years ago she was chairman of the Congressional committee of the National Suffrage Association, and she was one of the leaders in the successful effort of California women to obtain the franchise. When the Congressional Union was organized she joined its forces and is now a member of the National executive committee.

One of her first announcements yesterday as she left the train was: "Sixty new members joined the union the day I left California. Isn't that splendid?"

## Acute Articular Rheumatism

Relieved by Anti-Kammia Tablets

The exact cause of rheumatism is unknown, though it is generally believed to be due to an excess of uric acid in the blood. It may be also said with equal truth that no remedy has been found which is a specific in all cases. In fact the literature of rheumatism shows that there are but few drugs which have not been given a trial. In the hands of one observer we find that a certain drug has been used with the utmost satisfaction; others have given reference to a treatment is also given by the administration of some remedy to relieve the pain and quiet the nervous system. Dr. W. S. Schaefer expresses the opinion of thousands of practitioners when he says that Anti-Kammia Tablets should be given reference to other remedies for the relief of the pain in all forms of rheumatism. These tablets can be purchased in any quantity. They are also unsurpassed in headaches, neuralgias and all pain. Ask for A-K Tablets.
