OLD MULES FIND MARKET

More Than 15,000 Animals Bought

in Month by British Agents.

KANSAS CITY, Sept. 9. - British agents in the last months have bought more than 15,000 pack mules here, according to statements by local dealers today.

Some of the mules taken recently were more than 15 'years old, the dealers said. In the last two weeks more than 1509 mules have been shipped out of Kansas City routed by way of New Orleans to Egypt. It is believed the Missouri mules will be used to sup-

commains against the Turks.

nore than 28 per cent; ennemthe lip and tongue, 90 per cent, and

"Eighteen thousand women died last year in the United States of enpoer of the breast-18,000 lives needlessly wasted," Dr. Mackenzie went on. "They could have been saved if inken in tim Why wait, when waiting means death? lancer is always local at first.

"Twenty-eight thousand men and women died of cancer of the stomach in 1914 who might have been saved, if the principal of ascertaining promptly the cause of every continued disturbance in the stomach, of every prolonged period of indigestion, and remedying it. had been observed.

Great Possibilities Asserted.

"If all cases of cancer were treated in their initial stage-in the first local stage-99 per cent, at least, of cures could be effected. Now I want this statement taken guardedly and with undersanding, for it is easy of misconstruction. I am referring to cancer in

patients to physicians before either knows definitely that the patient is suf-

fering from cancer, can be saved. "With prompt surgical action 30 per cent of the cases in which the physician is able to diagnose the cancer before the operation can be saved.

General Condition Held Factor.

sum up, the surgeon is able to effect a cure in stmost every case, uneral Friedrich A. J. von Bernhardi has der modern conditions, if it is brought own request by Emperor William. He still local. Otherwise, he must root out to him when the cancerous condition is all the ramifications of the cancer, or

Dr. Mackenzie, speaking of steps for the prevention of cancer, emphasized many. In a book entitled "Germany the prevention of cancer, emphasized the need of keeping in good physical forecast many of the main features of condition. An abnormality of any the present campaigns. Before going kind, he declared, should be straight way made normal, All irritations, he said, should receive prompt, and if necessary, radical treatment, Persons troubled with digestive disturbances extending over any lengthy period should see a physician, and he recom mended a thorough physical examina tion once a year or so for everyone.

Uncleauliness Declared Menace.

"And above all, be clean," he added Uncleanliness tends to ulcers and to cancers."

"One great factor which stands in the way of our progress in cancer." be said again, emphasizing the necessity for doctors, as well as laymen, to arouse themselves to the danger, "is the skep-ticism of the laity as to the curability of cancer. This condition, also, unfor tunately, exists among many members

of the profession." Dr. Ernest F. Tucker, in the discus-sion that followed, questioned Dr. ply transportation for a new Asiatic Mackenzie's statement that 92 per cent (Continued on Page 15, Column 3.)
