PROBABLY more Eastern people have visited Portland this year than any in its history. The construction and equipping of our great new store have been viewed with astonishment by people from everywhere. One of America's most successful merchandising men—the head of a famous New York store—addressed a National gathering of merchants and merchandising men in Chicago this Summer. He spoke of Meier & Frank's as being a unique store—one of the few big stores which preserve personal service to the customer.

**PERSEVERANCE WINS OUT**  
Laborer Spends Days Correcting Error in Four Hours' Pay.

For several days past a workman has been trying to get to talk to Commissioner Baker at the City Hall. Each day he has found a long waiting list ahead of him, and before his turn has come Mr. Baker has been called to other duties.

Yesterday the persistent visitor appeared with a determination. There was the usual list ahead of him. When it came noon and there were still some people waiting, he retired to the corridor and fished his lunch from his pocket. After eating he resumed his post, and finally was admitted into the Commissioner's presence.

He had a complaint about having been underpaid for four hours' work. Mr. Baker obtained more pay for him.

"He" is grey for "child." Hence the term kidnapping.

**JITNEY POST TO BE FILLED**  
Examinations for Inspectorship Will Be Held September 21.

To get eligibles for the position of municipal jitney inspector a civil service examination is to be held September 21 at the City Hall. The examination will be open to all persons having resided in the city for one year or more. The position pays \$100 a month.

In the test 25 points out of 100 will be given for experience and references, 25 points for knowledge of city ordinances, 20 points for knowledge of motors and 30 points for mechanical ability. The position is held now on temporary appointment by Inspector Gallup.

**Two Automobiles Stolen.**  
Thefts of two automobiles were reported to the police Thursday. George Grumell, 367 Chapman street, reported that his machine had been taken from Portland boulevard and Vancouver avenue. H. C. Huntington said his automobile had been stolen from Fifth and Oak streets.

The total production of whale oil in 1912 was 1,200,000 barrels, more than half of which came from Norway. Ten years ago the cost of producing a ton of the oil was less than half what it is now.
