GERMAN DISAVOWAL IS REQUESTED AGAIN

Arbitration of Arabic Indemnity and Justification of Sinking Possible.

lin-Situation Is Not Considered Hopeless.

WASHINGTON, Sept. 13.—Conferences today between President Wilson and Secretary Lansing and between Secretary Lansing and Count von Bernstorff, the German Ambassador, brought the situation growing out of German submarine activities to the following status:

marine activities to the following status:

Pirst—The German Ambassador has been furnished with the evidence of officers and survivors of the Arabic, all agreeing that the liner was proceeding peacefully when torpedoed without warning and has been advised that the United States desires a disavowal of the attack and reparation for the American lives lost.

The evidence will be sent by Count von Bernstorff to the Bicerman foreign office, to which it has not been available before, and probably 10 days will clapse before Berlin can be heard from. In some quarters it is believed that the foreign office, on examining the evidence, may change its position and disavow the action of the submarine commander, who, it was asserted in the last note, sank the liner because he thought she was about to attack him.

3. The United States has now all information as it now stands and is ready to decide on its course, but action may be delayed until Count von Bernstorff has had time to exchange communications with his government.

4. While the United States will not consent to arbitration of a principle or a question involving the safety of American lives, it has accepted Germany's assurances that penceful liners will not be torpedoed without warning, and if Germany desires to arbitrate the amount of indemnity, the question of whether the Arabic actually attempted to attack the submarine, or whether her actions justified the submarine communder in believing he was about to be attacked, that probably would be agreed to.

The President and Secretary Lansing were in conference for nearly an hour and later Count von Bernstorff spent half an hour with the Secretary. No announcements were made, it was said in well-informed circles, however, that although the American Government was not pleased with the Arabic note, the situation was considered far from hopeless.

the recent fires at hop plants was started by incendiaries. Homer Smith, one of the dealers, who has visited all yards in this and Polk counties, said:

"I find that not a single fire was started by a firebug. The fire in the Livesley yard was caused probably by spontaneous combustion, as reported in The Oregonian. One of the Polk County fires was of a mysterious nature, but I believe it was caused by carelessiness. As The Oregonian said, there have been no I. W. W. representatives in the yards here and in Polk County."

Mr. Hawley said today that actual work on Roseburg's new Federal building probably would begin within the next three years. The delay in getting to work, he says, was due to the enormous accumulation of work in the Federal architect's office.

It is Mr. Hawley's opinion that much of the time of the next session of Congress will be consumed in considering the rural credit bills and the proposition to strengthen the Army and Navy. Mr. Hawley is a member of the committee that is framing the rural credit bill. He will return to Washington in October.

ANTI-KAMNIA TABLETS FOR ALL PAIN

The efficiency of any drug" says Dr. C. P. Robbins, "is known to us by the results we obtain from its use. If we are able to control pain and disease by means of any preparation, we certainly are warranted in its use. One of the principal symptoms of all diseases is pain, and the is what the patient most often applies to us for, i. e. something to relieve his pain. If we can arrest this promptly, the patient is most liable to trust in us for the other remedies which will effect a permanent cure. One remedy which I have used largely in my practice is anti-kamnia Tablets. Many and varied are their uses. I have put them to the test on many occasions, and have never been disappointed. I found them especially valuable for headisches of malartal origin, where quinins was being taken. They appear to prevent the bad after-effects of the quinine. Anti-kamnia Tablets are also excellent for the headsches from improper digestion; also for headisches of a neuralize origin, and especially for women subject to pains abcertain times. Two Anti-kamnia Tablets give prompt relief, and in a short time the patient is able to go about as usual." These tablets may be obtained at all druggists. Ask for A-K Tablets. They are also unexcelled for yeadsches, neuralgia and an pains.
