Washington Decides to Give One More Opportunity in Case of Arabic.

TENSION IS SLACKENED

Bernstorff Makes Suggestions to His Foreign Office That May Save Situation — Disavowal Is Still Insisted On.

WASHINGTON, Sept. 14.—Prospects for a favorable disposition of the controversy between the United States and Germany depend entirely on the attitude of the Berlin foreign office...

Details of the conference became known today, throwing light on the critical point that had been reached in the relations between the countries. The Washington Government was almost ready to decide taking any step until Germany be put in possession of the evidence in its possession on the Arabic case.

Disavowal Is Desired. In view of the evidence, the United States wants a disavowal of the act and this was made clear to Count von Bernstorff. Disavowal cannot be an issue for consideration until the attitude of the German government toward the act itself is placed on record.

Submarine Unseen on Arabic. The evidence which has been submitted by the United States in regard to the Arabic is so convincing that until she submerged to launch the torpedo against the Arabic, the German submarine was seen by the captain of the British steamer Dunsley, and could not have been seen by the captain of the Arabic.

Ambassador von Bernstorff is understood to have scrutinized this evidence carefully and to have made certain suggestions to his Foreign Office. It probably will be 10 days before a reply can be received.

Hesperian Note Anticipated. Associated Press dispatches from Berlin announcing that Ambassador Gerard received a note disclaiming responsibility for the sinking of the liner Hesperian and expressing the belief that the ship struck a mine, attracted comparatively little interest here.

hands of Germany's enemies, to be spent here for powder and shot and cartridges. It would cost in interest \$25,000,000 a year and would be worth the price, they were quoted as saying.

This was not the only retaliatory measure expressed in the form of a Wall Street rumor. It was said that the more partisan workers were prepared to advocate that the pro-German depositors show their displeasure with any banks participating in the proposed credit loan to France and Great Britain by seeking other depositories for their funds.

On the other hand, two other big New York banks, whose officers are prominently identified with the affairs of the New York Clearing House, said that they had received many protests.
