

# BURNING OF FAIR

### MORTGAGE CHEERS

Californians, Happy at End of Difficulties, Attend in Larger Numbers.

### ADMISSION DAY GAY EVENT

Natives and Pioneers Make Merry All Night; Oregon Men Attend Convention and Salem Woman Is Honored Socially

BY ANNE SHANNON MONTROE. OREGON EXPOSITION BUILDING, San Francisco, Sept. 12.—Since the burning of the mortgage every one at the big exposition has had a care-free, go-as-you-please, happy-go-lucky holiday spirit that adds to the festivity of these approaching-the-close weeks.

Of course, the mortgage meant nothing so personal to the mass of people who come here to seek relaxation, but such a solidarity is California that when a big debt and a big problem hung over the exposition fathers, the exposition children could not play quite so blithely. You heard the question, "I wonder how the fair is really doing financially?" It was a skeleton stalking. Many said, "When the fair is over there'll be hard times."

Then a good rumor went cavorting about with word that the fair was out of debt.

Exposition Difficulties End. So you see what it means to Californians finally to have laid the ghost of bankruptcy, the burning of the mortgage publicly in the Court of the Universe, in the presence of thousands of people, was the last word on exposition difficulties. Everyone is saying, "Isn't it fine that the fair is out of debt?" The crowds have been all but record-breaking day after day since the burning of the mortgage.

Admission day, with 175,000, was the maddest jam, all day and night, since opening day. Native daughters and pioneer sons and daughters formed a procession almost solidly from the ferry to Van Ness avenue, and the crowds that flocked in with them filled the corridors of the exposition buildings. Many buildings were given over to them, the Oregon building being used for luncheon. Several hundred were fed on the north balconies overlooking the bay. At the Missouri building they danced steadily from noon till midnight.

The California building was open all night with the Marimba band furnishing music. It was altogether a magnificent outpouring of people to show their loyalty to their state.

Oregon Men Attend Convention. The lumbermen's convention and the annual meeting of the Hoo Hoo were attended largely from the Pacific Coast. George M. Cornwall, of the Timberman, Portland, and O. M. Clark, of the Wilson-Clark Lumber Company, were in attendance from Oregon. George M. Cornwall, who takes an active interest in Hoo Hoo doings, was a member of the good of the order and the press committees.

There's one timber industry in Oregon that has had to wake up and start its wheels going at the best of the Exposition, and that is the North Bend Manufacturing Company, of Coos Bay. They manufacture of Coos Bay. They manufacture of Coos Bay. They manufacture of Coos Bay.

Oregon Woods Alluring. Two handsome Port Orford cedar chests have just been received from the Woodcrafters Company, of Marshfield, and are attracting a great deal of attention. The woods of Oregon are the most persistently alluring feature of the building, whether in the shape of beautiful trays, bowls and chests, or the handsome panels on the top floor, which show the grain and different styles of finish of the many varieties of Oregon woods—the Oregon maple, red cedar, oak, ash, Port Orford cedar, hemlock, larch, pine, spruce, in handsome panels, prepared by the Parellus Company. One panel of Oregon maple finished with a natural stain is as beautiful as a painting, so exquisite is the design in the natural grain.

## Be "heating-ready"—Early!

Do you own a home, or a property to rent or to sell which has been closed for many months past and which carries the stigma (known to many) "poorly heated?" If so, the first thing to do this Fall is to give the building a home-making, tenant-attracting value, by installing an outfit of

## AMERICAN & IDEAL

### RADIATORS & BOILERS

Do it early—when the best artisans are not rushed and prices are favorable. Then you start right; and, as case may be, you insure to your folks, or to any renter or buyer, that the building is going to be warm for all winters to come—free of ashes and coal dust, with full money's worth from every coal bill. To a building formerly heated by old-fashioned devices an IDEAL-AMERICAN outfit adds something never there before, namely—an atmosphere that satisfies. You have an even, balmy, cleanly, generous volume of warmth in every room—always tempered to suit the varying needs of Spring, Fall and Winter. Our special SYLPHON Heat Regulators keep IDEAL Boilers automatically regulated; no over-heating and fuel waste, no under-heating and chilly rooms. You can have comfortable nights, pleasant mornings, cozy evenings—and perpetual freedom from fuel-extravagance or regulating the dampers.

IDEAL Boilers are built with grates, fire pots and heating surfaces which extract the most heat from all fuels—wood, oil, gas, coke, lignite, hard or soft coal—even run-of-mine, pea-coal, screenings, or slack. AMERICAN Radiators are made in every shape necessary for putting under windows, along walls, in corners, pantries, etc., and in special forms for ventilation. All are subjected in our special heating laboratories to high tests for strength, durability and utmost heating results per pound of fuel burned.

You can make no better building investment, for in IDEAL-AMERICAN heating everything is water-backed "iron-to-iron," no parts to wear out, rust out, or call for packing—no annual over-hauling or repairs bills. These economies, with fuel savings, pay dividends far better than money-in-bank at 6%. Whether in country or city, whether it is an old or new house, store, school, church, etc., write to-day for "Ideal Heating;" free and worth reading—no obligations to buy.
