WARNING IS ISSUED Mr. Chamberlain Advises Suffragists Against Politics.

ONLY PRINCIPLE UPHELD Legislator, in Fatherly Talk, Tells Women Success Will Be Hampered by Campaigns—Own Loyalty to Cause Shown.

Senator George E. Chamberlain did not tell the Congressional Union delegation that they were "rubbing it in" when they called upon him yesterday, but his answer implied that such was his idea.

He had not forgotten that since 1880 he had fathered equal rights of franchise for women, and he reminded the suffragists that he had introduced their Susan B. Anthony amendment into the Senate.

He called to their notice the fact that in spite of his loyalty to the cause they had fought him at the last campaign and told them that in spite of all he would continue to work for National suffrage for women. Then frankly he gave them some "fatherly advice."

Senator Points Out Error. "Now, I have a word of complaint against the Congressional Union," said Senator Chamberlain. "I disapprove of your way of entering it in the political campaign. It will never gain anything. Some of the strongest men in Congress are Republicans and some are Democrats."

Some of the women entered into the campaign to defeat me because some of the Democrats in Congress were opposed to your resolution. I have no complaint to make to that. You have a right to do what you please. I forgive you. But if you make that your policy I am afraid you will not make as much progress in winning suffrage as I would like to see you make.

Stand Declared One of Principle. "Some made some bitter charges against me. I forgot all that. Other speakers of the day were Governor Withycombe, O. C. Merrill, chief engineer of the bureau of forestry; Governor Spry, of Utah, and Senator Chamberlain, of Oregon.

George L. Baker was chairman. Governors of Western states and United States Senators and Representatives were guests of honor at the Rotary Club luncheon at the Benson hotel at noon yesterday, many of the delegations to the water power conference having been invited to attend.

FIRE EXITS ARE PROBLEM Schools Declared Safe for Children, but Not for Public.

Difficulty in complying with the recommendation of Fire Chief Dowell, Fire Marshal Stevens, Deputy Fire Marshal Board and Building Inspector Plummer regarding the installation of exits direct from school assembly rooms to the street will be had by the School Board.

School buildings are considered safe for children who are well acquainted with the plan of the buildings they occupy. The fire board members, however, declared them unsafe for use as civic centers and recommended that there be direct exits from the assembly rooms to the street; that the seats be fastened to the floor, and that the number of persons occupying the assembly rooms be limited to the seating capacity.

FEW EMPLOYERS TO CUT Mr. Baker Says Most Will Keep and Some Add to Forces This Winter.

No cuts in working forces are to be made next Fall or Winter by the great majority of 80 large employers in and about the city who have replied to Commissioner Baker's recent letter asking about future plans. The letters were sent out as a part of the

campaign promoted by Mr. Baker to solve the unemployment problem. A few firms say in their replies that they will be forced to cut forces from 20 to 40 per cent. A number of firms report that they will be able to take on men during the Winter. The 80 replies are only part of the number expected. Commissioner Baker says he considers the replies as a whole to be extremely satisfactory.
