German Is Made Mayor of Vilna, Latest City Taken in Coup-Czar's Forces Retreat Eastward Unimpeded, Says Petrograd.

LONDON, Sept. 21.—Seventy thousand prisoners of war taken by the Russians on the front south of Polesie in the last days of August and the beginning of September already have been registered and it is expected this number will be increased when the final reports are received, says a Petrograd dispatch to the Exchange Telegraph Company.

General Ivanhoff apparently has adopted the prudent course in suspending the advance on the Sereth in view of the enemy's enormous numerical superiority produced by reinforcements from other sections of Field Marshal von Mackensen's widely scattered enmy

Vilna Has German Mayor.

The appointment of Mayor Pohl, of Tilsit, as Mayor of Vilna has been announced in Berlin. The announcement, following so quickly on the capture of Vilna, is regarded here as showing the certainty with which the German counted on taking Vilna and the German progress according to the schedule of Field Marshal von Hindenburg's campaign.

schedule of Fleid Marshal von Hindenburg's campaign.
Commenting on Fleid Marshal von Hindenburg's latest coup, the military correspondent of the Times suggests that since the recent changes in the Russian higher command the wise strategy of Grand Duke Nicholas seems to have lost favor and instead of continuing their orderly retreat, the Russians held on too long. This gave the German commander an opportunity of which he availed himself fully and the great cavalry raids of the American Civil War have been reproduced in the Vilna region.

Vilna region.
"It was a great coup," the correspondent says, "for the German cavalry to reach Vilelka and the railway junction at Molodechno, which must have been the main artery for supplies not only for the Vilna army, but for all the Russian troops fighting on the Vilna-Stonim front.

Russian Armies Separated.

Russian Armies Separated.

"This interruption will have the important effect of severing the Russian central and northern armies from each other, for the latter cannot do much to prevent this separation since it is being attacked itself by superior forces, at all events around Dvinsk.

The withdrawal of the Russians from Vilna eastward instead of southward, gays a Petrograd dispatch, is authoritatively interpreted as proof that the German cavalry has been unable to impede the Russian retreat seriously. Passing Oshmany and Solny, the Russians are now battling for crossings over the Villya River under conditions regarded as favorable. The Germans in their pursuit have occupied territory only as far as the Mereshank River.

Mr. Rockefeller walked around the animal, pointing out several places where its skin had been worn by the harness. Finally, the combined elequence of all the mine officials present sufficed to persuade the man of milions that "green" mules always suffered abrasions from the harness until their skin became calloused. Then, half satisfied, Mr. Rockefeller resumed his walk.

Suspicion Is Colonel Will Try to Get Republican Nomination in 1916.

DEADLOCK SEEMS ASSURED

Opinion Strong That Mr. Roosevelt Will Attempt to Take Advantage of Lack of Favorite in Race at Next Convention.

OREGONIAN NEWS BUREAU, Washington, Sept. 21.—The suspicion is strong in some Democratic circles that Colonel Roosevelt is even now laying plans to capture the Republican Presidential nomination in 1916, and that his professed loyalty to the Progressive party is for trading purposes only. As party is for trading purposes only. As these Democrats figure it, the Colonel expects to take advantage of the situation that promises to exist when the next Republican convention assembles, when a dozen or more favorite sons will be put forward by their respective states, each with some backing, but none a recognized favorite.

In less than nine months the Republican delegates will assemble to

publican delegates will assemble to nominate their candidate for the Pres-idency. Today there is no favorite in the race, and there is nothing whatso-ever to indicate which one, if any, of the favorite sons is likely to win.

Burton May Support Borah. Insurance Commissioner Says Compensation Should Be Based on Quality, and Waste Reduced.

DEL MONTE, Cal., Sept. 21.—The agency system in writing insurance was blamed today for much of the enormous waste by fire in the United States every year by John S. Darst, president of the National Convention of Insurance Commissioners, in his annual address at the opening of the 46th an-

nual session. Mr. Darst, who is State Insurance Commissioner of West Virginia, said that the principal concern of agents is not to get good business for the insurance companies, but to find com-panies willing to accept risks that their better judgment should cause them to refuse. He said the compensation al-lowed fire insurance agents is far in
