GERMAN SUBMARINE LOSS IS PUT AT 67

Twenty-Eight of Craft Said to Have Been Built on Latest Model.

MORALE OF MEN SHAKEN

Fact That Many Have Not Returned From Perilous Mission Becomes Known and Duty Is Viewed as Almost Certain Death.

PROVIDENCE, R. I., Sept. 22.—(Special.)—The Providence Journal will say

The reason why the German gov-"The reason why the German government has consented to change its submarine methods is because more than 80 per cent of its submarines have been destroyed and its underseas warfare brought to complete failure within the past two months.

"The Journal is able to print the full and accurate story of the manner in which the British navy has accomplished this work.

Operations Cover Four Months. "The operations under the present method have lasted over a period of four months and they would have been

four months and they would have been brought to a successful completion many weeks ago if the British naval authorities had realized that some of the mechanical contrivances made use of were not fit for the work.

"Sixty-seven German submarines, 27 of which are declared to have been of the newest and latest construction. have been sunk by the British navy since May 5.

"It can be said on positive authority."

since May 5.
"It can be said on positive authority that the full capacity of the German shippards for underseas boats is not more than three a month, but that even if Germany were able to replace her submarines as fast as they had been destroyed, the most grave situation she faces in regard to this method of warfare is the actual destruction of the morale of the officers and crews of such vessels. such vessels.

Danger Realized by Crews. "It is declared that while the sailors who man German submarines are as brave and efficient as tokes of any na-tion in the world, the authorities have tion in the world, the authorities have been unable to keep from them the facts with regard to the mysterious disappearance of dozens of submarines with their entiry crews, and that this condition has brought about a practical panic among all men in this branch of the service, who not only believe that when they leave the protection of their own waters they are going to destruction, but who have not understood how that destruction was being brought about.

The operations which have resulted in the practical elimination of the German submarine navy have all centered about the fact that the periscope of a submarine, particularly when traveling in seas that are rough or choppy, has a

submarine, particularly when traveling in seas that are rough or choppy, has a greatly restricted range of vision.

"The netting which has been used by the British navy for the chast two months has been made of galvanized material with a 15-foot mesh. This size has been superseded both the nine-foot and the 12-foot mesh which preceded it and which were found to be impracticable for the purpose. This netting has been cut into lengths of 170 feet with a depth of 27 feet. On top of this netting are lashed great blocks of wood.

Torpedo-Boats Hunt in Pairs.

"Oil-burning torpedo-boat destroy-ers, vessels of great speed, have been wised in pairs, running along slowly with these sections of netting stretched between them. The moment a submarine periscope is sighted, the destroyers slow down at a distance of a mile or less and as soon as the submarine's course is charted by the continuous movement of her periscope the destroyers get ahead of her path and cut away the lashings which hold the ends of the netting to the vessels.

"It is declared that three times out of four, when this has been done, the in pairs, running along slow

of four, when this has been done, the submarine has run directly into this netting, which, by the time the submarine reaches it, has sunk from eight to 10 feet below the surface. With bows once enmeshed, the submarine turns turtle and sinks out of sight."

- POLICE JUDGE FILES BOND AND SAVES DAY.

Rupture Nearly Follows When Official Demands Bootlegging Informstion from Mayor.

DALLAS, Or., Sept. 22.—(Special.)—
The Dallas City Council Monday night directed Auditor and Police Judge Charles Gregory to file bond for faithful performance of the duties of his office. This action had the effect of dispelling a cloud that hung over the relations between the Auditor's office and the Mayor. Judge Gregory was re-elected without opposition at the general election held last April, and assumed the duties of his office in May. He took his oath of office as required by the charter, but falled to file his approved bond.

For some time there have been strained relations existing between the Auditor's office and the Mayor, and Mayor Kirkpatrick insisted that Greg-

Auditor's office and the Mayor, and Mayor Kirkpatrick insisted that Gregory file his bond or else vacate his office. The matter was brought to a head at the meeting of the Council.

Judge Gregory read an opinion from one of the local attorneys to the effect that since May, 1915, he had been a de facto officer, and that his actions were legal and binding, but that in a proceeding instituted to determine his legal right to the office he undoubtedlegal right to the office he undoubted-ly would be held to forfeit the office. The Council came to the aid of Mr. Gregory, and formally waived the de-

Gregory, and formally walved the defect in the qualifications upon condition that a bond be filed at once. Mr. Gregory immediately filed his approved bond and once more the dove of peace hovered over the assembly. The peaceful deliberations came mear a rupture when Sheriff John Orrealed upon Mayor Kirkpatrick to give him information concerning the location of several bootlegging establishments. Thinking to force the hand of the Mayor, Sheriff Orr, before the Council, demanded the information.

An Unwilling Target. Punch

The Home Secretary, we understand, cannot see his way to allow a distinguished Anglo-German who dwells in our midst with his family to exhibit, with a view to safeguarding his home against Zeppelins, an illuminated sky sign bearing the words "Gute leute wohnen hier" ("Good people live here").

The marked decrease in the damage highring in European cities in the last feyears is attributed to the presence of electric wires which divert the bolts.

CARRANZA IS REAL POWER IN MEXICO

Administration Forced by Recent Events to Abandon Original Position.

SHAM EXPOSED VILLA'S

Terms of Mexican Leader Accepted in Substance and Ultimate Recognition Is Regarded as More Than Possibility.

OREGONIAN NEWS BUREAU, Washington, Sept. 22,-Ultimate recognition of Carranza by the United States is now reckoned in Washington as more than a possibility. The recent trend of events has encouraged the belief that Carranza in due time is to be recognized by this Government, unless he suffers decisive defeats in Mexico which indicate that he is losing strength. The recognition of Carranza will not be a pleasant task for the Wilson Administration, for the President, especially, has never looked on the General with particular favor.

However, the State Department and the whole Administration has been brought face to face with a condition of affairs in Mexico that cannot longer be overlooked. Carranza, by successive victories, has steadily increased the territory over which he exercises control, and the Villa domain has as steadily diminished.

Villa's Claims Expessed. of events has encouraged the belief

Villa's Claims Exposed. The Administration has had so much advice from American sources, however, and especially advice from men
selected by the President to report on
actual conditions, that the clamorings
of Villa's agents at Washington have
ceased to carry conviction, and what is
equally important, the fake character
of the Villa claims has been exposed
to the American Republic. The Adminto the American Republic. The Admin-istration, at last seemingly convinced that it had been imposed on, is now

inclined to grant recognition to Car-ranza, although it would much prefer to recognize some other leader. When Secretary Lansing and the Pan-American conference drafted their ultimatum to the Mexican leaders it was announced that their terms for a peaceful conference must be met; that if Carranza would not come into the conference, the representatives of the United States, Argentina, Brazil, Chile, Bolivis, Urugusy and Guatemals would confer with Villa and other Mexican leaders ready to accept the con-ditions, and it was even asserted in official quarters that General Carranza would be forced to accept such terms as the joint conference might agree on.

Carranea Not to Be Disregarded. General Carranza's reply to the ulti matum was of such character that the State Department, bearing in mind the relative strength of Carranza and Villa, decided it could not disregard Carranza or his counter-proposal, and instantly talk of a conference with Villa and forcing Carranza to accept the terms of that conference was

stopped.
It is known that the Pan-American countries would not commit their governments to a plan of armed intervention in Mexico. They were willing to act with the United States in reasonable peaceful efforts to restore order in Mexico, but the minute intervention became the plan of the United States there are countries were ready States those six countries were

to step aside and let the United States "go it alone."

The United States, having backed down from the position it took when the ultimatum went forward to the Mexican chiefs, the next step is the acceptance by the United States of the terms of conference named by Carranza, save that the conference will not be held on Mexican scil. By meeting Carranza more than half way the tunited States recognizes him as the strongest factor in Mexico today and admits its own error. down from the position it took whe

Tenino School Fair Planned.

CENTRALIA, Wash., Sept. 22 .- (Spe cial.)—The Tenino schools, business men and farmers are making prepara-tions for an industrial fair to be held well represented with agricultural and horticultural exhibits. One feature on the amusement programme for the day will be the ball game between the La Grande Elks and the Enterprise Knights of Pythias team.

tions for an industrial fair to be held in the town on October 11 and 12. The merchants have arranged for booths and prizes will be awarded for the best school exhibits. The chief purpose of the fair is to secure a suitable Tonino exhibit for the annual Thurston County fair, to be held October 12 to 16.
