

DUMBA MUST WAIT FOR SAFE CONDUCT

Washington Will Not Act on Request Until It Receives Reply of Vienna.

OTHER CASES DELAYED

Translation of "Idiotic Yankee" Phrase From Letter Written in German by Von Papen Sent Back for Verification.

WASHINGTON, Sept. 23.—The American government will make no effort to secure safe conduct from the United States of Constantin Dumba, Austro-Hungarian Ambassador in Vienna, until the Vienna government has replied to the request that the Ambassador be recalled.

Dr. Dumba himself telegraphed Assistant Secretary Phillips, of the State Department, from Vienna, today, giving notice that his government had recalled him from Vienna, and asking that the American government arrange for his safe conduct to Vienna.

Vienna's Reply Is Awaited. Whether the American government will be satisfied if Vienna carries out Dr. Dumba's request and gives notice that he is to be withdrawn "on leave" was not disclosed tonight and will not be determined finally until it is seen what form the Austro-Hungarian reply takes.

As usual, as dispatches from Vienna have indicated that the government there already has cozen a temporary successor to Dr. Dumba, it is taken for granted that an attempt will be made to send the latter back here, whatever may be the manner of his going.

The delay in receiving a reply to the Dumba notes is believed by officials to be due to difficulty in communication between Washington and Vienna. Several messages received recently from Ambassador Dumba have been nearly a week reaching Washington.

Status of Others in Doubt. The President tonight still was considering what action, if any, to take in regard to Captain Franz von Papen, German military attache here; Alexander Nuber von Pereked, Austro-Hungarian Consul-General in New York, and other officials involved in the Dumba incident.

Photographic copies of more of the letters taken from James F. Archibald in London will be awaited before final action will be taken. A letter written in German by Captain von Papen, in which occurred a phrase which has been translated "those idiotic Yankees," was referred to translators at the State Department today to determine the exact meaning of the German words.

Most of the so-called Archibald letters already received here were sent to the Department of Justice by the State Department. They will be examined by Assistant Attorney General Warren to determine whether action can be taken against Archibald.

FRIENDSHIP NOT IN DANGER

Vienna Says Dumba's Recall Will Not Change Good Relations.

VIENNA, Sept. 18, by courier to Berlin and thence to London, Sept. 22.—The recall of Dr. Constantin Dumba, Austro-Hungarian Ambassador to the United States, cannot have any possible effect on the existing good relations between Austria and the United States, according to assurance given the Associated Press by a high official speaking for the government.

Thus far no report of any nature has been received from Dumba and it is assumed here that because of the difficulties of communication he will wait until he can make a report in person. Despite this, however, the official referred to explained the government's attitude as follows:

"The Dumba incident cannot have any influence whatever on the good relations of the two nations. The wish expressed in the American note that the friendly and cordial relations may remain unchanged is shared to the highest degree by the Austrian government.

"The American government, undoubtedly, considered itself in good faith bound to request the Austrian recall. Cases of recall of Ambassadors often have occurred in peace times without any special circumstances being ascribed to them and the Dumba case should also be considered from the same standpoint.

"The correspondent mentioned the fact that other officials in Austrian governmental circles had intimated to him their feeling that Dr. Dumba, insofar as he warranted his conduct and assistance in making the munitions, did only his duty.

"That is certainly true," was the answer. "Subjects of the dual monarchy who do such work make themselves guilty of high treason and would be severely punished in case of their return. It was therefore the Ambassador's duty to warn them."

"What says your excellency concerning the employment of Archibald as a messenger?" asked the correspondent, and received this reply: "As reported in the press, Archibald was an old friend of Dr. Dumba. It was understandable that the Ambassador, in view of the great difficulties in communication, employed him without giving the matter a second thought."

The correspondent asked how the American answer to the Austrian protest concerning the export of munitions had been received.

The reply was: "Naturally there are wide differences between our and the American standpoint. The matter is still under consideration and it is possible that the American note will be replied to."

VON PAPEN WILL GO

German Ambassador to Send His Attache Home.

LEAVE TO BE PERPETUAL

Von Bernstorff Will Not Wait for Official Notification From Washington—Implication of Others Is Denied.

NEW YORK, Sept. 23.—(Special.)—The Tribune says today: Captain Franz von Papen, the German military attache, will not join the German Embassy staff when it moves to the capital of the "idiotic Yankees."

Instead, he will go away on a perpetual "leave of absence" and return to Germany. This step has been decided on by Count von Bernstorff, the German Ambassador who returned today from a five-day seclusion in the Adirondacks.

Yesterday, Ambassador von Bernstorff expressed his surprise at the cable report of Von Papen's indiscretion in criticizing the people of a nation whose friendship Count von Bernstorff has been particularly desirous of maintaining. For this reason the Ambassador will not wait until Count von Papen's "leave" has been given by his attention officially.

Dr. Frederick Elder, the Ambassador's private secretary, emphatically denied the report today that his chief or any attaches of the German Embassy, aside from Captain von Papen, were in any way involved by the latter taken from James F. J. Archibald by the British authorities.

"The Ambassador wishes me to deny once for all that there is any truth whatever in these reports," he stated. In answer to a question, Count von Bernstorff said tonight that he did not expect the arrival of the German note until some time next week.

"I am just as optimistic today as I always was that the difficulties between the two nations will be amicably settled," he said.

HOTEL MAN GETS RESPIRE

Circumstances of Raid Cause Sentence to Be Continued.

Though a plea of guilty was entered in the case of George Harbort, who was accused of running a disorderly house at the Alma Hotel, Twelfth and Stark streets, Municipal Judge Stevenson Wednesday continued sentence, owing to extenuating circumstances.

Harbort said that he had acquired proprietorship of the hotel two weeks ago, and that the raid which occurred in a raid Monday night already had been ordered out within the following two days, and he had no time to prepare a defense.

On the night of the raid Harbort was at police headquarters endeavoring to secure the arrest of a man at his hotel who he had reason to believe was a burglar and had stolen several valuable sets of furs he was trying to dispose of. He said that the police refused to make the arrest, then but desired Harbort to wait until morning and swear to a complaint.

FRYE NOTE IS RECEIVED

Agreement on Disputed Questions Believed in Sight.

WASHINGTON, Sept. 23.—Another note from Germany regarding the case of the American sailing ship William P. Frye, sunk by the commerce raider Prinz Eitel Friedrich, was received last night by the State department and was communicated to President Wilson by Acting Secretary Polk. It is understood an agreement on disputed questions is in sight.

In his last note to Berlin, the American government accepted proposals that the amount of indemnity for the destruction of the Frye be increased to a mixed commission and that the question of "legal justification" be submitted to The Hague.

Germany was asked, however, to say, pending the arbitral award, whether she would govern her naval operations in accordance with her own interpretation or in accordance with the interpretation maintained by the United States as to the obligations imposed by treaty stipulations.

'GRANDFATHER BATY' BACK

Injured Detective, Captain at Desk Again After Linnton Riot.

"They'll forget I was hurt and say I'm getting old—I had to come to work," remarked C. E. Batty, detective captain, as he sat at his desk at police headquarters Wednesday. For the first time since his shoulderblade was cracked during the Austrian riot at Linnton, September 12.

The reason that Captain Batty feared that undue age would be attributed to him was the advent of a granddaughter yesterday morning. An eight-pound baby girl was born to Mrs. F. A. Thrasher, the only daughter of Captain Batty, and the officer celebrated the event by returning to work—showing that he was as spry as ever, despite the fact that he was a grandfather and convalescent from a painful injury.

"We don't want him to get sick and advance person," the Mayor said last night. "It's time something was done to stop him from working himself. Instead, he will be away on a perpetual 'leave of absence' and return to Germany. This step has been decided on by Count von Bernstorff, the German Ambassador who returned today from a five-day seclusion in the Adirondacks."

Yesterday, Ambassador von Bernstorff expressed his surprise at the cable report of Von Papen's indiscretion in criticizing the people of a nation whose friendship Count von Bernstorff has been particularly desirous of maintaining.
