GREEKS MOBILIZE TO OFFSET BULGARS

Balkan States Deny Warlike Intentions, While Making Full Preparations.

FRONTIERS ARE MENACED

The Greek, Roumanian and Serbian Ministers successively visited Sir Edward Grey at the Foreign Office today. The Greek Minister formally communicated to the communica municated to the Secretary of State for Foreign Affairs the telegram from his government amounting that in view of the mobilization of Bulgaria the Hellenic government considers it a measure of elementary prudence to order a general mobilization of the Helienic naval and military forces. It is estimated that in addition to the Greek navy 350,000 Helienic troops will be mobilized within a few days. Bulgarians Menace Serbia.

Meanwhile Bulgaria continues mobil-izing on an aggressive scale and a Paris dispatch says the Temps is informed from Saloniki that Bulgaria has been sending troops toward the Soviets sending troops toward the Serbian

frontier for several days.

Five cavalry regiments have been dispatched toward the border, the dis-

formed that Bulgarian warships which were stationed at Varna on the Black Sea has sought shelter in a neighboring bay. Large numbers of men are working at feverish speed to fortify Bulgarian Black Sea ports. The valuables of the branches of the National bank at Burgas and Varna have been removed to Sofia.

Austrians are said to have retired across the Styr.

All the way from the Baltic port of Riga to the Pripet marshes the Russians are holding their line stubbornly in an attempt to bring their long retirement to an end. The fighting is particularly severe southeast of Vilna and east of Dvinsk.

Russian Invasion Expected. The belief has been expressed in Bul garia that if that country arrays itself on the side of the Teutonic allies, Rus-sia would attempt an invasion through the port of Varna, 30 hours' sail from Odessa, although it is strongly forti-

may reach 700,000.

Most military men believe that Bulgaria will huri troops into the upper Morava and Vardar valleys in Serbia and then cut the Saloniki-Nish railroad near Uskub, which would cut Russia off from all communication with her allies except through Archangel.

Mr. Gompers wrote that he realized nations could not disarm under present conditions and advocated a small standing army, with opportunity for the masses of the present to the university. Dr. Suzzalio said to the

people to prepare themselves for defense of the country.

Deprecating any tendency toward militarism, he declared the practice of requiring applicants for admission to military camps to file records of their professions or callings enabled the of professions or callings enabled the ofcers in charge to create and encourage ndemocratic customs.

"You know, of course," he concluded, "that while the organized labor movement advocates peace, it advocates peace founded upon justice and not peace at any price.
