

DIABLE RAGES EAST SLIPPING AWAY

Editor of Honolulu Paper Shows Japanese Domination in Pacific.

NOTE OF WARNING SOUNDED

Movement Started in Hawaii to Memorialize Congress for Repeal of Coastwise Shipping Law—Seaman's Law Brings Crisis.

OREGONIAN NEWS BUREAU, Washington, Sept. 26.—(Special.)—The commerce of the Pacific is a certainty unless the United States awakens from its slumbers and makes an aggressive fight for this valuable trade.

This is the prediction of Wallace R. Farrington, of Honolulu, who is in Washington on a fact-finding mission in the Hawaiian Islands.

Hawaii vitally interested in the National programme which is to be developed for placing an American merchant marine worthy of the name.

Since these ships were actually withdrawn I have had conversation with Captain Robert Dollar at the time he arrived in Honolulu in company with a delegation of Chinese financial and commercial interests.

What Result Bound to Be Told.

It can be readily understood why such a movement is being undertaken enthusiastically following if the citizens of Hawaii were prompted entirely by mercenary motives.

From present indications that is exactly the condition of affairs in the Pacific. Shortly after I left Honolulu a movement was started in the Honolulu Chamber of Commerce to memorialize Congress for repeal of the coastwise shipping law insofar as it relates to Hawaii.

They would go in to get this business and in this activity they unquestionably would have the support of their Government.

Consequently, it is to the credit of the Honolulu Chamber of Commerce, made up of the small business firms, that the members, at a largely-attended meeting, voted down the proposal to repeal the coastwise shipping law.

W. C. T. U. GOMEZES Women Oppose High School Military Drill. ORGANIZATION IS STRONG

Members Will Fill Pulpits Today at Conference—Sessions of Methodist Ministers Away Are to Continue.

What was held by the delegates to have been the greatest of all Multnomah county conventions of the Woman's Christian Temperance Union was held Saturday at the Central Methodist Church.

Up to two months ago the telephone service of Jamestown was entirely tolerable. Of course, there were times when a curious subscriber would take of a receiver to find out a scrap of information about some beloved creditor.

Two inspectors went to her home and asked her all about the use of the telephone. She explained that she used it to talk through and to listen through, but that the listening had been done by the telephone.

DEATH-AUTO DRIVER FREED

Second Jury Exonerates but Reprimands Man for Lad's Death.

"Not guilty, with a severe reprimand," was the verdict returned by a jury in Circuit Judge Gantenbein's court Saturday in the case of Fred Skogshed, charged with involuntary manslaughter.

Skogshed was driving a truck which on December 7, 1914, ran down and killed Russell Ward, aged 11, at Williams avenue and Killingsworth street.

Once before a jury in Judge Gates' court had convicted Skogshed, but on a technicality a new trial was granted and yesterday he was acquitted.

Russell Ward, the only son of his widow's mother, was sitting on the pavement when the truck, which, according to the testimony, was on the wrong side of the street, struck and killed him.

Bank Sues, Loses \$820. Jury Favors Defendants on Evidence of Uncredited Deposits.

OREGON CITY, Or., Sept. 26.—(Special.)—Instead of obtaining a verdict, the State Bank of Tenino, Wash., and the Polite in a suit against Frank and Leo Polite, was ordered to pay \$820.63 to the defendants.

The bank sued to collect on a series of notes totaling \$3000. The Polites introduced evidence that they deposited more than \$3000 in the bank six years ago which never was credited to their account.

Later the bank went into the hands of a receiver and Hayes and the present receiver, who accepted the bank's position. A musical programme followed.

The annual county election resulted in the re-election of Mrs. Mattie Sleeth as president. The other officers are: Vice-president at large, Mrs. Ward Swain; recording secretary, Mrs. Margaret Hansen; corresponding secretary, Mrs. Rachel Kelly; treasurer, Mrs. James M. Donaldson.

Last night a programme was given and the gold medal contest held. Miss Irene Hollendback, of Lents, gave "Only Cider," and bore off the medal.

A large number of contestants spoke, and the whole programme was enthusiastic. Arthur Lynn sang a number of Scotch songs. Mr. MacClaren addressed the assembly.

An unusual feature will be noted in the programme for today. The Methodist church at Roseburg, and their pulpits will be occupied by Woman's Christian Temperance Union women.

At the Central Methodist Church Mrs. Mattie B. Sleeth will speak. "How Can the Woman's Christian Temperance Union Aid in the Enforcement of Prohibition Law?" will be Attorney General Brown's talk at 3 o'clock. He will be followed by District Attorney Evans, who will speak on "Can the Prohibition Law Be Enforced in Multnomah County?"

In the evening, "The Work of the Young People's Branch" will be presented. Talks and music by the choir will complete the programme.

The work of the association it has been found at this convention, has been thoroughly successful during the past year. Reports show that the membership, as well as the number of people who are interested in the cause, has increased greatly during 1914 and 1915.

This afternoon's session will begin at 3 o'clock and will be followed by a musical programme. Mrs. Lillian Downing will have charge of the evening session.

WAR ORDERS EXPECTED Munitions and Submarine Contracts May Come to Portland.

Portland yet may become the center for some of the activity due to the construction of war equipment and war material for the United States.

MISS TURNER IMPROVING

Woman Who Tried to End Life by Jump Still in Serious Condition.

Miss Edna Turner, the young woman who leaped from a fourth floor window of the Fledler building, Eleventh and Washington streets, Friday morning in an attempt to commit suicide, showed an improvement at the Good Samaritan Hospital Saturday and some hope for her recovery was entertained.

The nature of the internal injuries received by the young woman from her drop of 50 feet have not yet been determined, but they are believed to be of a serious nature.

Miss Turner Saturday told the attendants that her folks lived in Louisiana, and that she had a brother in Rochester, Wash., but she did not wish him notified because of his large family and the desire not to make him any expense.

HOGGING DOWN PROFITABLE

Alfalfa and Corn Made to Yield Good Returns at Belle Fourche.

WASHINGTON, D. C., Sept. 26.—A marked increase in the amount of livestock on the Belle Fourche, South Dakota, reclamation project is shown in a recent report of the United States Department of Agriculture's experiment farm on that project.

The report says it is to feed more of the farm crops and to sell livestock products. Pasturing hogs on alfalfa and hogging corn are coming into favor. The results of experiments conducted on the Government farm indicate that this is a decidedly profitable way of marketing alfalfa and corn.
