The "Know How" of Cookery

is the result of long experience and study. For years, expert cooks have been converting the inner meats of choice Indian Corn into delicious, golden-brown crisps-Post Toasties.

A constant endeavor to make Toasties better has produced the

NEW Post Toasties

which have a new flavour and form-a true corn flavour and tender crispness unknown to "corn flakes" of the past.

The new process raises tiny pearl-like "puffs" on each flake — a distinguishing feature; also imparts substantial form - the new Toasties don't mush down when cream or milk is added.

They come factory-fresh in wax-sealed packages - as crisp and appetizing as when they leave the ovens-and that's mighty good!
