Day Given to Break With Teutons.

MINISTER READY TO LEAVE

Facts Held Not to Square With Sofia's Pretensions.

WARNING IS REITERATED

Petrograd Demands That German and Austrian Military Officers Now in Country Be Dismissed Within Twenty-four Hours.

PETROGRAD, via London, Oct. 3.—The Russian Minister has been ordered to leave Sofia unless within 24 hours the Bulgarian government openly breaks with Austria and Germany and sends away the Austrian and German military officers now in Bulgaria, according to the semi-official news agency.

The news agency gives the following note which the Minister at Sofia has been ordered to hand to M. Radoslavoff, the Bulgarian Premier.

"The events which are taking place in Bulgaria at this moment give evidence of a definite decision of King Ferdinand's government to place the fate of its country in the hands of Germany.

Hostile Purpose Not Doubtful.

"The presence of German and Austrian officers at the ministry of war and on the staff of the army, the concentration of troops in the zone bordering Serbia, and the extensive financial support accepted from our enemies by the Sofia cabinet no longer leave any doubt as to the object of the military preparations of Bulgaria.

"The powers of the cabinet who have at heart the realization of the aspirations of the Bulgarian people, have on many occasions warned M. Radoslavoff that any hostile act against Serbia would be considered as directed against themselves. The assurances given by the head of the Bulgarian cabinet in reply to these warnings are contradicted by the facts.

Open Break Demanded.

"The representative of Russia, which is bound to Bulgaria by the imperishable memory of her liberation from the Turkish yoke, cannot sanction by his presence preparations for fratricidal aggression against a Slav and allied people.

"The Russian minister, therefore, has received orders to leave Bulgaria with all the staffs of the legation and consular powers of the entente, who does not within 24 hours openly break with the enemies of the Slav cause and of Russia, and does not at once proceed to send away officers belonging to armies of states which are at war with the powers of the entente."

MOBILIZATION IS COMPLETE

Strength of Bulgarian Forces Now Estimated at 350,000.

LONDON, Oct. 3.—An Athens dispatch to one Exchange Telegraph Company says it is learned from Sofia that Bulgarian mobilization has been completed. The strength of the Bulgarian troops is estimated at 350,000.

The artillery regiments have been sent to the Serbian frontier, while the Sixth and Seventh divisions are concentrated in the regions of Koula and Belogradchik, near the Danube.

PLOT OF SIKHS NIPPED

Slaughter of British in Cathedral at Hongkong Prevented.

HONOLULU, Oct. 3.—Plans of Sikh mutineers to surround a cathedral in Hongkong during services August 4 and kill the British Governor, officers, and congregation, were discovered in time to prevent their execution, according to Bishop Restarick of the Protestant Episcopal Church in Honolulu, who has just returned from the Orient. Thirty-eight ring leaders of the plotters were sent to India to be put to death.

German money was found on the leaders, Bishop Restarick said. An intercepted letter disclosed to the officials the complete plans of the mutineers.

MINERS ENTOMBED. SIX DAYS RESCUED

NINE MEN SUFFER FROM INTENSE COLD AND HUNGER.

Efforts of 200 Workmen and Company Officials to Tear Away 300 Feet of Rock Succeeds.

LANSPFORD, Pa., Oct. 3.—Nine miners entombed in the Lehigh Coal & Navigation colliery at Coaldale last Monday, were rescued alive today.

They were found on top of a chute in which they had crawled to escape a flood of water from an abandoned working which caused more than 200 feet of roadway roof to fall, shutting off all escape. The men are in the hospital and are expected to recover. The rescue was accomplished after 200 mine workers and company officials had battled for six days against disastrous conditions in the choked-off gangway.

After blasting and tearing away more than 200 feet of solid rock, coal and timbers, rescuers reached the chute where the pitiful group was discovered. It was intensely cold in the tight space and the rescuers found the nine men, two of whom are scarcely out of their teens, curled up in a compact mass to retain the warmth of their bodies.

Fish oil and a few crushed chicken bones, found in a dinner pail, had made up their principal diet until Thursday, when the latter gave out and the fish oil composition used in their lamps was the only item on the menu.

MILITIA FRAUD CHARGED

Texas Said to Have Sold Uniforms to Mexican Revolutionists.

SAN ANTONIO, Tex., Oct. 3.—The War Department has advised the State Adjutant-General's office at Austin that the Government allowance to the Texas National Guard for the ensuing year will be \$900,000 instead of \$100,000, it was announced here today. A deduction of \$1,000,000 from the annual appropriation was made by the department to cover the value of uniforms and other equipment belonging to the state militia, which, it is charged, were sold to Mexican revolutionists after official statements had been submitted that the equipment had been condemned and destroyed.

Three officers of the Texas National Guard recently were indicted here on charges of defrauding the Government in connection with the alleged sale of militia equipment.

Agents of the Department of Justice say that \$20,000 worth of uniforms were sold to Carranza troops, the United States Army buttons being removed and sold to St. Louis firm.

STRIKE AMNESTY FAVORED

Colorado Company Willing to Drop All Except Extreme Cases.

DENVER, Oct. 3.—The Colorado Fuel & Iron Company would welcome an amnesty regarding alleged offenses growing out of the coal miners' strike of 1913-14, according to a statement by J. E. Welborn, president of the company. Mr. Welborn said the state authorities had not advised that the company would not be averse to the amnesty in all cases against ex-strikers, except where evidence of guilt is exceptionally strong.

"It is our desire, however," he said, "to see the state cleaned as quickly as possible." Mr. Welborn's statement was made in reply to a question whether the adoption of the Rockefeller industrial subsidy would have any effect on the so-called strike cases.

WRECK IS LAID TO MINE

American Naval Officers About Convicted in Hesperian Case.

WASHINGTON, Oct. 3.—Naval officers assigned to examine pieces of metal said to have been found aboard the Allan Horn Hesperian before she sank off the Irish coast September 4, are virtually convinced that the vessel was wrecked by a mine. Their findings will be submitted to Secretary Daniels this week.

While there has never been a formal announcement of the subject, his patches from London have credited the British admiralty with the belief that the Hesperian was torpedoed without warning by a German submarine.

COREA HELPING RUSSIA

Order for 800,000 Army Boots Is Placed in Seoul.

SEOUL, Korea, Sept. 3.—Russia has placed an order for 800,000 pairs of army boots with the Cho-sen Tanning Company, which is operating day and night.

Advices here indicate that Russian army officers are buying all available cattle and sheep in Mongolia. The figures are estimated at millions of heads. The livestock will be for the most part butchered in Mongolia in special abattoirs and then forwarded to the Russian armies.

MORMON TEMPLE PLANNED

Church to Build Opposite Honolulu on Island of Oahu.

SALT LAKE, Oct. 3.—The Mormon Church will erect a temple at Hale, opposite Honolulu, on the island of Oahu, a gathering of about 12,000 members of the church having voted unanimously in favor of the project when it was submitted by President Joseph F. Smith at the opening of the eighty-sixth semi-annual conference of the church.

This will be the sixth Mormon temple and the first outside of North America. Utah has four and a fifth is in course of construction in Alberta, Canada.

FRENZIED FINANCE STORY TO BE TOLD

Witnesses Gather for Big Bank Trial.

LORIMER MAY BE CALLED

Ex-Senator's Lieutenant Defendant in Present Case.

JURY CAREFULLY CHOSEN

Defense Excludes Bankers and There Will Be Few Men of Large Business Affairs—200 Likely to Take Stand.

MORRIS, Ill., Oct. 3.—(Special.)—The vanguard of the army of witnesses summoned in the trial of Charles R. Munday, lieutenant of William Lorimer, began arriving today. Four additional jurors remain to be selected, and it is thought taking of testimony in the case will begin Tuesday.

The jury will hear an amazing story of political banking and frenzied finance in which professions of religion and other elements entered and which subsequently cost depositors, creditors and stockholders several million dollars. The prosecutor's statement will require a day in the inquest, starting with the inception of the La Salle Trust & Savings Bank on ten worthless notes down to its disastrous collapse.

Lorimer May Be Called.

There is a strong intimation that Lorimer will be summoned as a witness, despite the fact that he is also under indictment on the same charges as those for which Munday is on trial.

Assistant State's Attorney Holly will make the opening statement on behalf of the prosecution. It will be a recital of what the state expects to prove in support of its charge that Munday conspired with ex-Senator Lorimer and others to loot the banks of all their good assets and to substitute worthless stocks and bonds.

Sensational Charges Made.

The prosecutor's statement is expected to be sensational. Every overt act discovered by the state—check kiting, the organization of a string of other banks on assets pilfered from the La Salle Trust Company's vaults, evasion of laws through connivance with public officials, juggling money to put up a "front" of wealth, and other happenings incidental to the "high" and frenzied financing which culminated in the final wreck—will be explained to the jury.

It will be a hard task for the jurors, no matter from what walk of life they come, to assimilate the maze of figures offered them, understand the intricate banking methods of the Munday-Lorimer banks or comprehend the nerve which was the basis of many acts. There are to be no bankers on the jury—the defense has made that

GERMANY FAILS TO SATISFY DEMANDS

Sinking of Arabic Is Not Disavowed.

WAS SECRETIVE

Final Refusal May Cause Rupture of Relations.

BERNSTORFF TO CONFER

Ambassador Will Be Asked to Receive Views of American Government in Person and Has Authority to Act.

WASHINGTON, Oct. 3.—Germany has failed to satisfy the request of the United States that the sinking of the Arabic, with a loss of American lives, be disavowed and liability for the act assumed by the imperial government.

This became known after a conference tonight between President Wilson and Secretary Lansing, at which the latter submitted a note given him yesterday in New York by Count von Bernstorff, the German Ambassador.

Ambassador to Be Sent For.

No announcement was made after the White House conference. Secretary Lansing said merely that it was inadvisable to comment on the situation while the negotiations were still confidential. He declined to say what the next step would be, but it was learned later the German Ambassador would be asked to come to Washington soon to receive the view which the American Government takes of the last German note.

Count von Bernstorff is fully authorized by his government to conduct the submarine negotiations.

Immediate Break Averted.

The situation has improved to the extent that there is no danger of an immediate break in diplomatic relations, as the note affords an opportunity for further negotiations.

It was said reliably that final refusal by Germany to meet the American viewpoint on the Arabic case might bring about the threatened rupture in diplomatic relations.

Just what the details are on which the two governments are in conflict was not definitely known, because secrecy has enveloped the negotiations. In general, it was learned that Germany, after examining the evidence submitted by the United States, came to the conclusion that her submarine commander erred in assuming that the Arabic was intent on ramming the German submarine when steering to rescue the passengers on the British steamer Dunstey.

Full Reparation Insisted On.

This admission of a mistake would amount to the act, but the United States has insisted that disavowal must be accompanied by an assumption of responsibility and liability, and that full

Sunday's War Moves

THE Russian minister at Sofia has been ordered by his government to leave the Bulgarian capital if within 24 hours Bulgaria does not openly break with the central powers and dismiss the Austro-German officers, who recently arrived in that country to direct the operations of King Ferdinand's army.

The other powers of the quadruple entente are backing up Russia in this demand, and so Bulgaria must, within a few hours, decide on continued neutrality or be considered definitely committed to the central powers.

From Balkan news of the past few days it is considered certain that King Ferdinand and Premier Radoslavoff have made their choice and are only awaiting the completion of mobilization to strike at Serbia and assist the Austro-Germans to open the road to Constantinople, which has been anxiously waiting for many weeks for promised aid from the central powers.

Of course, it is believed, will have to her treaty with Serbia and so to her assistance if she is attacked, but the attitude of Roumania, which remains an only partly mobilized spectator, is uncertain.

Rain and mud have prevented the Anglo-French armies from continuing their full offensive in Artois. Fighting of a stubborn nature, however, still is going on in that region. Success there, as in Champagne, apparently is varying, although the allies are holding virtually all the ground they gained in last week's thrust.

That other similar thrusts will take place soon is the conviction of military writers on the allies, who see in the repeated bombardments of the German position on the Belgian coast by British ships and big French guns and air raids over the German lines evidences of another storm brewing.

The air raid in Champagne Saturday by 85 French aeroplanes is the biggest enterprise of the kind ever undertaken. The French, according to the German report, have lost the airship Alsace, which was mentioned a few days ago in the official communication as doing valuable work.

Although fighting continues, there is little of the change in the eastern situation. The Russians, who being forced back at some points, are themselves pressing the Germans at other points, particularly to the east of Vilna, where Field Marshal von Hindenburg's drive toward Minsk has been checked.

The Russians in the Caucasus, following the lead of the British in Mesopotamia, are taking a more active offensive against the Turks.
