Marsh, clerk of the United States District Court, United States Attorney Reames and Assistant United States Attorneys Johnson and Beckman, United States Marshal Montag and Deputy Marshal McSwain, left for Portland at 8:30 o'clock last night. Mr. Marsh will remain only long enough to appear in the grand jury and get the work started, but as there are 12 cases to come before the grand jury, and several trial cases on the court today, the others may remain for two weeks.

PRISONER ALLOWED TO HARVEST CROP.—Joe Pecard, by his own admission, stole six dozen bottles of beer onto the Umatilla Indian reservation but after Federal Judge Wolverson had sentenced him to two months in the County Jail he was asked a favor, through Assistant United States Attorney Rankin, who prosecuted him. The favor was that he be permitted to go back to the farm in Eastern Oregon and harvest his wheat crop, promising them to return and serve his sentence. Mr. Rankin said the Government was willing, so Judge Wolverson granted the request.

NEW HIGH SCHOOL TOPIC.—The North Portland Commercial Club will meet tonight at the branch library, Killingsworth avenue and Commercial street, to consider the question of enlarging the Jefferson High School, or the erection of another structure on the space north of the present high school building. It is reported that the enrollment at the Jefferson High School exceeds 1500, and more are coming in, which overcrowds the structure. Several alternative rooms have been suggested, but club plans to start a movement to have erected at least a 20-room building, which will be part of the main structure.

"Kitt" Carson, well-known railroad and publicity man, who has charge of the publicity for the Pendleton Roundup this year, has returned to Portland with the declaration that the Roundup attracted more Eastern people to Oregon than all the other attractions, including the San Francisco fair, combined. The girl is only 15 years old. Yesterday County Clerk Coffey received a letter from Sheriff Gellaly saying that the couple might seek a marriage license here and asking him to refuse it. STRIKES LINES TO BE STRENGTHENED.—An error made several years ago in establishing the street lines between East Twenty-second street, between Gladstone and Bismark street, will be straightened out by the passage of an ordinance by the Council, redesignating the street lines. The Southern Pacific owns the property encroached upon by the street in the original improvement survey.

FIRE MARSHAL IS DELEGATE.—Fire Marshal Stevens is to be sent by the city to San Francisco in January to attend the annual session of the Pacific Underwriters' Association of the Pacific. The Council by vote of 4 to 1 decided yesterday that his attendance there would be beneficial to the city. Commissioner Daly opposed the plan. The rest of the Council thought it would be money well spent.

FOSTER ROAD PARTLY OPENED.—Beginning last Thursday the contractors began on the completion of the Foster road to Johnson Creek and the road was opened to use for that distance. The road beyond Johnson Creek will be completed for some time and it will take at least 30 days for the concrete to harden so it can be used. There is about a three-quarters of a mile near Sycamore Station, where fills have been made, and this will not be covered with concrete until the end of the month. The road will be opened to use for that distance. A concrete bridge is being built over Johnson Creek. The Foster road is used for access to Pleasant Valley and the Lammas district and ordinarily carries a large traffic.

The extension is from the southeasterly line of McMillen's intersection to East Portland to an intersection of Hanson street and Adams street. That without the protection of proper long-term restrictions, it is impossible to build up a high-class residential district that will maintain its character as time passes?

That Portland has many object lessons showing the necessity for long-term restrictions that will safeguard its residential sections.

That business houses, industrial plants, apartment-houses, garages and moving picture theaters have invaded the most exclusive sections of the city.

That many of the residents of the highest-class districts in the city—in which the restrictions are about to expire—are quietly endeavoring to dispose of their palatial homes on almost any terms.

That with the growing demand, business houses must encroach upon our residential area; they have no other place to go and there is nothing to keep them out.

That these things hurt values, lower the tone and destroy the harmonious beauty necessary to an ideal residence tract.

That proper long-term restrictions such as LAURELHURST enjoys have prevented all this?

Where else can one find a justification for investing in an elaborate home? People now insist that assurances be furnished that the values of their homes will not deteriorate in the future.

LAURELHURST restrictions run for some twenty years to come and cover a tract one mile long and three-quarters of a mile wide, affording great protection. It is admittedly a model for the entire city.

Protect yourself and family by buying your home in LAURELHURST, the addition of beautiful homes, where you are assured of harmonious development and protection, which will mean constantly increasing values.

LAURELHURST has the room, the location, and the restrictions necessary to take care of the city's best residential development. Its 31-acre city park, lake, playground, and 26 miles of serpentine boulevards lined with ornamental shade trees, offer a natural charm, a privacy, a picturesque appeal and challenges comparison with any similar property in the world.

Slightly homesites can be purchased here for less than you would have to pay for less desirable property farther out. Terms, ten per cent cash and two per cent per month with second mortgage privilege to responsible parties. We also have some attractive well-built homes for sale at extremely low prices on rent-like terms.
