

FRENCH TO CONTINUE LANDING IN GREECE

Downfall of Venizelos Cabinet Not Viewed as Determined Opposition.

ACTS OF KING RECALLED

Incident Not Mentioned by Monarch in Conversation With Minister. Request for Aid Previously Made by Goumaris.

PARIS, Oct. 6.—The landing of the French troops at Saloniki and their prompt dispatch northward across Greek territory to the Serbian frontier will proceed without regard to the cabinet crisis at Athens.

The downfall of the Venizelos cabinet is considered here as relating to formalities rather than to determined opposition to the landing of French troops.

Statements evidently based on official information relate that King Constantine received the French Minister at Athens after the landing of French troops had begun and made no mention of the incident or suggestion of a protest.

Request Made by ex-Premier. In the same official quarters it is also pointed out that ex-Premier Goumaris made the definite request of France last March that the French land an expedition at Saloniki to back up the position of Greece.

Attack on Serbia Expected. The statement is made by the Temps that King Ferdinand of Bulgaria, has decided to attack Serbia before the end of the present week.

GREEK PROTEST IS PUBLISHED

Formal Declaration of Neutrality Made by Venizelos. ATHENS, Saturday, Oct. 2, midnight, via Paris Oct. 6.—(Delayed by censor.)—The following statement was issued officially after a meeting of the cabinet tonight:

The French Minister delivered the following note to Premier Venizelos: "By order of my government, I have the honor to announce to your excellency the arrival at Saloniki of the first detachment of French troops, and to declare at the same time that France and England, allied to Serbia, send their troops to help the latter, as well as to maintain the peace in the Balkans, and that the two powers count upon Greece, who already has given them the most sincere proofs of friendship, not to oppose measures taken in the interests of Serbia, of whom she also is the ally."

GRANT LANDS ARE TOPIC. COTTAGE GROVE Commercial Club Is Taking Up Matter. COTTAGE GROVE, Or., Oct. 6.—(Special.)—That Congress can make whatever arrangements it may see fit for the disposal of the Oregon and California Railroad grant lands, and that it is necessary for the people of the Willamette Valley to get busy to keep these lands from being converted into forest reserves, is the statement made by John A. Coffey and George Stevens, of Portland, who were in the city Monday on a trip through the valley for the purpose of stirring up enthusiasm among residents.

WORLD'S RESPECT WANTED

(Continued From First Page.) adequately prepared; that the preparation for defense is not merely a technical matter, it is a matter that the Army and Navy alone can take care of, but a matter in which we must have the co-operation of the best brains and knowledge of the country outside the official service of the Government as well as inside.

On the other hand, however, there are three classes of Greeks who oppose the country to the side of the allies. The first consists of the King, the general staff and the court. King Constantine is undeniably popular, though not in the way his first minister is popular. Venizelos and the King (and that is the usual order in which the two are mentioned) are both essential to Greece," said one of the most thoughtful men in Athens in the correspondence.

there is little doubt that the King's mind is made up. The Greeks grant him perfect honesty in his sentiments. They do not accuse him of being pro-German; they say simply that their sovereign, being deeply pro-Greek and not believing in the success of the allies, is willing to go to almost any lengths to prevent military operations from backing what he considers the wrong horse.

The second group in opposition is the anti-Venizelos party. Politically they are known as Conservatives, largely because Venizelos is a Liberal. At the last election, although they controlled all the machinery of the government, Venizelos obtained a total of 182 votes in the chamber, with 82 against him and 31 doubtful.

TAX ON SUGAR MAY REMAIN

(Continued From First Page.) extraordinary conditions now prevailing throughout the world, "It is impossible to state at the mo-

ment what, if any, additional revenue measures may be necessary, as the estimates of the various departments have not been received. It is clear, however, that the two sources of revenue I have just mentioned should be preserved, no matter what the department estimates may be. Of course, it rests with the Congress to say what shall be done. I am merely stating what my recommendations in these particulars will be.

The emergency tax in the last fiscal year brought in more than \$2,000,000 during the eight months it was in effect, and is counted on to bring in during the six months it would run under present conditions this fiscal year about \$4,000,000. The sugar duty is expected to bring in at least \$5,000,000 more.
