MRS. DUNWAY WEAKER

Physicians Practically Abandon Hope for Recovery.

Gangrene in Limbs Still Spreading, but Second Operation Is Not Deemed Best.

But little hope was held out last night for the ultimate recovery of Mrs. Abigail Scott Dunway by physicians and others in attendance upon her at the Good Samaritan Hospital. She was reported weaker yesterday and the gangrene in her limbs was still spreading. She slept a great deal of the time and at times relaxed almost into a stupor from weakness. In spite of that fact she was said to be bright and cheerful when awake.

The physicians yesterday decided when sentence will be imposed. The operation in the belief that Mrs. Dunway would be unable to undergo it. They say also that an operation might not furnish relief against the disease.

Dr. J. C. Zan, who is in charge of the case, said last night that there was a possibility that the spread of the infection would be checked, but that it was remote.

No Stenographers Employed

Although hundreds of stenographers are trained by us, we employ none. Instead, every advanced student is brought into our business office and given our entire dictation and office routine.

Ask your stenographic friend what this means to you. Every stenographer passes through a nervous "letter-head destroying" period. To an employer this is not only unforgivable, but expensive. Our graduates overcome this in OUR office and go out self-confident, quietly doing the work demanded of them.

A SPOONFUL OF
SALTS RELIEVES
ACHING KIDNEYS

We Eat Too Much Meat, Which Clogs Kidneys, Says Noted Authority.

If Back Hurts or Bladder Bothers, Stop All Meat for a While.

When you wake up with headache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter from the blood and they become sort of paralyzed and loggy.

When your kidneys get sluggish and clog you must relieve them, like you do your bowels; removing all the urinous waste, else you have headache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water acids and makes you obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with little soda and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.—Adv.
