# OREGON EXHIBITS TAKE ON NEW LIFE

Influx of Settlers Expected as Direct Result of Showing at Exposition.

BEHOLDERS ARE AMAZED

California Itself Fertile Field for Propaganda: Great Variety of Acceptable Products Are Now Being Received.

BY ANNE SHANNON MONROE. OREGON EXPOSITION BUILDING, San Francisco, Oct. 7.—These are days of brightening up and transformations at the Oregon building and the Oregon exhibits in the palaces. The appeals for fruits, vegetables, grains and grasses have had their effect. Most of the new material is of fine quality, and the moral effect on the representatives here is such that they are full of pride and enthusiasm and are putting in their best licks in the effort to land some of the inquiring Easterners in Oregon. One of the quiet, but persist-ent, workers among these said to me the other day:

"I really believe we are going to do rive much present benefit from our ef-forts here. I am confident that I sent three families to Oregon last weekthree families that fully expected to land in California. They were amazed at our showing of products and equally amazed at the figures on land I was able to give them.

Californians Good Prospetes.

and I feel sure that even reasonable effort on the part of real estate men in those communities will place them in Oregon. I believe I have landed others, and among the visitors at this time there are many excellent prospects. Kansas, Nebraska and Iowa farmers and some Texans are here in increasing numbers, but I believe our best prospects are among the Californians themselves—Middle West farmers who have come to this state and failed to find what they were looking for. They are going to go somewhere, and Oregon is making a great his with them."

I hear which the same story from

I hear much the same story from other workers here, and there is gen-eral confidence that the next year or two will find many of the present vis-itors at the fair looking for specific

locations in Oregon.

Wool Makes Fine Showing.

A most attractive display just now spened for inspection is a case filled with Umatilia wool in all stages. Indiwith Umatilia woo! in all stages. Individual fleeces weigh from 5% to fl nounds, these being shown by L. McDonald, J. E. Smith Livestock Company, C. M. Mathews, Kenneth J. Warner, E. Pedra, O. Jones, Donald Ross, the Umatilia Company and the Pendleton Woolen Mills. L. McDonald shows an eight-pound graded fleece that brought the highest price paid for wool

In Oregon.

An exhibit is coming from Douglas County, which has made no showing up to this time. Secretary Josephson, of the Roseburg Commercial Club, writes that a two-ton showing of grains, grasses and fruits will arrive here within a day or two.

week because of the excellent weather and the fright caused when gales blew many apples from the trees, the movement of fruit to market has been far slower than in ordinary years. Indications point to heavy storage of apples at local terminals. Up to yesterday the Apple Growers' Association had shipped but 59 carloads of apples, whereas in former years the fruit has moved out almost as rapidly as received at the warehouses.

The depression caused by offers of independents is being overcome.

Two Hundred Attend Tenth Oregon District Session at Junction City.

JUNCTION CITY, Or., Oct. 10.—(Special.)—The Rebekah lodges of the 10th Oregon district heid their 10th annual convention Saturday in the Oddfellows Hall with 290 in attendance. The afternoon was taken up with the work in the various chapters, in the evening a banquet was served. A literary and social programme was given.

lain favored suffrage in Oregon and had taken charge of the suffrage resolution in the Senate and was one of the most outspoken advocates of a suffrage amendment to the Federal Constitution. In that same campaign constitution. In that same campaign the Congressional Union opposed accres of other Democrats seeking re-elec-tion, on the ground that the Democrat-ic majority in Congress had refused to pass the suffrage resolution.

What will be the attitude of the Congressional Union toward the Presi-dent or toward any other public man

congressional Union toward the President or toward any other public man in December and what that attitude will be in the campaign of 1916, no man can predict. The Union has plunged ahead without a consistent policy, and with only the definite end of securing suffrage through a constitutional amendment rather than through individual action of the states.

This same Congressional Union, less than a month ago, announced its purpose to fight Senator Borah of Idaho in his own state, and probably in the country at large, although his position on the suffrage question is identical with that now assumed by the President.

Union's Policy Vague.

The Congressional Union in 1914 carried on an organized fight in Oregon against Senator Chamberlain, and worked to accomplish his defeat, in favored suffrage in Oregon and had taken charge of the suffrage resolution in the Senate and was one of lution in the Senate and was one of lution in the Senate and was one of lutions of the suffrage resolution in the Senate and was one of lution services were held in honor of thurch Services were held in honor of the National Review of the National Revision of the National Wash. The German guns included 41 field pieces, 20 large-bore mortars, two sixinch cannon, five large bomb-throwers, 20 small cannon and 30 trench guns.

OREGONIAN NEWS BUREAU, Washington, Oct. 10.—Elation was voiced by officials of the Congressional Union when President Wilson declared his officials.

The German guns included 41 field pieces, 20 large-bore mortars, two sixinch cannon, five large bomb-throwers, 20 small cannon and 30 trench guns. Soldiers wounded in the battle were brought from the hospitals and had the first opportunity to see the cannon they ment, including two small locomotives, eight air dump cars, to Rinearson, on ompany mill at Shippington a mill at Shippington at mill at Shippington a mill at Shi the North Bank Road. At this point a tunnel is to be opened to a deep cut, and about 60 men will be given employment for several months.

These railroad contractors have wellequipped shops here for repairing their equipment, and as each contract is com-pleted the equipment is sent here to be overhauled and stored until needed

## Size

The Butterick establishment includes one of the largest printing plants in the world. Also the largest and most thoroughly complete fashion organization in the world.

In addition, Butterick has the largest pattern business in the world. And is the only publishing house with a truly international business.

The Designer, The Delineator, and The Woman's Magazine are separate, powerful members of this unique family.

Mere size is not a conclusive argument in favor of anything. But when an institution has reached a position of leadership by a steady growth over many years and includes in this success the confidence of millions of people, size means something.
