PORTLAND, WEDNESDAY, OCT. 13, 1915.

#### PUT AMERICA FIRST.

President Wilson's speech to the Daughters of the American Revolution is a summons to every true American to declare himself for America first. He calls upon all true Americans, wherever born, to be active partisans of the United States in any controversy between this and any other country and to confine their neutrality to quarrels between other nations. In any quarrel in which this country is concerned, any American who professes neutrality is a traitor in only less degree than is he who espouses the alien cause. In such a case there is no room for neutral Americans; he who is not with us is against us and must so be counted.

President's summons is ad-The dressed more particularly to citizens of foreign birth, for these experience in their hearts the conflict between love for a native land which is engaged in death-strife and love for and duty to an adopted country which

more nearly realizes their ideals of liberty than any other. They came to enjoy liberty and have found it. They came to enjoy material prosperity intellectual and spiritual light; if they have not found these, it is because they have not sought diligently enough. They came to escape, if not tyranny, at least the trammels of privilege, casts and tradition. They came so to leave an atmosphere poisoned by old-world, racial rivalries, which have for born in freedom. To the latter the old-world experiences of their ances-tors are a tradition and a matter of sions they form cannot compare in vividness with those of the foreignborn

But the horrible fascination of the war has fastened the attention of the native-born, together with that of all others, upon the blessings of being Americans. It has reawakened that loyalty to American principles of lib-erty which foreign travel has cooled erty which foreign travel has cooled would be collected in 1916, or the city in some. It has also aroused them to in some. It has also aroused then to the duty of unifying the Nation in sentiment by knocking the hyphen not merely out of the names but the duty of the names but the set aroused of the importance of his set aroused of the importance of his set aroused of the importance of his hearts of their foreign-born fellow-They recognize that this citizens. unity of sentiment is essential to our existence as a Nation and that it can be achieved only by inspiring the for-eign-born with the true spirit of Americanism.

The need of this clear alignment of

tion our right as a neutral Nation to sell goods to a belligerent, to extend credit to the buyer or to lend money to him. The inability of an opposing belligerent to buy that which we are belligerent to buy that which we are belligerent to buy that which we are such a man. Looking at the transacand policies. tion from a purely American point of view he would regard the trade as American trade, the money lent as American money and the nations with CHANCE FOR SOLID INVESTMENTS: Speculation in war stocks has been which we deal as the customers of practically gambling, for it has de-American merchants and banks. The pended for profit on the folly of men confusion of thought which causes who buy on the basis of the temporary prosperity of munition manufacturtions as unneutral is due to the fact ers. Dividends derived from that that they are considering the other source are no true index to in-nations in question as enemies of their trinsic value, for the war will native country, not as customers of no sconer end than business and the American people. They contemplate the effect of the transaction on mal level. incident is refreshing. The disciples of blasphemy and unhallowed speech have been multiplying almost checked under the complications and annoyances of modern life. Originally profane invective must have been in-spired by boiling passions or incited ruling, for he said in his decision: by powerful provocation. No doubt the first curses were applied in all sin-cerity, although they implied a spirit of venom which rendered the implous practice no more commendable. Th

after they became matters of habit and crept into the speech of peoples. at heart appears in the confusion of ideas as to what constitutes neutrality toward the nations at war. No man who places America first should ques-tion our right as a neutral Ntine. We are inclined to think it will It is true that this is a decision by be. But at the present time it is the latest legal pronouncement on the is thing fearful to behold. The Profanity has become so common-

tempted if the new tax levy is based his audience in an approximation on what a large proportion of the oath which should have won him a on what a be extravagant ideas shower of decadent fruit? Hero and shower of decadent fruit? Hero and villain alike may swoar with impunity. There are some depraved parents who carry profanity into their homes and use it in the presence of their children. Some perverse individuals are so much the victims of this unholy practice that every sentence is punctuated by a profane flourish. Doubtless it is a mere matter of habit with the average user of impious expletives. Possibly scious assimilation has much to do with the swearing habits of many. Fut the practice reveals a certain coarse-ness of fiber and lack of refinement. The Holy Name Society is undertaking virtuous work when it sets out to strip the unsightly weeds of profanity from human speech. The stock exchange renders valuable service as an open market for securities of the country's great en-FRUITS OF CARELESS SHOPPING. DANGERS OF THE DINING-ROOM.

Overeating and overwork are two of the principal recruiting agencies for our armles of drug fiends if we may believe Dr. William K. McLaughlin, of Chicago. In an address before the Tri-State Medical Society the other day Dr. McLaughlin ranged those two vices side by side with use of alcoho and tobacco. Recourse to drugs is not so much a matter of degeneracy inherent viciousness as it is of nerve weakness, the doctor tells us, adding that the average victim of drugs does not use them because he finds any enjoyment in the practice, but because of the wretchedness he seeks to escape.

Insofar as overeating produces toxic condition and poisons the system. Its dangers are apparent. Of the dangers of overwork we are not so certain. It is only when work is done improperly and is attended by worry that it becomes a menace to health. Long followed by marketing of new security hours of sustained effort may produce ill effects if the worker is interested in his labors and maintains a cheer-ful state of mind. Worry mixed with work creates a combination which quickly disintegrates the energies and impairs the faculties, creating an in-sidious toxin which blasts the nervances to use of opiates is not a long reached a natural level, but many turn the food to the grocer and accept taken up, who can tell where the end will be? step and once the use of oplates is acres have come down into the canal, an exchange.
