PORTLAND WOMAN IN EARTHQUAKE.—Mrs. Anna Baker, of this city, now in Berkeley, Cal., during the recent earthquake and writes: 'I had retired for the night when it seemed to me that the street was rocking and I was sure the house would fall in ruins. There was a strange noise, with a rumbling and shaking of things. I was tossed to and fro in my bed. I did not know what was happening until the lady I was with came into my room, and told me there was an earthquake. It was my first experience in an earthquake and I found I was shaking as badly as the house. There were two more shocks later in the night, but not so severe. Family Physician's Services Needed. It is stated that more than 6500 blind persons in the United States owe their misfortune to lack of attention at birth. The competent family physician—the medical practitioner—can do more, during the first few hours following a child's birth, to conserve its eye welfare than can the eye specialist in all the years after that. The physician's mission in this regard is an important and sacred one. Also in serious diseases of the eye, in both child and adult, his services are indispensable. In remedying defects of vision, however, the optometrist is the proper authority to consult. Any particular one of them can be remedied, and the loss of the power to accommodate the eye to the reading or working distance, can only be remedied by properly fitted glasses. We are qualified to examine your eyes by the most scientific methods. We then supply the glasses which will positively correct your defects of vision. Let us care for your eye needs. We will make you our friend. SATISFACTION GUARANTEED. WHEELER OPTICAL CO. CONSULTATION—NO CHARGE. Fifth Floor, Oregonian Bldg.

Before you invest in any heater, investigate this system. You may save years of regret by asking a few questions and getting our estimates. If you are interested in any kind of a heater, we invite a rigid inspection of the Fox Furnace. The Meal and the Menu. Dear Friends: Guests of this hotel dine here, or elsewhere, just as they like. We are, as you may already know, always deaf, dumb and blind when it comes to the question of influencing your tastes. Just a word now, however, and at intervals later, about our dining-rooms and dining service. Speaking in general about grilles the world over, the menu is a promise—the meal is too often a regret. The menu teems with dainties, garnished with the language of culinary romance. And the trouble is that intelligent leadership is lacking in the kitchen. In the Hotel Multnomah kitchens there is intelligence; there is culinary erudition; there is leadership. And Hotel Multnomah dishes, in consequence, fulfill all the succulent hopes which a Hotel Multnomah menu inspires. Ask me about the extraordinary special proposition which we are offering to prospective resident guests.
