### CONFIDENCE VOTED IN FRENCH CABINET

Premier Tells Deputies Details of New Expedition Cannot Be Revealed.

ALLIES REQUIRE SECRECY

Government Believes Results of Landing in Greece Will Be Successful-Foreign Minister Delcasse Resigns.

PARIS, Oct. 13. - The Chamber of Deputies today adopted a vote of confidence in the government, 372 to 9, after an exciting scene, Premier Viviani demanded the vote, and in a speech told the Deputies that France's obligations to the allies would prevent revelation of many of the government's plans. Paris had the added sensation today

of learning of the resignation from the Cabinet of Theophile Delcasse, the Foreign Minister. The resignation was accepted and Premier viviani will assume the portfolio, in addition to his own.
One of the main reasons assigned for

his retirement is that he is suffering greatly from fatigue, cuimmating in a recent sick spell amounting to nervous exhaustion, as a result of directing

France's foreign policy.

Fremier Viviant virtually has been directing the foreign affairs the last five days since it was announced that M. Delcasse was indisposed.

Appeal for Harmony Made.

Appeal for Harmony Made.

At the outset of the debate today Doputy Jules Delahaye made an appeal for harmony.

"The republic has two perils," he said. "They are the Germans and our own political quarrels. For 45 years you have been seeking a man to govern you."

you have been seeking a man to govern you."

"Whom will you have, an Orleans or a Coburg?" a voice called out.

M. Delahaye pleaded with the members to lay aside their differences in order to bring about a final victory.

The members resumed an attentive silence when Premier Viviani arose,

The Premier began by saying that he did not wish to see the debate degenerate into "political pugilism," and he declared that this was no longer the time for discourse, but for brief, clear explanations. He said that while the government wished to act with preliminary committees, it was acting also with the allies of France.

Government's Lips Sealed.

"I understand why the Chamber proposes questions," said he, "but neither here nor anywhere else where the interests of France are not alone in question, is it possible to reply to every interrogation, no uniter how legitimate. The government has no longer the right nor the possibility of explaining army and navy plans of an expedition undertaken in common with our allies. It appeared to us impossible to let Serbia be assasinated either from in front or from behind."

The Premier, replying to Professor Painteve, said:

"Faults have been committed, but the Government has not only to take into account the suggestions of commissions; it must also arrive at an understanding with its allies. If we were unable to act more quickly it was because our action was subordinated to other duties.

"Yes," continued the Premier, "intervention was necessary, but in accordance with the general staff and not forgetting the casential duty, without weakening the French front. Come what may, it is on the French front that the decision will rest. We knew we were not weakening our front when we went to Saloniki.

Landing in Greece Continues.
"The landing was made and

After the Fremier had concluded, the attacks on the ministry were resumed by Deputy Charles Chaumet. by Deputy Charles Chaumet.

M. Chaumet said that if the Saloniki expedition were in the same hands as that to the Gallipoli Peninsula the Chamber had reason to distrust its results. Professor Patnieve and M. Renaudel, a Socialist member, expressed themselves as not satisfied with the government's utterances, which they regarded as inadequate to enable the members to bear their respectively. enable the members to bear their re-

sponsibilities.

The resolution of confidence was then proposed in the following form:

"The Chamber, confident in the government and approving its declarations, passes to further business."

### ALIENS' RIGHTS ASSERTED

Exclusion When Bound to Labor Congested City Tested by Appeal.

WASHINGTON, Oct. 13.—The Supreme Court was asked today to pass on the asserted power of Federal immigration officials to exclude from the country immigrants bound to cities in which there are many unemployed. The suit was brought by two Russian Kabordinians, to whom admission was denied because immigration officials at New York found they were destined for Fortland, Or., where reports of industrial conditions at that time indicated it might be impossible for them to obtain employment.
