Jury Finds Girl Died as Result of Illegal Operation and From Shock.

PHYSICIAN GIVES BAIL

Dr. A. A. Ausplund Blamed for Death of Anna Anderson, Domestic; Detectives Testify to Finding Evidence in Offices.

Responsibility for the death of Miss Anna Anderson was placed upon Dr. A. A. Ausplund by a coroner's jury Saturday night following the inquest.

The verdict was rendered and was taken to the city jail by Detective Royle. He was released on \$2500 bail.

The jury, which was reached after an hour's deliberation, was that "Anna Anderson came to her death on the 15th day of October in the office of Dr. A. A. Ausplund, east of Lafayette building, as the result of an abortion and as the result of a shock during an examination by Dr. Ausplund."

Nine witnesses were called by Coroner Dammasch. Detective Royle, the first witness, testified that he and Detective Maloney were going east on Washington street about 6 o'clock Friday afternoon and when they reached the Lafayette building their attention was called to the ambulance standing in front of the entrance.

Questioning Patrolman Stark, Detective Royle testified, he was told that a woman was being removed from the office of Dr. Ausplund, and when he suddenly died, Detective Royle said he immediately went to the office of Dr. Ausplund and there found Deputy Coroner Smith and Dr. Ausplund, Royle testified that Dr. Ausplund started for the door, saying that he was going to the morgue, where the autopsy was to be held.

Dr. Ausplund was held, however, by Detective Royle until a thorough examination of the office was made by the detectives. Royle testified that he found instruments, used in such cases, having the appearance of recent use. A bottle of chloroform was also found, and a piece of absorbent cotton, which had been used to wipe the face of the patient, was also found.

When she called on Friday, however, Dr. Ausplund testified that she insisted and he was beginning the examination, he testified, when she seemed to go into some sort of a fit and began to sink rapidly. He went to her and gave her whisky, and on his return called Dr. Alice Griff, who has offices in the same building, to aid him, as a patient was dying.

Other Physicians Testify. Dr. Griff and he went in, and in five or ten minutes, before Dr. Crocker, who had also been called, could get there, the girl was dead. Dr. Ausplund testified that he did not have a great amount of practice and once in a while sold real estate.

Dr. E. H. East testified that Miss Anderson had called upon him for an examination and that he found her in delicate condition but he refused to do anything.

Dr. H. Strong and Dr. W. B. Hare, who performed the autopsy, testified that death was, in their belief, the result of a hemorrhage.

Detective Maloney, Miss Birdie Welch, Dr. Ausplund's office girl, and Louie Seagren, a friend of Miss Anderson, also were called to the stand.

Miss Anderson was employed as a domestic in the home of Mr. and Mrs. Fred H. Green, 1504 Hawthorne avenue. She was identified yesterday morning after the account of her death had appeared in The Oregonian. Mr. Green, who lives at 1504 Hawthorne avenue, suspected that the girl was Miss Anderson, as she had not been at the Green home that night.

Mr. Green said yesterday that the girl had been employed at his home for about a year and a half. She had been in the United States about five years, coming here from Sweden.

The funeral of Miss Anderson will be held at 3 o'clock this afternoon from the undertaking parlors of Erickson & Son, Twelfth and Morrison streets. Services are in charge of Rev. J. Richard Olson. Interment will be Monday in the Mount Scott cemetery.

PIEPA OF SWEDISH MINISTER DENIED

Utah Pardon Board Refuses to Commute Sentence of Convicted Murderer.

MAN TO BE RESENTENCED

Appeal of Diplomat Made in Name of His Government for Sake of Humanity and Comity Between Friendly Nations.

SALT LAKE CITY, Oct. 17.—The State Board of Pardon, after hearing Saturday, adopted a resolution by unanimous vote last night denying commutation of sentence of Joseph Hillstrom, convicted of the murder of J. G. Morrison and Morrison's wife, in Salt Lake January 10, 1914, and terminating the reprieve granted Hillstrom at the request of President Wilson September 15.

Hillstrom was sentenced to be executed October 1 and was reprieved to give W. P. A. Ekengren, Swedish Minister to the United States, an opportunity to present new facts or reasons why sentence should be commuted. Mr. Ekengren was not represented before the board, but a telegram was sent to Governor Sperry. Hillstrom refused to appear and his attorney said he had no additional evidence or reasons to present.

Prisoner to Be Resentenced. Hillstrom will be taken before the District Court next week to be resentenced to death.

The Swedish Minister said in his telegram to the Governor Saturday that he appealed on behalf of himself and his government for the commutation of his prisoner's sentence for other reasons, at least for the sake of humanity and comity usually practiced between friendly nations.

Members of the Board of Pardon said they had different views on the matter suggested by the multitude of letters received here in connection with the case and had been unable to develop anything new or previously known in connection with it.

The additional developments include, it is said, the statement that Hillstrom had charges of dynamite from San Francisco to Southern California points, where he participated in several disorders, including a plot to dynamite the Spreckels and the San Diego, and was arrested in connection with a streetcar hold-up at San Pedro.

Prisoner Refuses Offer. Hillstrom has always maintained that the murder was inflicted in the "heat of passion" over a woman. It was learned today that the board of pardons proposed to Hillstrom some time ago that he give some facts regarding this alleged encounter, but previously known to the board in strict confidence and without publicity, but Hillstrom declined the proposition.

The day of Hillstrom's execution will be fixed by Judge Ritchie, who presided at the trial and who is expected to set an early date.

Captain Bredins, who was taken aboard the Elir for the alleged purpose of plotting the vessel, the message adds, returns out not to possess a pilot license and hence there probably will be criminal proceedings. He has been landed as Helsingborg, Sweden, by the German warship.

CONCERT IS ENJOYABLE

CHAMBER MUSICALE BY TRIO IS PLEASANT SUCCESS.

Atmosphere of Old-Time Salon is Created by Mrs. Pipes, Ferdinand Konrad and J. R. Hutchison.

The first of the series of chamber music concerts of an old-time salon was created by the association of the art treasures in the building, the fine arrangement of the room furniture, the lowered lights during the rendition of the music and the friendly but quietly enthusiastic appreciation of the audience.

The Pipes-Hutchison-Konrad trio played skillfully and with fine musical agreement last season. They play this season with more ensemble finish and more subtle intonation.

Last night's trios were two: "Trio No. 5, Op. 10 (Chopin)" and "Trio No. 1, Opus 5" (Hermann Wolf-Ferrari). The latter is a decidedly effective ensemble presentation. The Gouvy trio is a gem in texture and quietly elegant.

The third movement, in "Minuetto," has solemn moments, awakened to life and high in the ascending movement of the violin, with "Pizzicato" and string work. In the Wolf-Ferrari, the atmosphere is warm Italian, credible in every particular to the distinguished compositions of the past.

This "Trio" has wealth of tonal beauty, with a sudden, unexpected conclusion. Mrs. Pipes, Mr. Hutchison and Mr. Konrad were heartily applauded at the conclusion of each musical movement and won several ovations. The completion of the concert was by the "Trio No. 1, Opus 5" (Hermann Wolf-Ferrari).

WOODARD CLARKE CO. DRUGS. True Coffee Economy. EW industries endure the acid test of time; assuredly none can long survive that does not exist to serve the needs of mankind.

WOODARD CLARKE CO. DRUGS. Coffee Week October 17-23. The greatest menace to the coffee industry and the most serious handicap to its progress has been, and still is, the exploitation of inferior grades.

WOODARD CLARKE CO. DRUGS. Therefore, I feel like saluting every time I hear and see the word "quality" used and maintained in the exploitation of coffee.

WOODARD CLARKE CO. DRUGS. There are just two things for the dealer and the consumer to remember in this connection: First, that the highest price you pay is the lowest price in the long run, providing you get your coffee fresh roasted—the percentage of strength and flavor being comparatively much higher in the "quality" or so called high-priced kinds; and

WOODARD CLARKE CO. DRUGS. Second, it is a fixed and universally recognized commercial law that one gets no more in this world than one pays for; that is, if you pay 40 cents a pound for coffee you get 40 cents' worth of coffee, and if you pay 35 cents, 30 cents or 25 cents, you get value exactly in proportion thereto, minus the added inclination toward inferiority with each cent you go below the average standard of 40 cents for the quality kind.

WOODARD CLARKE CO. DRUGS. Moral—It is true economy to buy the best in coffee; and see that it is fresh roasted.
