

MEXICO WILL BE RECOGNIZED TODAY

Pan-American Conferees Are Careful Not to Call Carranza "President."

VILLA'S MEN DROP ARMS

State Department Has Report of Improved Conditions in Mexico Already—De Facto Government Only Recognized.

WASHINGTON, Oct. 18.—Diplomatic relations between the United States and Mexico will be formally renewed tomorrow after a lapse of two years and eight months by the formal recognition of Venustiano Carranza as the chief executive of the de facto government of Mexico.

Secretary Lansing and the Ambassadors from Brazil, Chile and Argentina, and the Ministers from Bolivia, Uruguay and Guatemala, constituting the Pan-American conference on Mexican affairs, met today and decided upon the form in which their respective governments would present recognition, and fixed tomorrow as the time for the act.

Formal Announcement Made. Afterward Secretary Lansing made this announcement: "The conferees, under instruction from their respective governments, will recognize tomorrow the de facto government of Mexico of which General Carranza is the chief executive."

Each government will address to General Carranza a letter of formal recognition to be delivered to Eliseo Arredondo, personal representative of General Carranza here. Mr. Arredondo, who is a first cousin of Mr. Carranza, will leave here Wednesday or Thursday to convey in person the letters of recognition from the several governments.

Recognition Given Strongest. With the decision on the form of recognition, the Pan-American conference on Mexican affairs adjourned. Five meetings in all have been held, the first two being devoted to framing an appeal to the contending Mexican factions to reach an agreement on their internal affairs. In view of the failure of the important elements to agree, the conference decided that recognition should be accorded to the strongest faction.

Since recognition was agreed on a week ago, official reports show that a material change for the better has taken place in Mexico; that railroads and telegraph lines are being rapidly repaired and that conditions are fast becoming normal in many places. Thousands of troops hitherto under General Villa have taken advantage of the offer of amnesty and have returned to their homes. Secretary Lansing and the Pan-American diplomats feel that a fair start has been made toward restoration of peace and reconstruction of the country, which depends now upon the administrative ability of Carranza and his advisers.

Many Promises Made. Assurances have been given by Carranza that foreigners will be protected in their lives and property, that claims will be paid, that amnesty will be given to political enemies who swear allegiance to the new government, and that there will be no persecutions of the clergy. The American Government is hopeful that these promises will be fulfilled.

The decision to refer to General Carranza as "the chief executive of the de facto government of Mexico" was reached after some discussion as to the titles. Although a provisional president is a general title applied to the chief executive of a republic, fear was expressed in some quarters that since it had not been used by Carranza himself, its use by foreign governments might create the impression in Mexico that he was being chosen to a new office by foreign governments.

The words "chief executive" were used also to avoid any impression that constitutional government was being recognized, for while there is no difference in the benefits of recognition to a de facto or de jure government, the constitutionality of the latter will not be proclaimed until a constitutional assembly is called some weeks hence. This assembly will formally designate Carranza as "provisional president," or president ad interim, and arrange for the constitutional elections of president and vice-president.

Embargo on Arms to Follow. Tomorrow's action will mean the immediate proclamation of an embargo on arms in connection with the joint resolution passed by Congress in March, 1912. All consular representatives of the Carranza government will be recognized in their offices as soon as they present credentials and apply for exequaturs. American Consuls in Mexico, who have not possessed exequaturs will apply for them now, and it is understood incidentally that the American Consular Service in Mexico generally will be reorganized.

European governments will be notified by Secretary Lansing of the Washington Government's action in extending recognition, and, although no suggestion will be made to them, it is understood most of them will follow the lead of the United States.

An American ambassador to Mexico has not yet been selected, but it is understood one of the diplomatic representatives of the United States already in one of the Latin-American countries probably will be chosen.

MR. DALY DOES FLIPFLOP

(Continued From First Page.) ests as to certain ownerships and certain rights," said Mr. Daly. "Can't we combine the two jobs into one?" suggested Mr. Bismarck. Commissioner Daly insisted that both men are needed, but their final allowance was held in question by the Council.

"And here comes the most important item of all," said Mayor Albee, as he glanced down the list. "I have found the salary of a cook out from \$55 to \$60 a month."

"Privates' Found Lacking. Next in order was a list of general foremen. "Where are the privates?" asked Mr. Baker. "The German army hasn't anything on Daly from the looks of things."

At this point the tangle of affairs regarding salaries was encountered. It had looked as though up to this time that many men were being cut out. But they were all found in a list of new places which followed. It was at this point that the Council balked and sent the budget back for revision.

To the budget of expenditures for supplies Mr. Daly asked that no material cuts be made. His advice was taken. The total cut was \$120. Commissioner Baker made a motion to cut the proposed item of \$100 for

APPLE FEASTING IS FASHION FOR TODAY

Luscious Oregon Fruit to Reign Supreme on Hotel Menu and Other Places.

LOYALISTS TO MUNCH ONE

No Limitation Put on Number to Be Eaten, for Ten Million Bushels Are Available in Oregon and Washington.

This is Apple day, and nobody who eats at the best restaurants and hotels or on the dining cars of steamships be-

tween here and the south can get away from it. Apples are to be featured in every palatable form from old-fashioned "apple sass" to some of the dainty inventions of the modern day that have evolved the cookery of this fruit to such perfection that it can be stretched out over a whole bill of fare and still appear in new forms.

Loyal citizens of Oregon will be known today by appearing with an apple in their hand, and inasmuch as health specialists have long held the apple to be one of the best food mediums for developing health and brains, the general average of human health and intelligence should strike a high wave here at this time.

No one need confine himself to a single apple to show his loyalty, either. The 1915 crop is estimated at 5,463,000 bushels, so everyone can go as far as he likes. If the Oregon crop doesn't hold out, the apple country in Washington, which is tributary to Portland, has a crop estimated at more than 7,000,000 bushels.

The Nortex Hotel is putting out today a special dinner in which the apple is featured with marvelous ingenuity. At the Oregon Hotel they will offer monogrammed apples to all women who visit the grill. Each apple bears the name of the hotel in "sun tattoo" on its red cheek. The process for marking the apples was originated in Hood River, and the apples are from Chet Whitmore's apple ranch. The Multnomah, Portland, and other leading hotels are also offering apple menus.

At the Panama-Pacific Exposition the apple-growers of Oregon will distribute thousands of fine apples to exposition visitors today, and reams of literature on the Oregon apple will be given out. The railroads are also featuring the apple strongly.

One of the interesting and attractive contributions to the Apple day celebration in Portland will be the demonstration by the Northern Pacific Railway. Through the enterprise of Hazen J. Titus, dining-car superintendent of the Northern Pacific, a mammoth float, the central figure of which is a monster apple, has been prepared for exhibition on the Portland streets. Several hundred boxes of choice Oregon apples will be distributed by the white-uniformed colored boys as the float moves along.

Most of these apples have the familiar Northern Pacific monogram embossed on their sides. The Northern Pacific also will serve apples in various tempting forms on all of its dining-cars today. More than 10,000 copies of a 16-page booklet, advertising housewives on the manner of preparing apples, will be distributed by the Northern Pacific.

UNION SPY GETS PENSION

Government Rewards Rickreall Man With Service Recorded Only in Part.

SALEM, Or., Oct. 18.—(Special.)—Through the efforts of W. C. Hawley,

representative in Congress from this district, Harrison J. Rhodes, of Rickreall, aged 81, today obtained a pension from the Government of \$21 a month. Difficulty was experienced in obtaining the pension because the War Department records bore no evidence of Mr. Rhodes having served in the Union Army during the Civil War, except for a two months' period. This time was insufficient to warrant the granting of the pension.

Mr. Rhodes served in the Fourth Iowa Cavalry, but at the end of two months was secretly transferred to the espionage service, serving in this department for three years. He traveled through the South posing as a peddler and preacher, and by visiting Confederate army camps obtained valuable information for the use of the Union army.

During the Administration of President Dole, of Hawaii, Mr. Rhodes was chief of the Hawaiian secret service.

GASTON FETES TEACHERS

Informal Reception Follows Meeting of Great Promise for School.

GASTON, Or., Oct. 18.—(Special.)—The reception to the new teachers, Ralph Winger, Miss Hatch and Miss Elliott, was given here Saturday night under the auspices of the Parent-Teacher circle. In its purpose of bringing the school and home into closer relationship, the gathering gave promise of a fine spirit of co-operation and interest. After a short musical program the address of welcome was given by the president of the Gaston Community Club, W. K. Newell.

An informal reception followed and light refreshments were served. The officers of the Parent-Teacher circle are: President, Mrs. Thomas Carmichael; vice-president, Mrs. Edward Bates; secretary, Mrs. James Baker, and treasurer, Ralph Winger.

WAPATO FARM PURCHASED

Albert M. Porter Buys 98-Acre Stock Ranch for \$10,000.

GASTON, Or., Oct. 18.—(Special.)—Mr. and Mrs. Albert Mark Porter, of this place, have bought the Edward Stevenson farm at Wapato, which was originally a part of the old Flory estate, the late Mrs. Stevenson being a Miss Flory before her marriage. Mr. Stevenson and his daughters have moved to Portland.

In the sale were included 88 acres of farm land, the house, barn and all the livestock and farm implements. The

"As to Coffee"

Editorial Extracts from Sunday's Oregonian

"It is fit that we have coffee week along with our various other observances. This innovation calls attention to the circumstance that coffee has laid hold of the public taste until it may rightfully be set down as the National beverage. "Coffee, after a varied career of many centuries' duration, within which period it has been tried on many charges, now stands acquitted of serious accusations. It is listed as an auxiliary food substance with a beneficial stimulation of the nervous and vascular system which leads to buoyance and exhilaration without the later depression and collapse that are produced by alcoholic beverages. "As a means of relieving the stress of fatigue most of us have come to know its value. It quickens the American pulse each morning for the day's work. It spurs the lagging imagination of the brain worker. "According to some physiologists, it accelerates the flow of gastric juices, and thus aids digestive processes. No doubt it has played no small role in promoting our activities in every field of endeavor, and it would be interesting to know just how far it has contributed to our greatness."

Coffee Week October 17 to 23

The great trouble has been, not with coffee itself, but with methods of handling it. "Coffee Week" will be justified if it succeeds in correcting the things that make possible this improper handling.

First, the people must fully realize the necessity of buying their coffee fresh roasted and in small quantities, so it can be used before getting stale, if highest efficiency in the cup is desired, and

Second, the higher the price you pay (up to the standard of 40 cents a pound) the greater economy you observe, because strength, aroma and flavor decrease, and caffeine, tannin and general inferiority multiply in increasing proportions with each cent you pay under the generally accepted standard of 40 cents for a perfect coffee.

Moral: The best is the cheapest, if you get and use it fresh roasted.

MAN FLEEING BEFORE BULL IS SHOT.

SALEM, Or., Oct. 18.—(Special.)—Cecil Wright, a young man employed on the farm of Clarence Downe, near Aumsville, was accidentally shot in the right leg and seriously wounded yesterday by his employer, when the latter fired his shotgun at an enraged bull which was charging Wright. In his excitement, Downe missed the bull and the contents of the gun struck Wright in the leg below the knee. The wounded man was brought to a Salem hospital.

TEN WEEKS IN BED— EMINENT PHYSICIANS FAILED— WONDERFUL RECOVERY.

I wish to inform you of the great benefit I have derived from the use of Swamp-Root. I had been a sufferer for more than twenty years from kidney and liver trouble and was almost constantly treated by the most eminent physicians who could only give me temporary relief. I had been in bed ten weeks when I began the use of Swamp-Root. Inside of twenty-four hours I was on my feet, and I was greatly benefited. I continued to use Swamp-Root until I had used several bottles, when I really felt that my old trouble was completely cured and I am positive that any person suffering with kidney or liver trouble can be cured by the use of this preparation.

I am now in the best of health, better than I have been for ten years or more. I do not know how to express myself as strongly as I desire, in favor of Swamp-Root. I can confidently say it can be benefited as I have been. It is a pleasure for me, gentlemen, to hand you this recommendation.

MRS. H. J. PRICE, 7406 Center St., Portsmouth, Ohio.

Personally appeared before me, this 15th day of September, 1909, Mrs. H. J. Price, who subscribed the above statement and made oath that the same is true in substance, and in fact.

R. A. CALVERT, Notary Public.

Prove What Swamp-Root Will Do for You. Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about kidneys and bladder. When writing, be sure and mention The Portland Daily Oregonian. Regular fifty-cent and one-dollar bottles for sale at all drug stores.—Adv.

AVOID ALL MEATS IF KIDNEY'S AND BLADDER BOTHER

Uric Acid in Meat Excites Kidneys and Irritates the Bladder.

Take Salts at First Sign of Bladder Weakness or Kidney-Backache.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the outlet of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passing sometimes with a scalding sensation and is very profuse; again there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant effervescent lithia-water drink which quickly relieves bladder trouble.—Adv.

Rheumatic Fever

Surrenders to Anti-Kamnia Tablets. In the treatment of Rheumatic Fever many physicians employ purgatives, but Dr. M. F. Creed thinks that mild laxatives are better. When the patient is bilious he gives salomel in small doses, one-fifth of a grain every hour until a grain has been taken. Then after four hours he gives the patient a half ounce of citrate of magesia, with syrup of lemon to disguise the taste, or he keeps the bowels open with the mild laxative "Antocid." The diet should be light, and all animal food should be excluded as far as possible from the dietary. For the pain and fever he has found nothing equal to the most simple analgesic, giving every 2 to 3 hours as follows: two tablets every 2 to 3 hours as required. These tablets may be obtained from all druggists in any quantity desired. Ask for A. K. Tablets. Unexcused for Headaches, Neuralgias, and All Pain.

MOTHERS OF THIS COUNTRY

have through all ages past and will through all years to come take care of the ordinary simple ailments incident to every family with their own favorite remedy.

In almost every home in the land Lydia E. Pinkham's Vegetable Compound is the recognized standard household remedy for female ills; thousands of American women owe their good health to it. Made from the roots and herbs of the field, it is a simple remedy in which suffering women may place perfect confidence. It contains no narcotics or harmful drugs.—Adv.
