

TEN A WE BRIDGE FRANCHISE DRAWN

Tolls for Common Carriers Also Scheduled by Interstate Commission.

BUDGET MAY BE \$135,000

Twelve Men Probably Will Be Required for Operation of Columbia River Span—Board Will Be in Full Control.

VANCOUVER, Wash., Oct. 28.—(Special.)—A tentative franchise form, providing tolls to be charged common carriers across the Columbia River Interstate bridge, connecting Vancouver and Portland, was today adopted by the Interstate Bridge Commission.

The form was drafted by Walter Evans, District Attorney of Multnomah County, and E. E. Howard, of the bridge engineers, Harrington, Howard & Ash.

Copies will be sent to all interested, with requests that they return written briefs, containing desired changes.

A hearing of protests will be held Tuesday, January 4, in room 209, Multnomah County Courthouse.

Present at the meeting were Rufus Holman, chairman; Philo Holbrook, W. L. Lightner, of Multnomah County, and A. Rawson, W. S. Lindsey and John P. Kiggins, Clarke County Commissioners, and William N. Marshall, clerk of the board.

Twelve Men Will Be Needed. The board has not yet made a budget showing what it will cost to operate the bridge, but it is presumed an informal one will name \$135,000 per year. It probably will require 12 men to operate the bridge, with a crew of three working three shifts, a third shift being necessary to permit each crew to take off one day a week.

Whether or not Clarke County will be permitted to pay the interest directly from the tolls of the bridge is a matter to be later determined.

The toll rates as proposed are: Each person riding an animal, or on a vehicle capable of carrying 25 passengers or less, 2 cents; same, upon a vehicle capable of carrying more than 25 passengers, 3 cents; a trolley car, 25 cents; trailer, 25 cents; passenger vehicles and cars having seats for more than eight persons, 25 cents; a self-propelled vehicle moving under its own power, not otherwise specified, including farm engines and road rollers, 25 cents; freight cars running on the railway tracks, either self-propelled or drawn, \$1; electric locomotives, 15.

Commission to Keep Control. These tolls do not include those for anything other than common carriers, which will be compelled to get a franchise to operate over the bridge. The franchise is so drawn that everything is in the power and management of the Bridge Commission and no company securing a franchise could sue for rights. The franchise is granted to terminate December 31, 1940. The tolls to be used in the construction of the bridge are \$10,000,000, or \$100,000,000 per year. Wires crossing the bridge are to be in conduits.

The tolls proposed must first be approved by the Interstate Commission, then the Interstate Commerce Commission.

The jitneys were mentioned and it was said that the jitneys probably will have to be reckoned with as common carriers, though they would not be compelled to secure a franchise.

GOVERNOR VIEWS GRADE

STATE TO BE ASKED TO PAY PART OF COST OF SISKIYOU ROUTE.

Mr. Withycombe Declares Pass Is Significant Work and That Project Not for County Alone.

MEDFORD, Or., Oct. 28.—(Special.)—After motoring over the Siskiyou grade of the new Pacific highway, Governor Withycombe declared the road not only one of the finest he had ever seen, but promised a local delegation that he would do everything in his power to have the state reimburse Jackson County for a large part of the cost of construction.

"I had heard a great deal about the Siskiyou grade," said the Governor, "but this trip today surpassed all my expectations. In every grade, scenic beauties and permanence of construction this road equals anything in the state or on the Pacific Coast. I certainly admire the enterprise of the people of Jackson County that made it possible. This road links the highways and settlements of two states and is a very enterprising piece of work. It is strictly a state proposition and not one for a county to carry by itself. I shall heartily favor legislation that will reimburse Jackson County for a large amount of the expense of its construction."

The Governor was accompanied by Assistant Engineer W. H. North, Chief Davis, Mrs. Withycombe, Miss Mabel Withycombe, S. S. Smith, of Medford, and Colonel C. McLaughlin, of Portland. The party took the train from San Francisco at the small station on the crest of the mountain.

BIDS CALLED TOO HIGH

Engineer Says Prices for Paving Work Out of Proportion.

If recommendations of R. E. Kremers, chief of the municipal bureau of highways and bridges, are followed, the Council will reject all bids for the replacement of the surface of the pavement on East Thirty-ninth street from Ankeny to Burnside streets, which was torn up by the bursting of a water main there recently. Mr. Kremers says the bids are too high.

Oskar Huber bid \$1.50 a yard for a two-inch top for the pavement and \$1.25 a yard for 1 1/2-inch top. The Warren Construction Company bid \$1.65 for the two-inch surface and \$1.50 for the 1 1/2-inch surface. Mr. Kremers says the city is getting similar work done on upper Washington street for \$1.10 a yard. With a municipal paving plant he says the work could be done for about 65 cents a yard.

Tractor Pulls Plows.

CENTRALIA, Wash., Oct. 25.—(Special.)—A small tractor, pulling three plows, is being used by E. H. North, chief of the municipal bureau of highways and bridges, to level the road on upper Washington street for \$1.10 a yard. With a municipal paving plant he says the work could be done for about 65 cents a yard.

OHIO CAMPAIGN HOT

Vote on Liquor Issue to Be Closer Than Last Year.

ELECTION CURB ISSUE, TOO

Brewers Also Working for Amendment Which Would Prevent Liquor Issue Being Submitted Again for Six Years.

COLUMBUS, O., Oct. 28.—The camel which for many weeks has been foraging in many states of the Union, is nibbling the herbage on the borders of Ohio and may make this state another of its pasture lands. On November 2 the citizenry of the state will vote on an amendment to the constitution to prohibit the manufacture and sale of intoxicants within the state's borders.

One year ago a similar proposition was defeated in Ohio by a majority of 4,112 votes. This year, and the "wets" themselves admit it, the vote will be much closer.

Since last April dry speakers have gone up and down the state pleading their cause. Now the closing week of the work, speakers of National prominence have entered into the warfare.

William Jennings Bryan will have made 42 speeches in cities and towns of important during the last six days. Other speakers are Richmond Pearson Hobson, Sam Small, of Atlanta, Ga.; John G. Woolley, of Madison, Wis.; T. Alex Cairns, of New Jersey; Dan Morgan Smith and Scott McBride, of Chicago; ex-Congressman Fred Landis, of Indiana; and Seaborn Wright, of Georgia.

Wets Will Delay Next Vote.

While the prohibition amendment is the main issue, there is another which is considered of little less importance. That is an amendment supported and advocated by the wets, which provides that no amendment or part of one twice before the people for decision at the polls can be submitted to them again within six years after the second election upon it.

The brewers' stability league, arguing that this annual agitation of the saloon question is a bad thing for the state, is behind the amendment. The "drys" feel that nothing their opponents could have done could have helped the "dry" cause more than the promulgation of this proposition. It is true that many citizens who may be on the fence regarding the prohibition amendment are strongly opposed to the

NEW YORK NEWSPAPERMAN WILL ADDRESS JOURNALIST STUDENTS.

Philip Henry Burchell. UNIVERSITY OF OREGON, Eugene, Oct. 28.—(Special.)—University journalists will have the opportunity on November 3 of hearing Philip Henry Burchell, sporting editor of the New York Times, tell of writing sporting items and at the same time hear a man who is writing intelligently of athletics, for he gained his knowledge from actual experience and participation on the field of play.

Henry Burchell, in his undergraduate days, played football at the University of Pennsylvania and at Columbia University, New York. Mr. Burchell is president of the sporting writers' association of Greater New York.

Drug Prices to Advance.

OREGON CITY, Or., Oct. 28.—(Special.)—A general rise in the retail price of all prescriptions and drugs will be effective in Oregon City soon, following a recent meeting of the local druggists.

The druggists in a statement today explained the effect of the war on prices and the possibility of a drug monopoly in the country.

Flag Given Polk Court

MR. McCAMANT PRESENTS EMBLEM FOR PATRIOTIC ORGANIZATION.

Sons and Daughters of Revolution to Provide Standards for Other Courts Throughout State.

DALLAS, Or., Oct. 28.—(Special.)—Wallace McCamant, of Portland, today presented to the Circuit Court of Polk County a beautiful silk flag adopted to a standard, the gift of the Sons and Daughters of the American Revolution.

Polk County is the first county in the state to benefit thus from the generosity of the patriotic organization.

Flags will be presented to other courts of the state next week.

Mr. McCamant, in presenting the flag, made an interesting and patriotic address. Mr. McCamant's remarks, Mr. Holman fittingly remarked, "Persons becoming naturalized citizens of this country should be made by the court to understand that their loyalty was due first to the American flag. Those persons have much to be thankful for; they have much reason for being loyal. When they come to this country they come as subjects. When they have taken the oath of allegiance to this Nation and have been duly admitted to citizenship, they become kings, for all men in this land are free and the brave are kings and all women queens. They know no master save their own conscience and the law which they themselves have enacted for their own conduct."

The flag will be used by Judge Belt when naturalization proceedings are being carried on in his court, and he promises to call the attention of each naturalized citizen directly to it and what it stands for.

WOMEN IN AUTO UPSET

DRIVER OF COLLIDING CAR RUSHES ON, GIVING NO AID.

One of Four in Machine Is Injured Severely—Occupants Say Other Car Kept on Its Way.

Four women were thrown from an automobile and one injured severely late yesterday by the overturning of their car in a collision with another machine on the Sandy road just this side of Fairview. The women reported that the driver of the other machine went on without offering assistance.

The occupants of the overturned machine were: Mrs. Susie Ackroyd, 355 Cherry street, who received several bruises about the chest and arm; Mrs. C. E. Mathews, 236 Cook avenue; Mrs. Van Clayton, 128 Wilbur avenue, and Mrs. Frank Cholifer, 126 Grand avenue. Mrs. Mathews was driving the car which was wrecked.

All the women were picked up by a passerby and taken to the County Farm. The accident was not reported to the sheriff until the women arrived at the Good Samaritan Hospital in the care of the Ambulance Service Company late last night.

Mrs. Mathews said last night that the party was returning from Troutdale. The other car, she said, met them as they were passing a wagon. Mrs. Mathews asserted that the driver, who was accompanied by a woman, made no effort to turn out. Mrs. Mathews says the woman in the other machine cursed the overturned party as the other machine sped on.

None of the women remembered the license number of the other car. Mrs. Mathews said the machine was a seven-passenger automobile. She said she crowded her machine as far as possible to the right, but was unable to avoid the other driver. Deputy Sheriff Phillips will try to trace the driver today.

DALLAS SETS MARKET DAY

Free Public Auction Will Be Held Next Saturday.

DALLAS, Or., Oct. 28.—(Special.)—The Dallas business men met last evening in the Courthouse in a mass meeting, called for the purpose of considering the establishment of a Saturday market day for Dallas and to listen to an address by A. L. Fisher, of Albany. The meeting was well attended and much enthusiasm shown, and the proposition endorsed.

Next Saturday F. E. Davis, a furniture dealer of this city, will hold the first market day in Dallas. Articles for sale will be received by Mr. Davis, and through the services of a first-class auctioneer will be auctioned off on Saturday. Persons having articles to sell are charged nothing as commission or otherwise.

Rabid Coyotes Menace Stock.

BERKELEY, Cal., Oct. 28.—Rabid coyotes are on the warpath in Northern California, and the livestock men of that region are advised, in a warning issued today by J. C. Geiger, director of the state hygienic laboratory at the University of California, that the danger of an epidemic is imminent and that immediate steps should be taken for their extermination.

One California Measure Carries. SAN FRANCISCO, Oct. 28.—Virtually complete returns received here tonight from Tuesday's general election showed that proposition No. 4, stipulating that

Scarlet fever is practically unknown in the United States and doctors say because so little fresh milk is drunk here. The streptococcus which occurs in large quantities in most raw milk, is always present in scarlet fever and experts see in that a cause and effect.

Judges of the higher courts shall retain office until their successors qualify, was the only measure to carry.

VANCOUVER MAN ACQUITTED

Jury Finds Frank Arnold Not Guilty of Highway Robbery.

VANCOUVER, Wash., Oct. 28.—(Special.)—Frank Arnold was acquitted of a charge of highway robbery by a jury here last night. The jury was out but a few minutes.

The defense completed its evidence early in the evening. Prosecuting Attorney J. O. Blair and Attorneys D. J. Arnold and Donald McMaster for the defense, consumed nearly four hours in the summing up.

It is believed that the case of Judd Arnold, a brother of Frank Arnold, held on a criminal charge, will not be brought to trial. The case against Frank Arnold was considered the stronger of the two.

Rabid Coyotes Menace Stock.
