Seven Playgrounds' Directors Also Cut Off and Budget Trim for Day Is \$8465.

MR. BAKER OPPOSES ACTION

Mr. Dieck and Mayor Albee Both in Favor of Providing for Municipal Band Later if Sufficient Money Is Available.

CITY BUDGET FIGURES AS SUBMITTED TO CITIZENS' ADVISORY COMMITTEE.

Seven of the usual number of playground directors and at least half of the annual Summer park band concerts fell victims to the City Council budget pruning knife at the windup of the Council budget meetings yesterday. The band concert appropriation was trimmed from \$10,000 for 60 concerts to \$5000 for 30 concerts, and \$1540 in salaries of seven playground directors was cut off. These "economies" were put through over the vigorous protest

of Commissioner Baker. Commissioner Dieck made the move against the park band concerts, saying that the city's finances are such that the usual number of concerts is not advisable. He said he would favor in-creasing the amount during next year if any money becomes available.

Mr. Baker Opposes Cut.

"Forget that part of it." said Commissioner Baker. "If you cut it out of the budget you won't have any money to appropriate. The band concert is the one thing in my budget that I positively want left in. The park band concerts are of a great benefit, thousands of people enjoying the music during the Summer months. The poor and the people of ordinary means set more out of this annual \$10,000 park band appropriation the city makes. It is the poor people's Summer musical entertainment."

But the concert plan fell by majority vote of the Council. Mr. Baker voted against the motion to cut the appropriation in two, while Commissioners Dieck, Bigelow, Daly and Mayor Albee voted the other way. The Mayor made a point of appropriating additional money during the Summer if there is any money available. Mr. Baker Opposes Cut.

money during the Summer it there is any money available.

Again Mr. Baker told the Council to forget that plan, because, he said, there would be no surplus money next year. Playground Appropriation Cut.

Playground Appropriation Cut.

When the band concerts had been knifed the Council turned attention upon the playground directors. There were 42 in the service last Summer, and Mr. Baker had asked for the same number for next year. He explained that, while there is great demand and need for additional directors to have charge of children at playgrounds not now having an attendant, he had not asked for an increase beyond the present year's appropriation.

ent year's appropriation ent year's appropriation.

The minjority of the Council—Dieck.
Mayor Albee and Daly—could not see it
that way, and instead of following Mr.
Baker's recommendation, trimmed out
\$1549 in salaries. Mr. Baker says this
means seven of the present riayground
directors.

"That's had business," said Mr. Baker, as the knife dropped on the appro-

priation.

Finishing with this operation the Council proceeded to lop off odds and ends of items. The total cuts amounted to \$1925 in small items, which, with the band concert and playground director cuts, made a total reduction of \$5495 in the department.

The Council finished its work yesterday and adjourned until 9 o'clock tomorrow morning, when the first session will be held with the citizens' advisory committee appointed some time ago to assist with the final budget figures.
