WOMEN WHO LEAD THE WAY BY MARIE DILLE.

Miss Marion Tilden Burritt, a Worker for Pence,

FOR many years the public has known indirectly that Marion Burritt had indirectly that Marion Burritt had a "cause." It was not, however, a cause that aroused a great degree of interest until the outbreak of the war. Miss Burritt is a peace advocate who does not limit her activities to war times. She was working for peace before the present conflict was dreamed of. She believed that a preparation for war invites it, and tried to make clear to others the ideas that were so clear to herself. She believes that a constantly supported war machine is a drain on the people of a country and leads to conflict and poverty. Miss Burritt is the field secretary of the New York Peace Society and a member of the peace committee of the New York Pederation of Women's Clubs. Her greatest work has been arousing the interest of women and children in a movement toward peace. She has not limit her activities to war times. in a movement toward peace. She has done this largely through the women's clubs of the country. For four years now she has devoted her time to educating women and children for peace.

For many years physicians have agreed that 95 per cent. of human ills was caused by accumulated waste in the Lower Intestine; that in our present way of living Nature could not remove all this waste without assistance, no matter how regular we might be; and that the poisons from this waste circulating through the blood pulled us away down below par and were responsible for many diseases of a serious nature.

During this time the "I R I Careade"

pulled us away down below par and were responsible for many diseases of a serious nature.

During this time the "J, B, L, Cascade" for Internal Bathing has, because of their recommendation and those of its users, been steadily growing in favor.

Recently, however, the startling news which has been covering the country that great surgeons and specialists have been operating on the Lower Intestine in such serious diseases as Tuberculosis, and attribute such conditions of chronic ill health as Nervous Debility and Rheumatism to this cause, also saying that these poisons are favorable to the development of Cancer and Tuberculosis (as stated in a recent article in the New York Times), has caused Americans to become thoroughly awake to the importance of keeping this Lower Intestine free from all poisonous waste matter, and over 300,000 are now using Internal Baths.

If you try the "J. B. L. Cascade" you will find yourself always bright, confident and capable—the poisonous waste makes us billous, blue, dull and nervous. Internal Baths are Nature's own cure for Constipation—just warm water properly applied. Drugs force Nature—the "J. B. L. Cascade" gently assists her,
