Holders in Country Demand \$30 Coast Basis, and Business Passing at That Price - Interior Millers Buy Wheat.

Helders of barley in the country are asking 230 a ton. Coast, track basis, and there has been some buying in the interior at that price. This is above the expert value of the cereal, figuring on 100s freight and the supposition is that the buring is mainly apeculative. The strength of the market is explained by the reduction in first-hand boldings, as it is satimated that not 25 per cent of the crop remains unsoid. At the Murchants' Exchange vesterday November heaving barley bids were unchanged at \$28.56, with \$29.50 saked. December offers were 50 cents lower at \$28.50, with \$22.75 asked. Chicago Market Strong on Big Export Business.

HEAVY SALES AT SEABOARD

Revival of European Demand Due to Hopeless Prospect of England Getting Supplies From Russia or Balkans.

CHICAGO, Nov. 4.—Big export sales had a decidedly strengthening effect today on wheat. Prices closed strong, 1% 21% to 1% 22c not higher, with December at \$1.05% 681.05%, and May at \$1.05% 210.5%. Corn finished had a with a strength of the control of the contro \$31.05 %, and May at \$1.05 % \$1.05 % \$1.05 %. Corn finished %c to % \$10 up, and oats with a gain of % cents. Provisions showed a less of 487 % to 35c.

Bathmates of export business in wheat tonical 3,600,000 bushels. The greater part was Manitoba, said at the seaboard, but some domestic hard Winter wheat to go by way of the Gulf of Maxico was also included. It was further said that inquiry from the scaboard had been made for large ameunts of Winter wheat in the West. Causes of the broadening out of European demiand assemed to be sufficiently explained by Liverpool advices that prospects of any supplies from Russia or the Balkans were now considered hopeless, and that the world's available surplus had therefore been reduced 240,000,000 hushels.

In this connection the fact was nointed out that British port stocks had been cut down nearly one-third as compared with 8 year ago. a year ago,

Corn and oats worked higher, commencing
with the streamsth of wheat. Besides, there
were persistent rumors of liberal export
business in the coarse grains.

Lewer prices on hogs weakened provisions. About the only important buying
came from traders who were short offard.
