

WOMEN SHOW DEEP INTEREST IN STOCK

Oregon's Winnings in Sheep and Swine Cause Joy in Extended Circle.

REMARKABLE RECORD MADE

State Particularly Proud of Success of Member of Commission. Summary of Results in Important Classes.

BY ANNE SHANNON MONROE. OREGON EXPOSITION BUILDING, San Francisco, Nov. 7.—It was difficult to know Saturday what was best to do—stand rooted to the soil and hanging over the rope that shut out the observers from the animals being judged at the sheep, sheep and goat show, or go on away and fill up the time with music and art until the suspense was over. One Mrs. Riddell, keenly interested in the Riddell & Sons' entries of Cotswold sheep—stayed all day at the scene, while another came to the Oregon building and waited.

It is wonderful what an interest women are taking in livestock breeding, not alone the wives of breeders but independent women. Nothing else was talked all week—among those intelligently in touch with the subject and when I called up the livestock division for the last word in prizes an eagerly excited woman's voice came back: "Yes, I'm from Oregon, too, and I shall get all I can as quickly as possible. Oregon did wonderfully!"

Interest in Oregon is keen. She sat there digging out the Oregon winners from the vast mass of records for all the other states and nations, so that Oregon could learn quickly its rating, because we knew the time was needed for office duties and she probably worked that night to make up. But she was from Oregon—and she was interested in stock, and it was not too much to do.

Of course at the Oregon building we were all particularly proud of C. L. Hawley's winnings, because we knew him and liked him and wanted our commission—which embraces so many activities vitally connected with Oregon's prosperity—to include the farmer's end of things. The sheep winnings so far obtainable follow:

C. L. Hawley, of McCoy, under the firm name of Hawley & Sons, champion for Lincoln sheep.
Riddell & Sons, of Monmouth, champion for Lincoln sheep.
E. Kiser, of Hartburg, took all the ribbons for Oxford.
W. H. Cleveland won all the ribbons for Dorset horned.
J. G. R. Hubbard & Sons, of Corvallis, took all the ribbons for Southdowns.
C. E. Cleveland, of Gresham, took second, fourth and fifth prizes for Shropshire, the set one one sire, and second, third and sixth for Shropshire lambs.
F. A. Koser, of Rickwood, won third and fourth on Cotswold.
D. J. Kirby, of McMinnville, won fifth, sixth and seventh in the same section.
William Riddell, of Monmouth, won first prize for Cotswold ram.
F. A. Koser, of Rickwood, on Cotswold ram won first, second and third prizes.
D. J. Kirby, of McMinnville, on Cotswold ram won first, second and third prizes.
The fourth went to William Riddell, the fifth to F. J. Kirby, the sixth to William Riddell, the seventh to F. A. Koser.

Oregon took every Cotswold prize but one, which went to the University of California in the Shropshire, ran two years with Cleveland, of Gresham, took third, fourth and fifth prizes; ran under two years, C. E. Cleveland won fifth and sixth. The competition was keen in Shropshire.

Oregon Takes Swine Prizes, Too. A summary of Oregon's winnings in the swine department so far as obtainable is:

M. W. Hogg, of Salem, took second on pair of two years, with Clymers. The competition here was keen; also four place with Panama King, a boar under 18 months, and second and third prizes with boar under 12 months, the winners being Panama Black and Panama Chief. In 2-year-old sow class Mr. Hogg took first with S. M. Darkwood, and in sow under 18 months class first, with Meadow Girl.
In sow under 18 months class, he took second prize with Miss Oregon. In sow under 12 months class he took second prize with Miss Sam, fourth with Miss Fred, and fifth with Cleo. In sow under six months class, he was third, with Roy, Klutzie.
In the Berkshire, S. R. Steel, of Grants Pass, won fifth prize with Big Four. In class of boar under six months, E. Warlock, of Dayton, won fourth, with Yakima Bacon; on boar under six months, Warlock won second with Roy, Klutzie.
In the Duroc Jersey, boar under 12 months, C. A. Hoover, won second with Panama Chief; boar under six months, Hoover won third prize; sow under two years, first with Crimson Elizabeth, and

PLIGHT OF SERBIAN ARMY MORE ACUTE

Bulgarians Tighten Grip on Railroads, Austro-Germans Continue to Advance.

INVADERS IN MOUNTAINS

Increasing Strength of French Beginning to Count in South—Turks Have Supplies on Way to Turkish Capital.

LONDON, Nov. 9.—Every day, every hour adds to the peril of the Serbian army, which are fighting desperately to hold back the Austro-Germans, pressing them from the north and the Bulgarians invading their country from the east, until the assistance their allies are sending can reach them.

The Bulgarians have extended their grip on the Belgrade-Saloniki railway north and south of Nish and have occupied Leskovac, sootial, the captured capital, and Aleksinac to the north. At the latter point they are in close touch with the German army, which, after occupying Krusevac, extended its left wing as far as Djunis, on the left bank of the Bulgarian Morava.

The Austro-Germans, advancing southward, are making progress except in the west, where they are being held by the Montenegrins. The invading forces are now reaching the most difficult part of Serbia, the mountainous region where the natives, knowing every hill and gully, can offer the strongest resistance. The Austrians and Germans, however, are plentifully supplied with mountain guns, with which they expect to drive the defenders from their fastnesses.

In the south the ever-growing strength of the French and British forces is beginning to tell. They are carrying on an energetic offensive against the Bulgarians, have managed to keep the railway clear as far as Velest and are barring the Bulgarians' route to Monastir.

While it will be some time before the Germans can sufficiently repair the northern end of the railway for the transport of troops and munitions, their successes have enabled them to send supplies to the Bulgarians and Turks by the Danube as far as Mikopolis, from which point they can be sent by rail to Sofia and Constantinople.

WASHINGTON, Nov. 9.—President Wilson today appointed ex-President Taft chairman of the central committee of the American Red Cross, to succeed Major-General George W. Davis, retired.

When General Davis determined recently to give up the work President Wilson, mindful of ex-President Taft's experience for many years as president of the Red Cross, wrote him, asking if he would accept the chairmanship. The President received a letter from Mr. Taft saying he would be glad to again associate himself with the society's work. The appointment immediately followed.

Mr. Taft's appointment, it is said, means that he will take active charge of the central governing body of the Red Cross, which passes on all administrative affairs of the organization.

NEW YORK, Nov. 9.—It would cost New York City \$285,000 to lift off the mosquitoes within her boundaries, according to an estimate of the Board of Health submitted at a public hearing today of the public health council, which is considering methods of ridding the city of the pests. This estimate was based on the drainage of 25,500 acres of swamp lands in the metropolitan area.

Dr. C. B. Davenport, of the Brooklyn Institute of Arts and Sciences, which has made tests on Long Island, testified that the ordinary salt water mosquito had an effective cruising radius of 15 miles.

SEBRING, O., Nov. 9.—Four hundred girls employed in the potteries here today tied up many of the most important departments of the different plants by striking for an advance in wages. They have been receiving \$1.50 a day and demanded \$1.75.
