SHORTS IN SQUEEZE

Hop Growers' Association Is Winning Its Fight.

PRICE STRONG AND RISING

Scramble to Cover Sales With Limited Supply Available Is Forcing Values Upward - Big Advance in English Market.

The wisdom of the Oregon hopgrowers it forming a holding association this year has been amply demonstrated by the course th market has taken lately. The withdraws rom the market of such a large block of hops as the association controls has brought on a squeeze of the short interest, the like of which they have not known for years. But for the sales made by growers outside association there is little doubt that its would be still higher and the pinch more acute.

The uncovered short account appears to The uncovered short account appears to be much larger than was expected. It is causing the speculators no little worry and they are now bidding against each other in their efforts to get hope of a quality good enough to fill their sales. Twelve cents was freely bid for good Oregons yesterday and there were offers of il cents for loss of only medium grade. It is only a

A London cable brought the news yester-day that over 75 per cent of the English crop has been sold to date, and that the market for English hops has advanced 15 shillings a hundredweight, which is equal

to about 3% cents a pound.

A trade circular, issued by Cattley, Gridley & Co., of London, received by mail, says:

"During the past week the market has abown rather thereased activity, especially in regard to choicest samples of the English growth. Values of these are maintained, but the other qualities are somewhat easier as relative grades become better appreciated both by buyers and sollers. Bright, sunny samples are scarce, the average of the whole growth having rather a dull and unified. growth having rather a dull and unripe apearance, though of good brewing quality The Pacific Coast markets are reported quiet for ordinary hops, but there is a strong demand for choice samples, which are not at all easy to negotiate, for even at rather higher values than last week."

SCARCITY OF BURLAP SEEMS SERIOUS British Government Takes Over All November Calcutta Steamers.
Cables received from Calcutta by New

Yerk buring importers state that all of the Bucknell Line steamers had been commundered by the government for the current month. This was a confirmation of the news received last week that several atcamers had been impressed. Importers de-clared, according to New York advices, that under this condition a congestion of freights under this condition a congestion of freights was unavoidable and that few goods other was unavolutable and that few goods other than those on the water will reach this country intil well into next year.

One of the large importing houses which offered goods for November-December shipment withdrew all quotations on goods for

shipment during the month of November On receipt of the above news one large bag manufacturing concern withdrew all offers of spot and affeat goods. Other Calcutta shippers called that they could not quote as they could not obtain freight space.

FROST CUTS LATE GRAPE CROP Shipments From Callfornia Are Also Nearly

What is believed to be the last shipments of Southern Gregon grapes has arrived. Re-ports from that section are of frost cutting short the late crop. The season for California Tokays is also about over and storage grapes are being drawn out. There are East-ern Concords on the market, which appeal strengly to many buyers, particularly those recently from the Eastern states.

A car of Florida grapefruit arrived and sales were made at last week's prices.
The potate market is firm with 11 quoted by jobbers on the best Oregons. Yakima Netted Gems are allied. Netted Gems are seiling at the same price. Northern Pacific size, 16 to 22-ounce Gems, are quoted at 1% to 2 cents a pound.

Poultry Trade Is Good.

altry was steady with the supply and demand about equal. Largo hem brought if cents and small Springs sold at the same price. Ducks and geese were scarce. The year market was firm at 10 cents for the best, but pork was weak at 75 ms cents.

There were no changes in the eng of butter markets.

Sugar Strong and Higher. All grades of refined sugar were ad-vanced 15 cents in the local market yester-day to \$6.50 basis for standard cane gran-ulated. Another advance took place in the

Eastern market, which will mean a further rise locally today of at least 10 cents and possibly 25 cents.

Strong Demand.

WAR SHARES IRREGULAR

United States Steel Records Wide Advance on Favorable Showing of October Business, Which Is Best in Years.

cleavage between standard stocks and those in the speculative class was the significant feature of today's active market. Investment issues, especially high-grade railways. ment issues, especially high-grade railways, were consistently strong and in good demand, while war shares and silied issues were again subject to severs shrinkage.

Declines in war stocks during the precipitate break of the mid-session, ranged from 5 to 10 points, while Bethlehem Steel, at its low figure of 400, showed a loss of 35 points, though closing at 430. The weakness of Bethlehem was naturally ascribed to the damage and possible delay in operations resulting from a fire at the company's main plant, but the violence which attended the slomp in such descriptions as Baldwin Locomotive, Studebaker, Lackawanna Steel, Crucible Steel and Continental Can, were largely in the nature of a weeding out of weakened accounts.

in the nature of a weeding out of weakened accounts.

United States Steel, in which trading was the largest of any recent day, opened at a fractional decline, but gradually rose 2% points to 87%, closing at a small fraction under its maximum. Steel's strength was directly traceable to the corporation's highly statifying October sustement, which disclosed an increase of about \$50,000 tons in unfilled orders and exceeded any similar exhibit since the early months of 1913.

Railway steels were at their best in the later dealungs, Southern Pacific and Canadian Pacific leading the broad upward movement. Southern Pacific's rise of 3% points to 103%, its highest quotation in two years, gave point to the negotiations now under way between a banking syndicate and the Pennsylvania fiailread for the latter's large holdings of Southern Pacific Shares.

A warage sains of 1 to 2 points were scored by Marcage sains of 1 to 2 points were scored Feensylvania Raliroad for the latter's large holdings of Southern Pacific Shares.

Average gains of I to 2 points were scored by Union Pacific. St. Paul. New York Central, Reading, and Norfolik & Western, and specialties made pronounced recoveries, some showing net gains on the day. Total sales amounted to 1,220,000 shares.

Bonds shared only in moderate degree with the advance in stocks, additional "future" sales creating some irregularity. Total sales, par value, aggregated \$5,300,000.

United States bonds were unchanged on call.

Bend to approve Fred Hollister's plan of building a coast highway from the Columbia River to the California line the estimates for such a road were placed at \$7.500,000, which engineers believe is about half what such a project would require.

Speakers arzued that the United States Government might give one-half the necessary fund, one-quarter might come from the State of Oregon, the remaining one-quarter might be paid for between the seven counties bordering the Pacific Ocean, thus requiring from each approximately \$250,000, Committees were appointed to further the work and interest other counties in the move.

The consolidation of the two cities, Marshfield and North Bend, was discussed. The limits of the two cities are only one-third of a mile apart, but the settled portions of the cities nearest together are more than a mile distant.

WISCONSIN EXPERT SEES GREAT OPPORTUNITY IN OREGON.

Dr. David Roberts Declares Eastern Cattle and Western Feed Would Bring About Wenith.

"I am greatly impressed with the tremendous possibilities of the cattle business in Oregon," said Dr. David Roberts, of Waukeshau, Wis., before he left Portland Tuesday to continue a tour of the entire country. "A combination of the Wisconsin cattle and the feed obtainable in Oregon would be the greatest money-making proposition in the world."

Dr. Roberts has served Wisconsin several years as State Veterinarian and has been official veterinarian for several years as State Veterinarian and has been official veterinarian for eattle in the United States.

When Dr. Roberts assumed charge of the stale work in Wisconsin factle and one of the most eminent authorities on cattle in the United States.

When Dr. Roberts assumed charge of the stale work in Wisconsin face cattle losis. Now, however, after many demonstration excursions and a thorough the cattle state of the stale work in Wisconsin face cattle losis. Now, however, after many demonstration of the farmers of his state, the disease has been almost entirely cradicated.

Dr. Roberts was so enthusiastic about the cattle situation in Oregon that he told Henry Frank, of Burning about the cattle situation in Oregon that he told Henry Frank, of Burning about the cattle situation to Combine River.
